VAMPIRE BATS.

They Are Fond of Veal Blood and Cause Death of Many Calves.

Vampire bats are found by thousands in Veragas and Chiqui. They are particularly fond of veal blood, but older stock and horses, colts, mules and burros all suffer. I did not catch a vampire at his work, though I saw hundreds of them, but the cattlemen all tell the same story. The vampire settles somewhere on the back of the beast in the pasture at night and then, while slowly fanning its wings to and fro, cuts a circular piece of skin one-quarter of an inch in diameter. Through this hole he sucks the blood till satisfied.

One wound would be of little consequence, nor would the loss of blood do much damage were that all, but half a dozen vampires may feast on one poor calf or on the back of a saddle horse in one night. The calf is badly weakened by the loss of blood, while the saddle horse so served is worthless until the wounds are entirely healed. But that is not the worst result of the bite. The region swarms with a pestiferous fly that soon after daylight finds the wound and lays eggs in it. Unless the wound is properly cleaned and dressed with a waxy salve within forty-eight hours after the vampire's attack the animal will be destroyed by the progeny of the fly. The percentage of calves thus killed is large in spite of the watchfulness of the cow herds.

He Will Cure You First Then You Pay Him

The physician who has not sufficient confidence in his own ability to cure his patient first

value he has given the patient, but he expects to prove his worth and show positive results before he asks for his fee. So, nothing will cure the case, the patient loses nothing, while the doctor, when he cures the case, has given him what is worth more than money—he has given him his health back.

Dr. Goldberger is the first specialist in the United States or Canada who has had sufficient confidence in his ability to say to the afflicted that not a dollar need be paid until cured.

There is no guesswork, no experiment about his method. He is a known expert in his chosen specialty, and offers you the best and only the best treatment. When your life or your health is at stake, inferior treatment, which leaves a store of disease worse than the disease itself, is dear at any price.

Dr. Goldberger has 14 diplomas and certificates from the various colleges and state boards of medical examiners, which should be sufficient guarantee as to his standing and ability. It makes no difference who has failed to cure you, it will be to your advantage to get the doctor of your own free choice of charge. He wants to hear from patients who have been unable to get cured, as he guarantees a positive cure for all chronic, nervous, blood and skin diseases, which he accepts for treatment. He not only cures the condition itself, but he cures the complications, such as rheumatism, bladder or kidney troubles, blood-poisoning, physical and nervous debility, lack of vitality, stomach trouble, etc. All medicines for patients are prepared in his own laboratory to meet the requirements of each individual case. He will send a booklet on the subject, which contains the 14 diplomas and certificates, entirely free. All mail orders for Canadian patients sent from Windsor, Ont., duty and transportation prepaid.
