

WHAT GERMAN NEWSPAPER SAYS OF AMERICAN NOTE

German Warships Will Not Expose Themselves to Destruction Through Consideration for Neutrals

Berlin, Feb. 15.—The Vossische Zeitung says that while the searching of ships for contraband previously has been acknowledged procedure, entry of submarine denotes a new factor in naval warfare. The newspaper says the submarine runs a risk against armed merchantmen. Britain has both armed merchant ships and advises them to carry false flags. Shall Germany, in face of such treacherous measures, throw down her arms because an American ship might possibly be wrongly torpedoed. The American Note demands nothing else.

The Hamburger Nachrichten discussing the Note says, that nobody can demand that German warships expose themselves to destruction through consideration for neutrals. American merchantmen, the paper continues, retain their right to sail in the specified waters or to avoid them. If Washington assumed that Admiralty's declaration will not be executed unsparringly, it fundamentally deceives itself.

The threatnings sent out in American Note are quite unimpressive after delivering weapons to our enemies and making no protest against Great Britain's insolence. The United States was itself devoid of any good will whatever towards us. Politely termed expressions do not counterbalance too evident partizanship for our enemies.

The Frankfurter Zeitung says President Wilson's note to Britain does not deserve the name of a protest. It is feeble like the President's entire policy so far towards Britain. Washington's receipt for its relations with the Britois was was his fur, but don't we have him. Washington, however, appears to have another receipt for Germany. If certain people in America do not yet understand that we are fighting for existence and that we cannot be guided by what Mr. Bryan, whose son-in-law and sympathies are in the British army, considers good form. After today the sea around Great Britain and Ireland will be for German warships including submarine war zone and every hostile merchant vessel encountered will be destroyed.

THE RUSSIANS CAPTURE BORCHA

London, Feb. 15.—A despatch to the Times from Petrograd says Bourz Gazette Tiflis correspondent declares that the capture by Russians of Borcha, a village beyond the River Sherokh, Asia Minor, which the enemy had converted into an almost impenetrable fortress, opens the road to the Zaniz copper smelting works, which the Turks seized at the beginning of the war and were holding for German engineers and workmen to take possession of. It is valuable property upon which the Germans had cast long eyes before the war.

Times Says American Note Courteous And Friendly

London, Feb. 15.—Commenting on the shipping sent to the Governments at Berlin and London, the "Times" says the tone of both is most courteous and friendly.

Not the most captious of German critics can detect the slightest want of consideration or good breeding in the remarks addressed to Berlin, but if the protest against German threats is measured and amicable, it is also very explicit, very grave and very firm.

In regard to the Note to Britain, we shall certainly do all that is judged consistent without military safety to meet American wish and assuage their uneasiness for American ships and lives. We would point out, however, that the danger Washington apprehends from British use of the American flag could only arise from neglect of German warships to observe the elementary rules, that visit and search must precede an attack, except where an effective blockade is enforced. The Times declines to believe that the Germans will be able to interfere with the shipping to any very serious extent, and is confident that the German blockade will prove futile even if he measures which the British Admiralty have in hand, do not immediately and finally bring it to an immediate and humiliating end.

Battleship Audacious Afloat Once More

NO DIFFICULTY IN SATISFACTORY

Reply to American Note Say London Papers on Use of American Flag by British Merchantmen

London, Feb. 14.—That the British Government will have no difficulty in giving a satisfactory reply to the American note on the use of the American flag by British merchantmen, is the contention this afternoon of the papers in London, which virtually unite in expressing the opinion that a neutral flag will be used by British vessels only as an intimation to German warships that there are neutral passengers and goods aboard.

The Evening Standard, basing its judgment on the tenor of the American note, says: "It is plain in which direction America looks for the possibility of trouble. If Germany does not now understand the meaning of the note, and realize the false position into which she has been led by the arrogance of the official minds of Berlin, she must abide by the issue."

TURKISH FORCE WIPED OUT ON THE GULF OF SUEZ

London, Feb. 15.—A force of two hundred Turks and Arabs under German officers who were preparing to attack the British station of Tor at the entrance to the Gulf of Suez were attacked and either killed or taken prisoners on Friday by British forces, according to British official report from Cairo. The official report states that in January fifty Turks and two German officers approached Tor believing that the place was undefended. Finding Tor garrisoned by 200 Egyptian soldiers they sent for reinforcements. These arrived and the force now numbering little over 200 occupied a village to north of Tor. On their arrival becoming known small detachment British troops landed in their rear and advancing over the hills, made a surprise attack upon their position at dawn on Friday. The official report concludes as follows:—"The enemy's forces were annihilated and over 100 prisoners were taken, among them a Turkish major. Over sixty of their dead were found on the field and it is believed that none got away. Twenty camels were captured and the enemy's camp and their stores were destroyed. Our losses were one Gurkha killed and one wounded."
