The night was clear and bright, though rather cold. The firemen had a hard time of it, some of them being frozen stiff in their clothes.

The church was built 40 years ago, and cost \$25,000. It was a beautiful building, but the loss of the organ, which was admitted on all hands to have been the finest on the continent. cannot easily be replaced.

The origin of the fire is, so far as we can learn

BRIDGING THE NIAGARA AT BUFFALO. The Albany Journal says :- " An application will be made to the Legislature at the coming ession for an act to authorize the building of a hidge across the Ningara Rapids, near Buffalo. ent and dangerous reets, constitutes a serious abstacle to the intercourse between the State and Canada. The plan of the structure concomplates wire draws, which can be easily worked by pachinery, and fold the usual objections to bidges from parties interested in river navi.

COAL PITS .- A most Leart-rending accident occured at the Midiothian Coal Pits, yesterday morning, by which eleven men lest their lives and two others were nearly dead when recovered. This calemity was caused by the breaking in of a large body of water from one or more old and deserted pits into the new one, by which the laborers were immediately submerged and drowned. As is the practice at these pits, no mining being done at night, the engine which raises the coal and men was stopped, the fire permitted to die out, and the ropes all removed from the machinery. About 12 o'clock vesterday morning, whilst one of the negro men was stand ing rear the main shaft, the other hands being the workings several hundred feet below him, he heard the sudden gushing of water beneath, and becoming alarmed, immediately sounded the agail bell above for aid. As soon as the engine could be fired and steam got up, one or two of the miners inquediately descended the shaft, and found at the bottom the man who had given the sional standing in water up to his arm pits and restly dead from cold and plarm. He was ta ken above as soon as cosmble, and some time

Saturday on board the steamer Telegraph, near Baltic .- Watchman. St. Louis, with a carriet bag filled with incendiary The Constantantinople correspondent of the

military were called out tast night, and thirty-

dred of whom have probably been destroyed in joining him—and yet we observe that other companies are being organized in Philadelphia and New York, and probably in New Orleans, to unite with him in his present desperate circumstances. They appear to desire to become " food for powder," and they will be likely to be gratiscrifteed some thousands of human beings; but we think that his career is rapidly drawing to a close and the next arrival will probably bring an account of his capture and death, or of his es-

tance, but was working on his own account, and for his own benefit. He has great energy and probably enlarged capacity; but he certainly did not display much judgment in engaging in so ex-

The coalition against Walker is more extensive than is generally supposed. Not only all the States of Central America, but Venezuela, Chili, Ecuador, Peru, and New Granada, appear to be concerned in it. It is said that Chili is to contribute 1000 men, and Peru \$1,000,000 of operation." the guano fund. This coalition is believed to have been arranged by the Transit Company, when interests Walker has ruined. Thus far, but three States have actually taken the field in matemala, and of these the first appears to be the chief in the fray. This is owing to the Britab aid, which is turnished liberally, British influence being paramount in Costa Rica.—Am.

Try it! Try it!! Try it!!! G. W. STONE'S

The most important discovery ever made in Medical Solences, being a compound of Barks and Rota, which forms the most powerful, asie and agreeable Physic ever offered to the public.

THE necessity of such a medicine has long been felt both by the heads of families and physicians. Its advantages over eatherties given in the form of Pills or Powpers, must be obvious to every intelligent person. It operates more immediately and effectually upon the system and at the same time is infinitely less difficult to administer, being quite agreeable to the taste—It not only produces all the effects where Physic is required, but completely removes habitual costiveness, leaving the bowels corfectly free. It expets all humors from the blood, is a tertain cure for the Piley, regulates the action of the diver, rees the stomath from bile, invigorates the whole nervous system, and removes the cause of all local pains, such as RHFUMATISM, NEURALGIA, TIC DOULOUREUX. GOUT, PAIN IN THE HEAD, SIDE, STOMACH, &c. It may also be relied upon in all diseases of the bowels. GOUT, PAIN'IN THE HEAD, 8IDE, STOMACH, &c.

It may also be relied upon in all diseases of the bowels.

No family will be without it after they have properly tested its merits. Render, if you have tried other r medies without success, de-pair not—relief is now at hand all humours will be eradicated from the blood by the use of one to six bottles. In short, if you require a Physic to any purpose, this a the most reliable, eate and agreeable to the taste that has ever been placed within the reach of the public.
