The telegraphic news from day to day from the west of war is certainly embarrassing in its multiplicity and confusion. But through it runs the evidence that the Turks are getting the worst of it. The Bulgarians and their allies seem to be inflicting severe punishment on the Mahomedans. The majority of people will be inclined to say: more of that to them.

Michael Thomas, the famous Island Indian runner, won the Halifax Herald's ten mile road race at Halifax on Monday. He covered the distance in 58 minutes 30 seconds. This is the third time that he has won the trophy in succession and it now becomes his property. His time in this last race was his best of the three races. James McKay of the Halifax Wanderers was only four seconds behind the Indian. Sixty-two started.

British Grain And Flour Imports.

The argument has frequently been put forward by advocates of Reciprocity that the British market for Canadian grain was too small and insufficient and that the United States offered an ideal market for Western produce. Official figures of the British grain and flour imports for the past year provide an effective answer to this contention. These figures show that at present only one-fifth of Great Britain's wheat is supplied by Canada and that the United States is one of the Dominion's most important competitors for the wheat trade of Britain and Canada's only serious rival in the British flour market.

In 1910-11 the United States sent 9,479,000 hundred weight or 17,000,000 bushels to the United Kingdom, whereas Canada sent 13,835,000 hundred weight or 25,000,000 bushels. In 1911-12 the United States increased their sales of wheat in Great Britain to 32,000,000 bushels. Canadian sales amounted to 37,000,000 bushels. In flour sales the United States lead Canada, but there are indications that the Dominion promises in a few years to reverse this position. In 1910-11 the United States exports to Great Britain were 5,342,835 cwt. and Canada's 2,970,242 cwt. and in 1911-12 the United States figures dropped to 4,418,498 cwt. and Canada's increased to 3,944,498 cwt. There is an almost unlimited market for Canadian oats in the Mother Country. Russia and Argentina now dominate the market, with Canada a bad third. Canada's export of oats in 1911-12 amounted to about three million bushels.

Mr. W. J. Egan, Canadian Trade Commissioner at Manchester, commenting on these figures in a report to the Trade and Commerce Department, remarks: "The milling trade of Lancashire, whose facilities are growing continually both in Liverpool and Manchester, are very much in favor of Canadian wheat and state that the Lancashire market, which is the most direct and best situated for distribution, is prepared to handle all that may be shipped here, claiming that there is no limit to possible expansion. The Trade Commission's praise of our wheat, system of grading, and export conditions from Canadian ports, all expressing the wish that in the near future all our grain would be shipped from our own ports and under Canadian regulations."

Canadian trade through Canadian channels to Canadian ports has built up the port of St. John and the other great ports of the Dominion. Under that policy to which the Government now in power will consistently adhere, the progress and development of Canadian ports are assured. There is room for the expansion of the Canadian wheat trade in the United Kingdom. The United States this year will have an enormous export trade in wheat, and will be the Dominion's active competitor in the markets of the Old Country.—St. John Standard.

The Charles Dalton Fox Ranch

Has Been Sold to a Syndicate Represented by Mr. A. B. Warburton and W. B. Prowse.

It is proposed to capitalize a Joint Stock Company with a Capital of \$625,000.

Mr. Chas. Dalton has sold to a syndicate his ranch complete, containing 20 pairs of breeding silver black foxes, and guarantees an increase of not less than 50 pups to be raised to the age of three months, for the year 1913. For every pup under this number he agrees to pay in cash to the above syndicate \$5000.00 of the purchase price, thus GUARANTEEING to the syndicate for the first year \$250,000 dividends on a basis of \$10,000 a pair, which in view of the prices being paid at the present time is a very conservative estimate.

This Amount Represents Over 40 p. c. on the Capital Invested The First Year

This is the minimum estimate of dividends which will, we feel sure, be greatly increased, because instead of 50 pups there should be at least 75 come to maturity, and based on an estimate of \$10,000 a pair would net the syndicate the handsome sum of \$375,000 or 62 p. c. on the capital invested.

The Terms of Purchase Are:

The Syndicate takes over the entire plant, good will and ranch of Mr. Chas. Dalton, comprising five acres of land with all equipment contained thereon.

The syndicate has a sole right of the use of the name "Chas. Dalton" in the Fox Ranching business.

Mr. Chas. Dalton to remain with the company as Ranch Manager for the term of one year or longer if required.

The syndicate has applied for letters patent to incorporate the Chas. Dalton Silver Black Fox Co., Limited.

The Provisional Directors Are:
President Solicitor
CHAS. DALTON A. B. WARBURTON
W. B. PROWSE, Sec'y-Treas.

The Chas. Dalton breed of foxes needs no puffing as they hold the world's record for the price of a single skin, and also hold the world's record for a group of skins.

This Is The Best Proposition Ever Offered to Investors
