Depend on her general health and freedom from pain. Many a woman looks old before her time because of those irregularities which are essentially feminine. Starting from early womanhood, she suffers from frequently recurring derangements that upset her womanly health. If she be beautiful she grows into that mellow age without wrinkles and crowfeet about the eyes or the blue circles underneath. It is invariably the rule that such women suffer little, or not at all, from womanly derangements which sap the health and leave in the face the tell-tale story of pain and suffering. Dr.R.V. Pierce, the famous specialist in the diseases of women, found a prescription in his early practice that soothed the organism peculiar to womanhood—oiled the machinery, as it were, of the human system—and helped the woman to pass those painful periods that scar-lined and aged her face. This remedy became the well-known Dr. Pierce's Favorite Prescription, that has the well-known Dr. Pierce's Favorite Prescription, that has

## **About Playing Cards.**

ous games, playing cards are an ineresting study from historic and picterial points of vew. Take first their numerical arrangement, Fifty-two eards, 365 pips or dots and 13 tricks, representing the weeks and days in the year and the lunar months. There are four suits, representing four classes of people as they were divided at the time the pack of cards we now use was devised by the French. The "spades" stood for pikemen or soldiers, the "clubs" for clover, typifying farmers, the "diamonds" for building titles, representing artisans, and the The "kings" and "queens" of the time York, who was engaged to the Daup then the king's jesters, and even these cards may be portraits.
