

## TO THE YOUNG MAN

Every young man in the city who is twenty-one years of age and eligible to vote, should not fail to have his name placed on the voters' list, if he has not already done so. Supplementary sittings will also be held in each of these places on the 20th day of May, at ten o'clock in the forenoon.

## WORLD OF SPORT

### BASEBALL

"B" and "C" Companies held good practices last evening for their game on Thursday evening at 6.30.

The Standard Bank players have accepted the challenge of the Chatham Manufacturing Company and the game will come off next Saturday afternoon at 4.30.

### GUN CLUB

The secretary of the Maple City Gun Club received word this morning from F. H. Conover, Lexington, that Hamilton will not hold a summer tournament on account of having the Dominion Trap Shooting contest in August. This leaves Chatham's date during the first week in June practically uncontested and will assure the presence of the best shooters in Ontario.

Mr. Conover suggests holding up a gold medal of \$50 emblematic of Ontario championship. The contest to be thirty targets, fifteen of which to be shot each day and scores to be counted in the high average stakes with \$2.00 entrance fee. This event, of course, would more than pay for itself and would be an attractive feature of the program.

The event next in importance would be the proposed high average stake to be divided into three money—1st, 2nd and 3rd—in the neighborhood of \$15 to \$20.

The third event of importance would be the merchandise events.

Then, of course, the regular sweep stakes would follow in order.

The Club's attractive literature, "Look out for the Chatham shoot," has been sent to the most prominent shooters of Ontario and a gala tournament is looked forward to.

The most lasting reputation is that which deals with deeds well done.

The silver shield for competition

## Well Preserved

Women often astonish new acquaintances, who are introduced to a large family of strong boys and healthy girls, who call this young looking woman mother. It is popularly supposed that maternity is the foe of beauty, and the worn and faded face of many a mother seems to warrant the belief. But it is hard to believe that nature should compel a woman to sacrifice the rightful dower of her beauty in order to carry out a natural function of her being.

And nature does not. The pains and sufferings incident to motherhood, to a large extent, unnatural. This is proved by the use of Dr. Pierce's Favorite Prescription, which prevents and cures nausea, tranquilizes the nerves, encourages the appetite, induces refreshing sleep, and makes the baby's advent practically painless.

Mrs. Orris Stiles, of Downing, Dunn Co., Wis., writes: "I have been intending to write to you ever since my baby was born in regard to what your 'Favorite Prescription' has done for me. I cannot praise enough, for I have not been as well for five years as I am now. In July last I had a baby boy, weight 11 lbs., and I was only sick a short time, and since I got up have not had one sick day. I have not had any uterine trouble since I had my baby, and I usually get it later when I kick myself—Chicago News."

"Favorite Prescription" has the testimony of thousands of women to its complete cure of womanly diseases. Do not accept an unknown and unproved substitute in its place.

Dr. Pierce's Pleasant Pellets clear the complexion and sweeten the breath.

among the collegiate institutes of the district, by Mayor Beck, of London, bears the following inscription, "Defence, not Defiance." Presented by Adam Beck, Esq., Mayor of London, 1902. To the Collegiate school corps of Military District Number One, for competition in musketry, with Peter's target and conditions.

You can drill a boy by number how to double.

And twist his head and shoulders with a jerk.

But he's not the man you look to when in trouble.

'Tis the boy behind the gun that does the work.

Unfortunately the competition cannot be held for some time, as the necessary cartridges cannot be procured.

Col. Peters is forwarding 1200 blank cartridges for use on inspection day.

## THE STOMACH

### A Very Important and Often Neglected Organ.

Few People Recognize the Importance of Keeping the Stomach and Organs of Digestion in a Perfect and Healthy Condition.

Most of us forget that we have a Stomach, and that it deserves some care and consideration until it rebels against this daily neglect, and Dyspepsia, Heartburn, Indigestion, Sour Stomach, Bloating, Biliousness, Headache or Heart Trouble, notify us most peremptorily that it must be immediately attended to, or we will be punished.

Dodd's Dyspepsia Tablets furnish the surest and quickest relief, and the most complete and permanent cure for all Stomach Troubles.

If your Stomach has given you warning by the slightest symptom, that it is tired and requires an opportunity for rest and restoration, you should heed this warning at once.

Do not put off a treatment until the pain becomes unbearable.

Use Dodd's Dyspepsia Tablets right away.

Probably one box will be all that your case will need at its present stage, whereas if you defer the treatment until the derangement has become greater, it will probably take a half dozen boxes or more.

But no matter at what stage of Indigestion you find yourself, you may be sure that Dodd's Dyspepsia Tablets will instantly relieve you, and permanently cure you.

Take one or two immediately after each meal.

These dainty tablets digest the food, animal and vegetable, every bit of it, with little or no assistance from the Stomach, thus enabling this great organ to rest and regain its lost vigor, and at the same time furnishing the body with the necessary strength and nourishment.

Gradually as the Stomach gains strength to do its own work again, the dose may be lessened, until finally health becoming completely restored the treatment may be discontinued.

### A Corn Cure.

To cure corns get a little gutta percha tissue from a druggist, cut it into strips and then wind a piece round the corn, which must first be moistened with oil.

See that the edges of the tissue are as even as possible, and when you have wound it round wet the inside of the end with spirits of turpentine. This will cause it to stick firmly if you press it down. With a feather dipped in turpentine touch the edges of the tissue, and they will unite. Leave for four days, then take off the dressing, and you will be able to remove the corn with the back of a penknife.

The Monocle is Harmful.

No sensible person will ever wear a single eyeglass unless he is blind of one eye. Its use means that one eye is neither employed nor unemployed, but is engaged in ceaseless though no doubt unconscious efforts to see as much as its more favored fellow. This straining is as harmful as anything could well be and cannot fail to lead to the gravest results.

One or the Other.

"What do you think of that wheel?" asked Sprockets, whose bicycle had been in a collision.

"I think it ought to be retired or retired," replied Dinwiddie.

Similar, but Different.
