

Strict Economy

Buying cheap clothes is not exactly strict economy. You may get a fairly good looking suit say for \$5.00 or \$6.00, but you often remark yourself, or hear remarked, Well, what can you expect for \$5.00.

OUR \$10.00 SUIT

Is made of good material, solid construction, keeps its shape and appearance and will certainly out wear three of the best \$5.00 suits you can get.

VARICOCELE

CURED TO STAY CURED.

Varicocele impairs vitality and destroys the elements of manhood. Surgical means should not be employed to treat this complaint, as operations always weaken the parts. We daily prove by successful results that Varicocele can be cured without operation. Instead of maiming and mutilating the organs, our VITALIZED TREATMENT strengthens the parts, removes all pain or aching, restores the circulation, reduces the swelling, vitalizes the nerves and establishes the vigor of manhood. Our treatment is the result of 30 years' experience. You feel its magic influence during the first week.

BLOOD POISON

For over thirty years we have treated and cured all forms of Blood diseases, both hereditary and acquired. Our New Method Treatment is original with ourselves, and never fails to eradicate the poison from the system. Beware of mercury and other mineral poisons, which so many doctors prescribe for this terrible disease, as they will ruin the system. Other treatments drive the poison into the system, whereas our treatment destroys the virus or poison in the blood and removes it from the system entirely, so the symptoms can never return. If you have any of the following symptoms consult us before it is too late: Blisters, eruptions or pimples; falling out of the hair; itches of the skin; stiffness or pains in the joints, soreness in the muscles, sore throat, ulcers or bad taste in the mouth, sore tongue, sourness of the stomach, enlarged glands, running sores, etc.

Our New Method Treatment will purify the blood, heal up the sores, remove all pains; the hair will grow in again, all organs will be restored to their normal condition, and the patient prepared to renew the duties and pleasures of life. We guarantee marriage possible with absolute safety.

A Church Union Decision

The judgment of the Privy Council in the appeal case of the Free Church of Scotland against the United Free Church is of the utmost significance, and will be of interest to many who are in no way involved in its immediate sweep. It gives to the small and almost insignificant minority of the original Free Church, who remained outside the union with the United Presbyterian Church in 1900 all the property of the Free Church, together with funds amounting to about a million pounds sterling. Canadian interest in this decision is heightened by the proposals of a union of the Presbyterian, Methodist and Congregational Churches in Canada. The questions arise: What about creedal documents and trust deeds? Have the supreme courts of the Presbyterian and Methodist Churches legislative power to modify or abandon foundation principles and documents of their denominations? If the Free Church in Scotland had no power to unite with another Presbyterian and Calvinistic denomination, and if by such union on the part of the majority the entire property holdings, ecclesiastical and educational buildings, and trust funds, belong to the non-union minority, has the Presbyterian church in Canada the power to unite with one church whose policy is Congregational and with another whose doctrinal creed is Arminian? The decision of their Lordships certainly raises large questions, not in Scotland only, but in Canada. The Scottish experience will be a warning to Canadian unionists to consider and settle constitutional questions beforehand.

Appreciation

The Grand Trunk Railway System are in receipt of a letter from Mr. E. C. Bowler, of Bethel, Me., who organized and conducted a party of sixty-four people from Maine to the World's Fair during the month of June, an abstract of which is here given:

"I desire to express my appreciation of all that your people did for me and my party of sixty-four people on our recent trip to St. Louis. Everything was decidedly pleasing from start to finish. The service was excellent; we were always treated with marked courtesy, and everything was done that could be done to make our trip an enjoyable one.

"Certainly, the side attractions afforded by your road are unequalled by those of any other route between Maine and St. Louis, and it was the unanimous sentiments of my party, that the trip with its side attractions was enjoyed fully as much as the Fair itself.

"When I organized this party for the benefit of the teachers and a few friends, I did not have the slightest idea of arranging another trip, but the absolute pleasure which has come to me from the expressed satisfaction of those sixty-four people, together with the flood of inquiries regarding other trips which have come from their friends, who have been enthused by their glowing reports upon their return, has led me to take another party. The second party will leave Portland on Monday, September 19th, over precisely the same route as before, spending a day at Montreal, with carriages about the city and up Mount Royal; a day at Niagara Falls, with Great Gorge ride, Inland Railway, 'Maid of the Mist,' and carriages; a day at Chicago, with automobile rides; and five days at St. Louis."

SEPTEMBER NUMBER

New Idea Woman's Magazine. An article on "The Modern Nursery," by Mildred K. Smith, and the fourth number of "Pedita's Problems," by Alice Chittenden, are to be features of special interest in the September number of the New Idea Woman's Magazine. These two papers are of instant value to all home-makers in their practical suggestions and helpfulness. Both are photographically illustrated. Miss Cory's articles on "Physical Culture" are letters written out of sound knowledge of long experience in her special line of work, and may be depended upon as absolutely reliable in every detail. These articles are illustrated in such a way as to illuminate the specific directions given in the text "Fashions in Shirt-waists" and "Novelties in Men's Wear" are feature articles in the fashion department, which is to be enlarged henceforward by the addition of another color plate.

Only a Mask

Many are not being benefited by the summer vacation as they should be. Now, notwithstanding much outdoor life, they are little if any stronger than they were. The tan on their faces is darker and makes them look healthier, but it only a mask. They are still nervous, easily tired, upset by trifles, and they do not eat nor sleep well. What they need is what tones the nerves, perfects digestion, creates appetite, and makes sleep refreshing, and that is Hood's Sarsaparilla. Pupils and teachers generally will find the chief purpose of the vacation best subserved by the great medicine which, as we know, "builds up the whole system."
