ADVANCE IN PROPERTY IN CANADA WEST. -" The Great Western Railroad between London and Windsor literally runs through an uncultivated wilderness, for not one single clearing can be seen but what has been made since the road commenced. At present the line is dotted with new villages, whose names have not vet travelled eastward, viz., Komoke, Eckrid, Mosa, Mount Bridges, Wardsville, Thamesville, Bothwell, and Newton. At these new places there is a Station or Switch, and at all there are a few clearings and some half dozen houses. But lots at all these villages are at tabulous prices, and speculation is most active. Take the most recent instance. Mr. George Brown, (of the Globe) some few years ago bought a wild lot in the Township of Zone, on the line of the railway, seven miles west of Themesville. and twenroad Company, and then had it regularly sur- is translation :veved and divided into village lots of 'a quarter of an acre each. Agent. Hallfax, Dec 26. 8w. No. 80 Bedford Row NOW READY BELCHER'S MAP OF NOVA SCOTIA. Including the Island of CAPE BRETON. Size five feet two inches by two feet SECOND EDITION, corrected to 1855. For Sale at the City Book Stores. For Sale at the City Book Stores. THIS is the largest and only correct Map published of the Province—it has been recently revised and corrected, and the new Counties and I ownships formed since its first publication, accurately, aid down, together with the lines of projected RALLWAYS through the Province, and routes and stations of the TELEGRAPH time. It can be had on cloth and roliers, coloured and var-ished; on blue paper, same sa chart, and on cloth and coloared, in case for the Pocket Beptember 27th, 1855. Lublisher. Newell's Patent SAFETY LAMP 'And Lamp Feeder. WARRANTED to prevent all accidents from the use o BURNING FLUID, PATENT OLL, ROSIN OIL CAMPHENE, and all other explosive compounds used for CAMPHENE, and all other explosive compounds used for the protection of light. This invention is applied to common Finid, Solar and Camphene Lamps, Lamp Feeders, Fluid Holders Lam terna, &c. We respectfully invite the attention of the public to Neweil's Improved SOLAR FLUID LAMP, which gives a steady, brilliant flume, the nearess to Gas, that has ever been produced. The cost of burning being only ONE CENT AN HOUR. A.15.7.-B. De Woll & Co., and Morton & Cogwell, Holin Street, Hallina, N. S
 The following Certificates are a sufficient guaranty of the entire safety and efficiency of the SAFET 1 LAM' AND F. EDEK.
 We have had an opportunity to test the Patent Safety Lemp and Peeder of M. John Newell, of this edg, in regard to the measure of protection which their con-struction affords. In the trais to which we subjected them, we endeword, without effect, to produce explose long of the vapour of the fluid mixed with sit, and to burst them by the pressure of the vapor alose. The principle adopted by Mr New-II is that of the well known Davy Lamp. He has so combined the parts, that we are sature fied that all risk of explosion and in scenced. CHAR T. JACKSON, M D ACG, X. HAYES, M. D Hoston, Ang 30, 1552. Assayers to the date of Mase. Clerk of Market
