

Sheep on Every Hill Side in New Brunswick

The New Brunswick Government through the Department of Agriculture has arranged with the Chartered Banks to help the Farmers—where assistance is needed—to buy Sheep.

The Department will not only arrange to buy Sheep FOR the Farmers, but will also buy good breeders FROM the Farmers—in other words, this branch of the Agricultural Department WILL SUPERVISE ALL PURCHASES AND SALES OF SHEEP.

IF A FARMER NEEDS CREDIT TO BUY SHEEP he should consult his local banker who has the necessary forms.

If you cannot buy sheep in your locality, inform the nearest banker who will notify the Agricultural Department, or, better still, notify the Department yourself and say how many Sheep you want.

KEEP YOUR EWE LAMBS

Every Ewe Lamb, Weighing 80 pounds and over and of reasonable quality, should be retained by farmers for breeding purposes. Sell the males and the inferior females for butcher purposes. If you have more ewe lambs than required, induce your neighbor to purchase.

THE VALUE OF WOOL

Unwashed wool of the best quality brought 80 cents a pound this spring, or about \$5.00 a fleece.

SIXTY MILLION SHEEP

Have been lost in Europe since the war started. Wool in enormous quantities is now required to clothe the soldiers, it will take an immense quantity to reclothe the returned men in civilian dress. Prices will likely be high for ten years.

New Brunswick has the pasture, hay, roots and a climate suited to sheep. Every farmer should consider investing in a small flock as a foundation. The first year will give approximately \$4.00 worth of wool per sheep, the sheep will cost about \$15.00. Is it not a good business proposition?

If you cannot purchase locally, place your order with your banker. Orders will be filled, if possible, in the order filed at this office through the banks.

I hear a great many complaining about the bread made from this war flour being so poor, "not fit for a dog to eat," as some express themselves.

The cook has just informed me that she puts 1 tablespoonful of shortening and 2 tablespoonful of sugar in her bread sponge when she mixes the bread up hard, and the bread keeps nice and moist as long as it lasts, four or five days.

She also butters the loaves when taken from the oven, and this softens the crust, then nothing can be wasted.

Mrs. Robert Nixon and little son, of St. Stephen, are guests of Mr. Nixon's parents, Mr. and Mrs. Richard Nixon.

Tired Nervous Mothers

Should Profit by the Experience of These Two Women

Buffalo, N. Y.—"I am the mother of four children, and for nearly three years I suffered from a female trouble with pains in my back and side, and a general weakness. I had professional attendance most of that time but did not seem to get well. As a last resort I decided to try Lydia E. Pinkham's Vegetable Compound which I had seen advertised in the newspapers, and in two weeks noticed a marked improvement. I continued its use and am now free from pain and able to do all my household work."—Mrs. B. B. ZIEGLER, 302 Wells Street, Buffalo, N. Y.

Portland, Ind.—"I had a displacement and suffered so badly from it at times I could not be on my feet at all. I was all run down and so weak I could not do my household work, was nervous and could not lie down at night. I took treatments from a physician but they did not help me. My Aunt recommended Lydia E. Pinkham's Vegetable Compound. I tried it and now I am strong and well again and do my own work and I give Lydia E. Pinkham's Compound the credit."—Mrs. JOSEPHINE KINNA, 288 West Race Street, Portland, Ind.

A Sin of Omission

Good Paint would have Saved this Home

THE FIRST EFFECT of the omission to paint is seen in a "dingy" unkempt appearance. Continue the neglect a second season, and dinginess will develop into actual deterioration. Your house quickly "goes to seed" if it is not kept fresh with paint.

Ignore if you will, the idea of painting for beauty's sake; you cannot ignore the value of paint as preservation for your home.

You must consider true paint quality in order to have true painting economy—true protection is only obtainable from the best of paints.

B-H "ENGLISH" PAINT

70% Pure White Lead
(Standard's Genuine B.B.)
30% Pure White Zinc
100% Pure Paint

If it cost twice what it does, would still be the economical paint for your home. In other words, it is a remarkable value for the money you pay for it and get more with it. Paint with it this season and your house is protected for years.

We carry and recommend the following B-H products:

For Interior Finishing "China-Lac"—The Perfect House-hold Finish.	B-H Porch Floor Paint For Porch Floors, Ceilings and parts exposed to the weather.	Finishing the Floor B-H "Floorluster," excellent for interior floors.
Staining the Roof "Anchor Brand Shingle Stains" in 19 different colors.	Plaster Ceilings and Walls B-H "Frescolette"—A flat tone oil paint.	For barns and outbuildings "Imperial" Barn Paint.
