SCOTT'S EMULSION

REMEMBERED THE GREAT FIRE ON MIRAMICHI

(Moncton Transcript)

Said to be 115 years old, Mr. Henry Hendrickson passed away in his sleep on Thursday, Nov. 22nd at Point du Chene. He was found by one of his grand-children. The late Mr. Hendrickson was in his usual good health at the time of retiring and death was utterly unexpected.

The late Mr. Hendrickson was a native of Norway and came to this country 63 years ago. When a young man he was a sailor before the mast and on one occasion he visited the Miramichi.

It was in 1825 the year of the big fire and Mr. Hendrickson has often related his experiences at that time. He told how, in order to save themselves, the people were forced to take to the river and submerge themselves, surrounded oftentimes by all sorts of wild animals which were forced to take refuge there with them.

When he first came to Canada he resided for a number of years in Quebec and later came to Point du Chene which was then an important port. Many ships sailed out of there loaded with lumber for foreign lands and it was no uncommon sight to see twenty or thirty ships in the harbor at one time, he said.

Bronchitis Yields To Vicks

Dunedin Man Tells of Prompt Relief.

Mr. Leo Berrigan, Dunedin, Prince Edward Island, says: "During the winter months I was always troubled with bronchitis and tried many preparations to relieve the trouble. None were successful until I tried Vicks VapoRub. It gives relief in a very short time after application and I can honestly advise sufferers to use this salve."

By invitation of the manufacturers, fifty thousand families in Canada tried Vicks for cold troubles, the only condition being that they would report results. The above is just one of the many enthusiastic reports received.

Vicks VapoRub comes in salve form, and for chest colds, you just apply it over throat and chest and cover with a warm flannel cloth. The body heat releases vapors that are inhaled all night long into the throat and lungs—Menthol, Camphor, Thyme, Eucalyptus and Turpentine.

Vicks is also absorbed through the skin, stimulating the skin, aiding the vapors to relieve congestion. Usually colds go in one night and group is commonly relieved in 15 minutes.

At all drug stores, 50c a jar. For free test size package write Vicks Chemical Co., 344 St. Paul St., W. Montreal, P.Q.

Although Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

Here and There

Fifty cars of fish were shipped this season from Lesser Slave Lake to various points in Canada and the United States, the majority going to cities in the Eastern States. These shipments were practically all whitefish, the coarser varieties being disposed of in the local markets.

Showing a record increase over the figures of last year, grain loadings in the Western Provinces since the commencement of the crop year, September 1st, aggregate 82,219 cars, representing 136,958,448 bushels, as against 80,828 cars loaded, or 130,287,194 bushels, from September 1st to October 14th, 1922.

That the future prosperity of the Maritime Provinces, as well as the whole of Canada, depended on the routing of Canadian trade over Canadian railways and through Canadian ports, was the view expressed by Dr. Murray MacLaren, M.P. for St. John, speaking recently in his constituency.

Tens of thousands of caribou are trekking southwards through Yukon Territory for the winter. Bands of them have passed through the outskirts of Dawson City. For a hundred miles down, bands of caribou can be seen swimming the Yukon river and sometimes surrounding canoes and steamboats as they pass.

Part of the 15,000 feet of moving pictures taken for the Dominion archives by the Arctic expedition in charge of Captain Berrier, which has just returned from the northern regions, are to be shown in Quebec City shortly. They contain interesting incidents of the life of the Eskimo and typical scenes of the Northern land.

Up to the end of June, 1923, according to E. W. Dearty, President of the Canadian Pacific Railway, the Company had disposed of 18,194,737 acres of agricultural lands, for which an average price of \$7.87 per acre was received. During this period the Company had, by direct effort of its own, secured the consent of over 100,000 farmers in Western Canada.

A splendid hunting year with a late onset is reported from British Columbia. A world's record Osborn caribou was killed by D. W. Bell, of Williamsport, Pennsylvania. The length of the head was 65 1/2 inches, spread 55 inches and thirty-eight points. A party of three, of whom Bell was one, bagged nearly 100 pieces.

A total of 40 round voyages to the port of St. John, New Brunswick, constituting an increase of six over last winter's figures, is announced by the Canadian Pacific in a newly issued schedule of operations for the winter port. The S.S. Montclair will be the first liner to leave St. John after the close of St. Lawrence navigation, sailing for Liverpool on December 7th.

Captain S. Robinson, R.N.R., the hero of the Japanese disaster, who commanded the Empress of Australia when that ship was in Yokohama harbor at the time of the earthquake, has been fittingly honored by the Canadian Pacific Railway. He is to command the company's steamship, the Empress of Canada, when the ship leaves New York, January 30th, on a world cruise.

The most spectacular nugget brought to town in many years arrived in Cobalt, Ont., recently, and the camp's oldtimers gathered round, admiring the huge mass. The nugget weighs approximately 3,200 pounds, is estimated to run fully 75 per cent silver and is worth \$20,000, according to the estimate of the owner, Angel Clemens, a New Liskeard carpenter.

The Royal Canadian Naval Reserve of 500 officers and men, is now being organized, and it is expected that selection of officers will be completed early in November. Headquarters will be established at Charlottetown, Halifax, Lunenburg, St. John, Quebec, Vancouver, Prince Rupert and Victoria. Naval training at the naval bases of Esquimalt or Halifax will be given to R.C.N.V.R. ratings during the winter months.

When I meet one of these inquisitive fellows, I am reminded of the old dog that was moving her family across a railroad track. One inquisitive pup stopped to stick his nose against the third rail. While he found out all there was to know about electricity, it never did him much good.

Someone has said:—

"He has achieved success who has lived well, laughed often and loved much; who has gained the trust of pure women and the love of little children; who has filled his niche in life and accomplished his task; who has left the world better than he found it, whether by an improved poppy, a beautiful poem, or a rescued soul; who has looked for the best in others, and given the best he had; whose life was an inspiration; whose memory is a benediction. This constitutes success."
