

"The Waugh Way Wins"

Under the Sun there is something new at last!

THE wise man who said "there is nothing new under the sun" would qualify his statement if he could see the new Waugh "Ninety" drills, because they are as new as tomorrow in the mining industry.

THERE are three of these little drills; one is an auger, while the other two are rock drills of the wet and dry types.

THE "Nineties" will do everything in mine and quarry that could possibly be required of a small, light drill, and they will do it faster and better than it has ever been done before.

WRITE today for one of our new "Ninety" bulletins. They are just as different from the ordinary bulletin as the "Nineties" are from ordinary drills.
