

YOUR MILKMAN'S FINGER TIPS ARE DANGEROUSLY FULL OF BACTERIA.

ON your milkman's hands,—unless he uses the care of a surgeon about to perform an operation,—there are millions of germs. When you remember that thousands of these infinitesimal can cluster with ease on the point of a needle, you can imagine what a milkman's hands look like under a microscope. Suppose when your milkman picks up an empty bottle to fill it at the dairy, he happens to grasp it in such a way that his finger touches the inside! Suppose when he is putting in the paper cap his hand rubs the under side! The only consolation one has is that the great majority of germs about us are not the germs of malignant disease. But some day—! Why—think of it,—in 1908 the Medical Health Officer of the city of Montreal seized and condemned 32 lids of milk cans and 68 cans themselves as being in a foul and unsanitary condition. How many of these germladen containers do you suppose are doing duty in St. John's undiscovered—distributing bacteria and spreading disease?

Jersey Cream, Reindeer Milk.

JERSEY CREAM is free from disease germs. The user of it runs none of the risk of the raw 'milk' user; tubercular or typhoid infected milk has no terrors for him.

Jersey Cream is simply a rich, pure, whole milk with two-thirds of the water evaporated. No sugar—no preservatives— are added; the sterilization makes it keep. And nothing is taken from it but hot water; not one single unit of food value is lost.

Indeed, the Dominion Government food experts place the nutritive value of Jersey Cream above all other evaporated milks. They analyze it as having butter-fat at 8.05 p.c.

In Jersey Cream you get the whole milk just as it came from the cow, then sterilized and hermetically sealed so that it reaches you as pure and wholesome as it was the day it was milked from the animal. If you add the right proportion of water to Jersey Cream you obtain a rich milk on which the cream will rise naturally. It is because Jersey Cream is thus a "whole milk" that you get a richness from its use in milk dishes that you never get with any raw milk. And being unsweetened, you can use it for cooking. But it is to the cleanliness

of Jersey Cream and Reindeer Milk that we want to draw your attention. Jersey Cream and Reindeer Milk are clean because we make a business of cleanliness; from the moment the milk leaves the cow until you open the can in your home, we guard it against contamination.

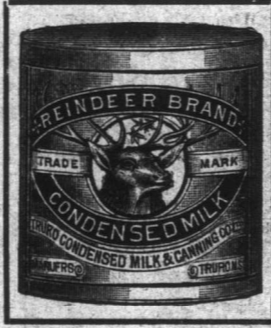

When a farmer begins to sell milk to us, he has to conform to our "Dairy Rules," and to obey our inspectors. We insist upon sanitary cow stables, correct rations for the cows; we enforce hygienic milking methods, prompt and thorough aerating and cooling of the milk, and we make the farmer drive his milk to us well covered to prevent contamination from dust and heating—and in a spring wagon. And then, even after all this, every drop of milk a farmer supplies us has to pass our expert testers for quality and flavor. Every can in every batch is rigidly inspected—and what's more, the rule against milk with even the slightest taint is rigidly enforced. That's how we maintain our usually high standard.

Finally, when milk reaches our plant—where more than half the time of each employee is spent in keeping every piece of apparatus and utensils scrupulously clean the first thing that is done is to put the en-

tire contents of each can through a sterilizing process. You are beginning to realize, aren't you, what Jersey Cream and Reindeer Milk can mean in your home?

Remember to be sure to ask for **JERSEY CREAM** and **REINDEER MILK** by name—**JERSEY CREAM** and **REINDEER MILK**.

REINDEER MILK owes its richness, purity and the flavor to the high quality of the milk used, and to the careful attention given to details at every stage of the process of preparation. Absolutely nothing but the best granulated sugar is added to the full rich milk of the best dairy district of Canada.

BIG WIRELESS SWINDLE.

Victims Number 28,000.

Heads of United Wireless Company of New York Arrested—Have Obtained \$20,000,000 by Fraud.

New York, June 17.—Accused of having perpetrated a gigantic swindle by which some 28,000 individuals throughout the country were gulled into buying worthless stock, Christopher C. Wilson and Samuel B. Bogart, president and vice-president of the United Wireless Telegraph Company, were arrested yesterday. Their office was at 42 Broadway, and they were taken in charge there by a battalion of post office inspectors. It is said that their victims have paid \$20,000,000 for worthless stock.

William W. Tompkins, former president of the now defunct New York selling agency, which is alleged to have helped along the wireless game, was also arrested.

Protested Violently.

When taken Wilson and Bogart protested violently, but the inspectors hustled them out into the corridor. An elevator had been halted for them and they were pushed into it and carried down to the main floor so fast that it nearly took their breath away. An excited throng, recognizing the president of the United Wireless, pursued them to the street and up Broadway, while they were walked up to the Federal building.

United States Commissioner Shields was ready for the prisoners, and after telling them that warrants had been issued charging them with having used the mails to defraud purchasers, he asked Assistant District Attorney Stevenson what bail was wanted. The Attorney made them gasp when he asked for \$50,000 for Wilson and \$25,000 for Bogart. This was finally furnished, but

Tompkins spent the night in the Tombs.

False Representations.

In an affidavit upon which the warrants were issued, it was alleged that the United Wireless officials falsely represented in advertisements published broadcast and sent to stockholders that the concern, among other things, had wireless patent rights worth \$5,520,233, stocks and bonds in other companies valued at \$14,148,610, and a cash surplus of \$6,528,329.

Against this, it is charged the only patent rights that the United ever

You Blame the Stomach

But chronic indigestion will disappear when the liver, kidneys and bowels are set right by **DR. A. W. CHASE'S KIDNEY AND LIVER PILLS**

You are skeptical. For you have tried many medicines and still suffer from indigestion with all its annoying symptoms.

Take a new line. Leave the stomach alone, for the source of trouble is in the intestines, and healthful digestion can be restored by the use of **DR. A. W. CHASE'S KIDNEY AND LIVER PILLS.**

Mr. C. D. Bennett, Maple Grove, Megantic Co., Que., writes:—"I had dyspepsia very bad. The food would sour, my stomach would swell up. I suffered a great deal and could not sleep. As the result of using **DR. CHASE'S KIDNEY-LIVER PILLS** I am now entirely cured and can eat any kind of food. They have made a new man and a younger man of me and I cannot say too much in their praise."

DR. A. W. CHASE'S KIDNEY AND LIVER PILLS, one pill a dose, 25 cents a box. At all dealers or Edmansin, Bates & Co., Toronto.

had were some that it bought from the De Forest concern for \$750. The \$14,000,000 of stock, the post office authorities say, was next to worthless stuff, which was transferred to Wilson and his clique for a few thousand dollars by Abraham White, known as the "postage stamp broker," who wanted to get rid of it. This De Forest stock, after the collapse of the De Forest concern, was used by the United as the basis of the tremendous issue which it sold broadcast.

Never Paid a Dividend.

So far as the \$6,000,000 surplus goes, the post office authorities maintain, the United never made a cent and was never known to pay a dividend. Its whole career, the officials say, has been one of rank deceit.

It was the habit of the officials, so it is alleged, to jump up the price of stock whenever they wanted to make a few millions more. They would generally do this after something had happened that got the United before the public. The stock jumping was not based upon any actual value. Prices were pushed up from the early figure of \$7.50 a share to \$50.

"The United Wireless Telegraph Company professed to have for its sole object the combining of all wireless telegraph companies, including the Marconi company, and in its early literature and letters, the statement is made that it had procured practically a controlling interest in all such companies, and that it had large holdings in the Marconi company, a statement that was absolutely untrue.

Increased \$5 Share.

"Whenever a new contract was obtained from a ship or line of ships the stock would be increased \$5 a share. Taking \$20,000,000 as the total stock issue of the company, both common and preferred, it would mean an increase of \$100,000,000 to the value of the property, when, in fact, the property had not been increased at all, because the wireless business with ships was not paying.

"Yet these increases continued for some twenty times until the present month; the last price given by the

company was \$50 per share, making the value of the stock \$1,000,000,000. "The real asset of the company consisting of land stations, patents, manufacturing plants and real estate of all kinds, appear to be on a conservative estimate of about \$400,000 or an actual worth of twenty cents a share at par value, but, taking the last amount quoted, \$50 a share, the stock is really worth what \$400,000 is to \$1,000,000,000, or about two cents a share.

"The officers of this company have sold to the public thousands of shares. One of them is believed to have cleaned up \$5,000,000, and possibly \$10,000,000, at the ranging price of \$10 to \$50. The other officers of lesser degree have profited in proportion."

This statement regarding the company was given: "The United Wireless Telegraph Company is the outgrowth of the Amalgamated Wireless Securities Co. organized in Maine, Dec. 5, 1904. In

Children Had Eczema

Treatment prescribed had no effect—**DR. CHASE'S OINTMENT** made thorough cure.

Mrs. Oscar Vancott, St. Antoine Sack, writes:—"I have found **DR. CHASE'S OINTMENT** to be a permanent cure for Eczema and other skin diseases. One son, while nursing, broke out with running watery sores all over his head and around the ears. Many salves were prescribed to no effect. The child's head became a mass of sores and he suffered agony untold. He became weak and frail and would not eat and we thought we would lose him.

"Provisionally we heard of **DR. CHASE'S OINTMENT**, and it soon thoroughly cured him. He is seven years old now and strong and well. An older boy was also cured of eczema by this Ointment and we hope more people will learn about it so that their little ones may be saved from suffering."

As a cure for eczema and itching skin disease there is no treatment to be compared to **DR. A. W. CHASE'S OINTMENT**, 25 cents a box, at all dealers of Edmansin, Bates & Co., Toronto. **DR. CHASE'S** Recipes sent free.

At Cochrane St. Church

At Cochrane St. Methodist Church last evening the Rev. G. Forsshaw paid a special tribute to the memory of the late Rev. Solomon Matthews, who passed away during the week. The preacher said he could never forget his fatherly and sympathetic words when he met the late reverend gentleman for the first time shortly after his arrival in this country. The choir sang the "Christian's good night," and at the close of the service the Dead March in Saul was played by Mr. Roy Kendall while the congregation reverently remained standing.

Lost \$2,000.

Editor Evening Telegram. Dear Sir—Just a few lines to let you know how the gale was raging up here. The gale commenced on Tuesday, the 14th, and continued up to the 18th with the heaviest sea men of forty ever saw in the summer season. Fifteen fishing boats were lost and parts of all others destroyed. Men had to tie ropes around their waists to board boats. The estimate of loss is two thousand dollars. All the loss is due to not having a slip and capstan to haul heavy boats. It's time the Government should fulfill some of their promises and give us a slip, anyhow. Some of the members of the People's Party, are Tories, whatever you may call them, now they are in power. All they wanted were the votes from the people, and after that, Mr. Editor, the people can now paddle their own canoe. Yours truly, FISHERMAN.

Offer Wadhaw Island, June 17, '10.

The Name of Labrador

Editor Evening Telegram: Sir.—Mr. Wallace's explanation of the origin of this name is, I think, practically correct. M. Harrisse (und Records showing that Labrador was the name of a particular family living in the Azores in the XV. Century. As the Azores formed part of the dowry of the Duchess of Burgundy I have always considered the Burgundian who accompanied Cabot on his first voyage was an Azorean inferentially named Labrador. According to my reading of the cartological evidence the Isle de Labrador of the Oliveriana map shows Cabot's first discovery; thus connecting Labrador with this voyage.

Accepting this hypothesis this same Labrador evidently accompanied Cabot in 1498 and was the first to sight land.

I am inclined to consider La Bras D'Or, in Cape Breton, a corruption of the name, and evidence of some subsequent explorations made by him probably for the Anglo-Azorean Company, formed about 1501.

Mr. Wallace is mistaken in supposing the original Labrador was Greenland. The apparent connecting of the land of Labrador with Greenland (shown on maps of the Cantin type) evidently arose from a mistake reading by Lisbon cartographers of the courses taken by Cabot in 1498. The peculiar magnetic deviation in Northern Labrador and in Ungava Bay was in my opinion the chief cause of error, though there were others too technical to discuss in the space at my disposal.

Yours obediently, G. R. F. PROWSE.

P. S.—The records show that on his first and second voyages, 1497-1498 John Cabot's crew consisted of himself, a Burgundian and sixteen English sailors. This Burgundian is supposed to be Labrador, a fairly reasonable conjecture.

Shall Man Fear Man.

The world admires a fearless man if his fearlessness is of the kind that stands for right; not the fearlessness of a Jesse James. He must not be fearless as David was, when he said "what can man do unto me?" Certainly it speaks of men who have some character, some principle—whom are not altogether shameless. If you have your mind made up to get new Furniture or new Clothing, you need not fear for the opinion of other men. Just go to B. FRIEDMAN and get your Clothing, Dry Goods and Furniture for cash or credit. B. FRIEDMAN, 301 Water Street (Water Side), P. O. Box 5; Phone 546. Mail orders carefully attended to.

November, 1906, this name was changed to the United Wireless Telegraph Company, and in the following February the capitalization was increased from one million shares, at \$10 per share par value to two million shares at the same par value, one million preferred and one million common.

Successor to De Forest Co. "The original company had merely a legal existence, until November 17, 1906. About that time active arrangements were instituted to put the company into operation, making it the successor to the defunct American De Forest Wireless Telegraph Company.

"The officers of the American De Forest Company proceeded to abandon it as it was then sinking, being encumbered with debts and running at a loss and in default in interest on its bonds. It had an authorized capital, \$50,000 shares of preferred and 1,500,000 shares of common, par value \$10, with bonds based upon the entire assets of the concern of \$500,000."

SUNLIGHT SOAP

Make your House-cleaning easy by using Sunlight Soap. Pots, pans and milk-cans, brass and tiles, doors and floors, all things that Soap can be used upon, Sunlight Soap will clean and brighten. There is no Soap like Sunlight.

Here and There.

GONE TO WEST COAST.—Hon. M. Gibbs left by train last evening for the West Coast on professional business.

FOUR ARRESTS.—The police made four arrests for drunkenness Saturday night. Three of the prisoners were released yesterday.

LOOKING FOR HOP BEER.—The police were out again yesterday looking for hop beer samples that they believe are intoxicating. They secured some in three places for analysis.

VISITING THE HOSPITAL.—There certainly must have been upwards of 200 persons visited the St. John's Hospital yesterday afternoon to see their friends. The new regulations seem to give the public satisfaction; the lady attendants are most courteous and obliging.—VISITOR.

Here and There.

GONE TO HALIFAX.—Captain E. Dawe, teacher of the S. A. College, left by the S. S. Florizel for Halifax. After spending about a week there, she proceeds to Bermuda to see her aunt, Mrs. George Latrim.

Carpenter-Morton Roofing lays 30 inches to the weather, so it is not as liable to sag or buckle as other Roofings. It is fire resisting and waterproof and will wear for years. The Horwood Lumber Co., Ltd., carries a complete stock and sells it under an absolute guarantee of durability.

PRESENTED A MARBLE HOLY WATER FONT.—The Committee of Mount Carmel Cemetery beg to thank Muir's Marble Works for their kind present of a beautiful marble holy water font for use in the Mortuary Chapel.

The CURE for Rheumatism: SLOAN'S LINIMENT

Will do what doctors have failed in doing.

Price, 25¢ per Bottle.

J. J. ST. JOHN, Agent, ST. JOHN'S EAST.

The "Nigger" Arrested.

Saturday at 12.30 Sgt. Byrne who was out on the search for the negro who attacked the little girl, Bridie Baker, arrested a man named James Sinyard, of Flat Islands, B. B., but who for some time past has resided along in a shack at the Blackhead Road just above Linegar's.

On Saturday morning as Miss Crocker was going to school she saw this man on the road ahead of her. He stood repeatedly, kept watching her closely, and fearing to pass him turned and retraced her footsteps. She met a man named Nolan on the way, and when he reached the city he telephoned the occurrence to L. G. Sullivan from the Western Station, and Sgt. Noseworthy and several policemen were sent out on Waterford Road. Sgt. Byrne followed and took up the case with the energy for which he is noted. He found that Sinyard had stated that he, too, had been attacked by a negro, and when he (Byrne) reached Waterford Road he cut across to the South Side Hill, he searched for and found Sinyard in the bush near his residence. He told the officer that he was attacked by a negro who had jumped on him from a tree in which he was hiding, and pointed out the tree to the Sgt. Asked how he knew that Miss Baker had been attacked, he said a lad named King, for whose father he was building a chimney, had read it for him out of the Telegram. When the lad King was asked did this occur he denied it, and then the officer brought the man down to Mr. John Baker's residence and confronted him with Bridie, the girl who reported she was attacked by a negro near St. John's farm. Sinyard has a shock of black hair, his face is dirty and burned from the sun, and he did not badly resemble a colored man. The girl identified him as her assailant. She particularly remarked his big thumbs nails and her description of her aggressor's appearance and clothing pretty well applied to the man who has been arrested. Byrne then drove him to the lock up. The man is handy about mason work, and what Miss Baker thought was a knife in his hand was no doubt a trowel which he used at King's chimney. Sinyard is of French extraction, has a foreign

accent, and it is thought is demented, as 13 years ago he spent quite a while in the Lunatic Asylum.

At the R. C. Cathedral.

Rev. Fr. O'Callaghan preached a powerful sermon at the R. C. Cathedral last night that should not soon be forgotten by all who heard him. The text was "Thou fool, dost thou not know that this night thy soul is required of thee?" The rev. preacher in perceptive language expatiated on the follies of men and women in modern days who spend their best energies in trying to gain money, position in society or some other fleeting ambition. He dwelt on the death-bed scene of such people as give their hearts to sin and wickedness, and in a dramatic manner gave a vivid word painting of their terrible condition. The large congregation was deeply impressed by the sermon, and the appeal that the preacher made towards the conclusion of the discourse was evidently not made in vain. After the sermon Rev. Father Sheehan officiated at Benediction. The singing by the choir was particularly good.
