A number of young boys were playing over in Brookline last night when they broke one of the large \$6 windows in Ald. John Edmondson's butcher shop. The boys were very honorable about it and went down to the sidewalk's home and told him about it. The lads say they will pay the damages and are out to-day gathering in the shekels.

Cigarettes and whiskey are doing damage all the time, but it is only in particularly serious cases that the public are shown the awful results they accomplish.

Stage Manager Macomber of the Hello Bill Co., says that public taste for the stage is degenerating. There were some in this city who thought so about a month ago when the innocent Maids were here.

The best way to use cigarettes and whiskey is to leave them alone. How many will accept this advice? How much attention does the Satellite himself pay to it? Yet it is good advice and had Eddie Williston paid heed to it, he would not be where he is to-day.

EVIL OF THE TOBACCO HABIT.

The evil of the tobacco habit is again illustrated in the death of Nephew, in New Jersey the other day, at the age of 187, after having chewed at the age of the filthy weed for 133 years. Doubtless he would have been much older if he had eschewed tobacco in his youth.—Detroit News.

ELECTRICAL.

The year 1904 is the 25th year since the first electric railway was operated in Berlin. It was the first in the world. The trolley wire is 23 years old. The trolley wheel was invented in 1885. There is hope that by 1929 a way for the electric car to rise superior to snow and slush will also be found.—Detroit News.

The year 1904, A. D., is the 1904th that Chatham has been without an electric railroad. This is a serial story.

PUR JOHN TAMSON'S BARN!

From the old Scotch city of Aberdeen the other day went forth one of the city fathers on a deputation to London. He was to inspect the metropolitan electric apparatus, with a view to its introduction in his native town.

On his return his wife exclaimed: "Dear me, Jamie, that trip has done ye a power o' guid. How stout ye ha'e gotten! I hope ye did as I told ye and put on one o' the dozen clean shirts that I gied ye every day."

"Oh, ay, Elizabeth," was the reply, "I did just as you said—pit on a clean shirt every day, and I ha'e them a' on the noo."—Louisville, Ky., Herald.

## SATCHEL OF THE SATELLITE

The future of Canada tends to Imperialism in certain. The Macaulay club has said so.

My good friend the natty little K. O. T. M. minstrel, says that he knew for some time he was in the water wagon last Saturday.

## MUNICIPAL DEPUTATION

The municipal argument against the asphalt block is that we do not know from experience how long it will last. What the committees have seen and examined have been laid only four or five years. Mr. Bangham, of the Asphalt Block Company, of Walkerville, wishes to convince the Chatham people that the asphalt block will last from 30 to 50 years, and he has requested the Mayor and the Board of Works to accompany him to Baltimore where he will point out to them asphalt blocks laid over twenty years, and which shows very little signs of wear and no decay. Alderman McColl is unable to accompany the deputation, not being able to give up the time, having farmers' sales every day this week, but the Mayor and Alderman Munter and Piggott have arranged to go, and leave to-day for Baltimore.

## A SERENELY HAPPY MAN

Is Mr. Thos. McGlashan, of North Pelham, who was cured of muscular rheumatism by Nerviline, the most powerful rheumatic remedy in the world. "I suffered all manner of pain for years," he writes, "and Nerviline was the only thing that did me any good. I can heartily recommend Nerviline for all forms of rheumatism; it goes to the very core of the pain and brings lasting relief. Let every sufferer from lame back, aching joints and swelled limbs use Nerviline." It's sure to cure and costs 25c. for a large bottle.
