## WOMEN'S NEGLECT SUFFERING THE SURE PENALTY

Health Thus Lost is Restored by Lydia E. Pinkham's Vegetable Compound.

How many women do you know who are perfectly well and strong? We hear every day the same story over and over again. "I do not feel well; I am so tired all the time!"

Miss Clara Beaubien

More than likely you speak the same words yourself, and do not doubt you feel far from well. The cause may be easily traced to some derangement of the female organs, which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, bearing-down pains, flatulency, nervousness, sleeplessness, leucorrhoea.

These symptoms are but warnings that there is danger ahead, and unless needed a life of suffering or a serious operation is the inevitable result.

The never-failing remedy for all these symptoms is Lydia E. Pinkham's Vegetable Compound.

Miss Clara Beaubien, of Beauport, Quebec, writes:

"For several years I have suffered with a female weakness which proved a serious drain on my vitality, sapping my strength and causing severe headaches, bearing-down pains and a general worn-out feeling, until I really had no desire to live. I tried many medicines, but did not get permanent relief until I took Lydia E. Pinkham's Vegetable Compound. In two months I was much better and stronger, and in four months I was well; no more disagreeable discharge, no more pain. So I have every reason to praise the Vegetable Compound, and I consider it without equal for the ills of women."

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write to Mrs. Pinkham, Lynn, Mass., for special advice—it is free and always helpful.

**A Bird That Likes Pretty Things.**

The primal parent bower bird was born with a vain streak. This remarkable bird decks its home nest with all sorts of ornaments, feathers, bits of wood, etc., and when it is in captivity any objects which its keeper may throw in the cage are utilized for ornaments—pieces of cloth, glass and other rubbish.

**SOME SEASONABLE ADVICE.**

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by all druggists.

**Fourpence a Grab.**

London possesses a curiosity in the Southwark sea market, which is said to have been held regularly for over 300 years. It is little known except in the neighborhood where it is held—viz., near Blackfriars bridge. Originally the eels sold were caught off Blackfriars bridge, but now they come mostly from Holland and Scotland. They are not sold by weight, as is usual, but by the handful, the price being "fourpence the grab."

**COULD NOT BE BETTER.**

The uniform success of Chamberlain's Colic, Cholera and Diarrhoea Remedy has won for it a wide reputation and many people throughout the country will agree with Mr. Chas. W. Mattison, of Milford, Va., who says: "It works like magic, and is the best preparation I know of. I couldn't be any better." He had a serious attack of dysentery and was advised to try a bottle of this remedy, which he did, with the result that immediate relief was obtained. For sale by all druggists.

**Friendship of Books.**

The first time I read an excellent book it is to me just as if I had gained a new friend; when I read over a book I have perused before it resembles the meeting with an old one.

## PUDDYS PAI E LIOTT \$800.

Curstome Broker Offered Assistance If There Was Money Enough At the End of It.

Toronto, Oct. 24.—In the civic bribery investigation—yesterday morning Mr. George Puddy, who had recovered from the attack of illness which prevented him attending on Saturday admitted having paid George B. Elliott \$400, which, with the amount his brother Henry had paid, made a total of \$808 that Elliott received for his services. Elliott, he said, was engaged as an expert lobbyist, because he and his brothers had not time to give to the matter, and the Northwest Ratepayers' Association were detouring a lot of time, and he believed spending money in a lobby to defeat them. He expressed the opinion that Elliott was worth the money paid him, and admitted that he did not inquire what disposition Elliott had made of the money.

In a searching examination by the Judge Mr. Puddy stuck to his contention that he paid Elliott out of his own pocket, and that it was not with money belonging to the firm the payments were made.

Mr. Alan McNab, solicitor of the Puddy Bros., told of an offer made by one Hoke, Puke or Croke, a curstome broker, to assist the Puddys in their fight if there was money enough at the end of it. The offer was rejected and the person who made it ordered out of the office.

**Hogue on the Stand.**

In the afternoon Hugh Hogue, the man whose missive to the Northwest Ratepayers' Association was responsible for the upspringing of the charges, is a man of medium height with a round smooth shaven face, whose expression was one of mingled shrewdness and a good nature that his spectacles and white hair made almost to appear to border on benignity. It was the face of the typical Yankee business manipulator, and so was the manner of speech. Hogue seemed quite at home and told his long story, interrupted only now and again by a question from Mr. Drayton, with an easy glibness. He was not playing the role of the witness, but that of the easy raconteur. What was his story was that which in plith and substance appeared in the affidavit sworn by Hogue, but a wealth of detail was added in the recital.

This morning his cross-examination will begin.

**What Hogue Swore To.**

That Elliott said:

If the Puddy matter went through he (Elliott) would get \$1,200.

Ramsden got \$30, but could be got when in council for \$40 or \$50.

Ald. Lynd wanted \$300, but only got \$100, being told he "had a man to take his place for \$100."

Some of the alderman "wobbled at the terms and were afraid to vote."

**COLLIDED IN OPEN WATER.**

**Ocean Liners Badly Damaged Thirty Miles From Quebec.**

Quebec, Oct. 24.—The ocean steamers Euphemia of the Hamburg Packet Co., with a general cargo from Montreal, collided with the Norwegian ship, the Dominion Coal Co., bound up the river at 1 o'clock yesterday morning, and both ships are considerably damaged.

The accident occurred off St. Antoine where the two vessels were passing each other. The Euphemia was in the lead, and the Dominion Coal Co. was in the lead, and both vessels were showing their green lights when they saw and signalled each other, and immediately the Euphemia had her helm put hard a port, when her red light showed and the Tordenskjold kept on her course and later she showed her red light, when the Euphemia ran into her bow and struck her forward starboard amidships.

After a hasty examination the Euphemia continued on to Quebec, followed by the Tordenskjold, which came about for the purpose. The former, with her stern carried away, and a large hole stove in her bow just above the water line. The Tordenskjold, with her starboard side forward stove in, and her No. 1 compartment full of water, anchored in the stream.

**Reserved For the Legislature.**

Toronto, Oct. 24.—To the reporter's question yesterday: "What's new about the Temiskaming loan?" Premier Whitney replied:

"I have no desire to make any further explanations on this question. When a Minister makes a statement in relation to a matter in regard to which he must be in possession of the facts, and is told his statement is not true, it is time for the Minister to clear himself up to the public and the public may be interested in comparing the facts with many assertions made lately."

**Will Pay Bank's Shortage.**

Pittsburg, Oct. 24.—Fred Gwynner, president of the defunct Enterprise National Bank, when asked what the shortage of the enterprise would amount to, said: "It will be very large, much larger, in fact, than we first supposed. From what I know it will reach \$1,500,000. The directors have determined, however, that, no matter how great the shortage, it will be paid, and the bank reopen for business. We hope before a month elapses it will be in operation again."

**Novelist Meredith Injured.**

London, Oct. 24.—George Meredith, the novelist, while leaving his residence at Boxhill, Surrey, for a walk yesterday, slipped, fell, and broke a bone in his left leg. The accident is causing concern to his friends, owing to his advanced age. The doctors say it will be a long time before he can walk again.

**Welsh Coal For Canada.**

London, Oct. 24.—(C. A. P.) Welsh coal exports, the Canadian Association Press understands, are discussing establishing a regular trade in anthracite coal between Wales and Canada. A number of firms are taking a very active interest in the matter.

**Mr. Borden in Toronto.**

Toronto, Oct. 24.—R. L. Borden, M.P., is in the city. He had a conference with prominent Conservatives of Toronto and district at the Albany Club. The discussion was on the pending bye-elections.

## ONLY A SUGGESTION

But It Has Proven of Interest and Value to Thousands.

Common sense would suggest that if one wishes to become fleshy and plump it can only result from the food we eat and digest and that food should be albuminous or flesh-forming food, like eggs, beefsteak, and cereals; in other words the kinds of food that make flesh are the foods which form the greater part of our daily bills of fare.

But the trouble is that while we eat enough and generally too much, the stomach, from abuse and overwork, does not properly digest, and assimilate it, which is the reason so many people remain thin and under weight; the digestive organs do not completely digest the flesh-forming food, like eggs and similar whole-some food.

There are thousands of such who are really confirmed dyspeptics, although they may have no particular pain or inconvenience from their stomachs.

If such persons would lay their prejudices aside and make a regular practice of taking, after each meal one or two of Stuart's Dyspepsia Tablets the food would be quickly and thoroughly digested, because these tablets contain the natural peptones and diastase which every weak stomach lacks, and by supplying this want the stomach is soon enabled to reach its natural tone and vigor.

Stuart's Dyspepsia Tablets digest every kind of flesh-forming food, meat, eggs, bread and potatoes, and this is the reason they so quickly build up, strengthen and invigorate thin, dyspeptic men, women and children.

Invalids and children, even the most delicate, use them with marked benefit as they contain no strong, irritating drugs, no cathartics nor any harmful ingredients.

Stuart's Dyspepsia Tablets are the most successful and most widely known of any remedy for stomach troubles because they are the most reasonable and scientific of modern medicines.

Stuart's Dyspepsia Tablets are sold by every druggist in the United States and Canada as well as Great Britain, at 50 cents for complete treatment.

Nothing further is required to cure any stomach trouble or to make thin, nervous, dyspeptic people strong, plump and well.

**Australia Loses Population.**

London, Oct. 24.—(C. A. P.)—Giving the emigration figures for 1903-1904, during which Canada gained 26,000 souls, whilst Australia lost 6,000. The Times in an editorial says the contrast cannot be more sharply drawn than between the patriotic Australians. The Times sees that serious efforts are being made by Australia to remedy this.

**A Curious Ring.**

No one needs to be told that there is iron in the blood, but it has remained for a French chemist, M. Barruel, head of the chemical laboratories of Paris, to make commercial use of the fact. He has used to practice medicine and was accustomed to bleed his patients in the old fashioned way. He extracted the iron from the blood drawn from human arms and kept it in the form of minute globules, or pearls. At last he was able to make an iron ring, which he wears on one of his fingers.

**ARE GOOD LOOKS VALUABLE?**

If nature had her way every complexion would be clear and delightful. But many allow their blood to become weak—hence pimples, sallow skin, dark circles under the eyes. To have a beautiful complexion use Ferrozone regularly. It brings a rich, ruddy glow to the cheeks, nourishes the blood, and thereby destroys humors and pimples. For beauty, health and good spirits use Ferrozone. Your appearance will improve a hundred fold. Fifty cents buys a box of fifty chocolate-coated Ferrozone Tablets. Don't put off—get Ferrozone to-day.

The self-made man has a profound contempt for pedigrees.

## Humor and Philosophy

By DUNCAN M. SMITH

### IN THE SILENCE

Quiet is the parlor.  
Not a murmur ripples;  
Silence over all;  
Not a little urchin  
In the yard at play.  
Don't you know the reason?  
School began today.

Through the long vacation  
Riot reigned supreme;  
Not a chance to slumber,  
Not a chance to dream.  
Children all a-scramble  
Up and down the street;  
Pavements echoed, echoed  
To their busy feet.

Wagon loads of playthings  
Scattered all about  
Just where owners left them  
When a merry shout  
From a happy comrade  
Called them all away  
To an expedition  
Or a grand foray.

Peace once more has fallen  
On our darkened house;  
Not a thing to bother;  
Quiet as a mouse.  
Seems as if the family  
Had all gone away.  
Don't you know the reason?  
School began today.

**Wanted to Travel First Class.**

Noah was busy checking off the animals as the boys were driving them slowly up the gangway into the ark.

Most of the smaller animals had been gathered in and placed in their proper stalls when along came the elephant with ponderous stride. He walked willfully up the plank until he came to the opening, where he paused, thrusting in

his proboscis but refusing to go a step farther, nor would shouting or twisting his tail move him.

"Perhaps he is waiting to have his trunk checked," suggested Mrs. Noah.

"We'll see," said Noah, checking it as an experiment and handing the elephant a brass tlg. Sure enough, that was the trouble. The intelligent beast seized the token and passed rapidly on to the place that had been prepared for him.

**It All Depends.**

The postman is most welcome when a letter full of sweetness. Then you bless his coat of blue; You give to him a greeting bright And say he is a gladsome sight.

But if another matter is  
When things don't go that way;  
When he from out that bag of his  
Hands this to you: "Please pass."  
He is a man you'd like to shun  
When he comes forward with a dun.

**Penalty of Greatness.**

"I presume a man who has won fame has many demands on his time."  
"Worse than that, he is expected to pay his bills."

**Subject For Argument.**

"The mosquitoes are so bad out our way this year."  
"Have you tried reading tracts to them?"

**Trade Secret.**

I cannot understand this kink,  
Though earnestly I try it;  
How people sell for less than cost  
And still make money by it.

**Stuck Up.**

"Does your horse shy at automobiles?"  
"Not much. He has too much pride. He ignores them."

**PERT PARAGRAPHS.**

A man is not really rich until he begins to lie to the assessor.

Some people are always wanting what they get, thus accumulating lasting material for a good disposition.

He is a mean man who will talk in his sleep to such an extent that his wife gets insomnia.

A well trained memory is one that doesn't remember when you don't want it to do so.

A person who is willing to take things as he can catch them is apt to have to catch them.

A pretty girl has the right to expect to be well taken care of, or else what's the use of being pretty?

There may be people who look handsome when they are downright mad, but who ever saw them?

Some men would like to be president of an insurance company and take their chances on being right.

There are people who lie so beautifully that truth seems dreadfully out of style.

## It Is So Easy to Cure Yourself of CONSTIPATION

Fruit-atives will do it—surely and quickly. We say so—as do people you may know who have been cured of biliousness, headaches and constipation. Here is the experience of one who tried these wonderful Fruit Liver Tablets:

"Fruit-atives are perfect for constipated persons. They are easy and mild in action and leave no unpleasant after-effects. I have recommended them to my friends."

Mrs. A. NOBB, Amherst, N.S.

**Fine Cut Facts.**

Skeletons are now being sold in Russia for \$1.15. Before the outbreak of the war in the East they were worth at least \$7.

Among female Moors birthday celebrations are unknown. A Moorish woman considers it a point of honor to be absolutely ignorant of her age.

The yield of cider in 1904 was the largest ever-known in France. It was \$24,595,000 gallons, which is double the average product for the last ten years.

**FIVE YEARS' DYSPEPSIA CURED.**

"No one knows what I suffered from stomach trouble and dyspepsia," writes Mr. A. B. Agnew, of Bridgewater. "For the last five years I have been unable to digest and assimilate food. I had no color, my strength ran down and I felt miserable and nervous all the time. I always had a heavy feeling after meals and was much troubled with a dizziness and specks before my eyes. Dr. Hamilton's Pills were just what I needed. They have cured every symptom of my old trouble. My health is now all that can be desired."

By all means use Dr. Hamilton's Pills; 25c. per box at all dealers.

**Buckwheat For Hogs.**

Buckwheat (the grain) is a very excellent feed for hogs, almost as good as wheat, but rather costly food for that use, the south. It is a splendid feed for chickens. If you keep bees you can afford to grow buckwheat for the sake of the honey that the flowers supply and let the pigs and chickens eat the grain.—Atlanta Constitution.

**An Expert.**

Gayboy—I want to have my nose painted red, but I can't find any one to do the work.  
Chum—Why don't you do
