## "V.C." Smoking Mixture

A word to the wise is sufficient, ask the constant user, he knows.

### Imperial Tobacco Co. (Newfoundland) Ltd.

### Was on H.M.S. Arethusa.

With reference to the famous British cruiser Arethusa, which is reported to have struck a mine off the east coast of England yesterday and sank, we are informed that Paymaster Belrock, R.N., who was married last month in England to Miss Frances Pimentel, of this city, daughter of Mrs. and the late C. S. Pimentel and brother of Earl E. Pimentel, of the law firm of Clift and Pimentel, was attached to the ill-fated warship a short time ago when she was in the North Sea.

### "Cascarets" Best For Headachy, Bilious Sick, Constipated

Best for liver and bowels, bad breath, and colds, sour stomach.

Get a 10-cent box.

Sick headache, biliousness, coated tongue, head and nose, clogged up with a cold—always trace this to torpid liver, delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet, breath right, complexion rosy and your liver and bowels regular for months.

### THE WEATHER AND TRAIN RAINS.

The past week or two has been the hardest the train hands have experienced for a long time, and from Bishop's Falls to Basque the weather has been particularly severe.

Last Sunday brakeman Foley of the cross country service had one of his hands badly frostbitten, and had to seek medical aid at Channel.

THIRTY-THREE BELOW ZERO.—Last night and this morning there was "let up" in the cold spurt along the railway. At the Quarry the glass showed 20 below at Bishop's Falls, and at Clarendville and Humbermouth the temperature was 5 below, whilst the zero mark was reached at Fort aux Basses.

### LIGHT, HEAT, COMFORT!

The proprietor of one of the best known multiple shopping systems is credited with saying, "Give me any old shop, in any old street, and I'll guarantee to make it in twelve months the most widely known and best frequented shop in the district." He was asked to explain. Holding up three fingers he said, "I believe in the trinity of LIGHT, WARMTH, COMFORT. I should dazzle the moths until the candle drew them. I should bring them into a warm, comfortable shop, filled with a soft, pleasing radiance, and the rest is—well, mere child's play."

Mixed metaphors, perhaps, but expressive. Now we can more than imagine the kind of shop this well-known individual would open, for we pass it in almost every town—always a landmark to the street. No one fails to notice it. There is an indefinable air of welcome and invitation as one stands for a moment on the pathway and lets one's gaze travel inside it. The subdued, restful lighting effect that so charms because of its very unobtrusiveness, the absence of dark corners, the intangible feeling that if one would step inside one would be sure of experiencing a delicious sense of warmth and comfort and cheerfulness—all these are part of its appeal. Truly a shop with an individuality.

We cordially invite all progressive business men to visit our showroom and see our latest Lighting and Heating Appliances, by the adoption of which the ideal outline in the above extract from a London paper may be easily secured. Our new RADIO X-Lamp and GASTEAM Radiators fill all light and heat requirements.

### ST. JOHN'S GAS LIGHT COMPANY.

### At Presbyterian Hall.

#### LAST NIGHT AND TO-NIGHT.

The entertainment given in the Presbyterian Hall last evening was enjoyable and most successful. Those who contributed to the success of the musical treat of the evening were:—Misses M. Mitchell, M. Shea, Ryan, Herder, L. Anderson, S. Johnson, J. Strang and Messrs. King and Bulley. Miss Anderson acted as accompanist during the evening and won warm applause. The Valentine, Candy and Work tables realized goodly amounts, and spoke well for the business abilities of the good ladies of St. Andrew's Guild. Quite a satisfactory sum was taken and those who presided at the different tables are to be congratulated on the success of the Sale.

The table holders were:—Valentine, Misses Mitchell, M. Gibb and M. Cook who were prettily attired in costumes of a bye-gone era. Candy—Misses Clouston and Curran. Work—Misses Thompson, M. Robertson and Ledingham.

A lantern exhibition will be given in the hall to-night and His Excellency the Governor will attend. The views to be shown depict the doings of our boys from their first day's camp at Pleasantville to their arrival on the battlefield and subsequent events. Life size pictures of Lieut. Donnelly, Sergeant Greene, Private Hynes, Reservist Green, and many others who have brought honors to the home and Old Land, will be seen, and a large gathering should attend.

### C. L. B. Bandmen Overcome by Gas.

While practising at their Armoury for the grand dance the Brigade is holding tonight, members of the C. L. B. band had a narrow escape from being suffocated by gas and feel the effects of their experience yet. Twelve bandmen were seated in the band room, which is at the rear end of the building. In the room was a gas stove and gas heater. From the latter, and unknown to those present, gas was escaping. After they had been rehearsing some music, though only for a short while, several of the bandmen noticed the room to be dark. Just then one man said he felt sick and could not play any longer, another stood up and fell to the floor, and four others collapsed as a result of being overcome by the gas. The band room door was immediately opened and the stricken men brought outside the Armoury to get the fresh air. Some quickly came round but four men were completely knocked out and had to be accompanied to their homes and given proper attendance. They are not yet fully recovered from the dose of gas they got.

### What Are You Doing for that Eczema?

"Nothing; I've about given up trying to cure it."  
"That is not wise. Do as I did and you will probably be cured in a short time. I used Zylex and Zylex Soap with it and my Eczema began to improve at once. A couple of boxes cured. You can get Zylex at your druggist."  
Zylex, 50c. a box; Zylex Soap, 25c. a cake.  
Zylex, London.

### Graciana Disabled.

The Furness Whity Company has received a message that the S. S. Graciana, east bound, reported 140 miles west of Fastnet, steering gear disabled. This will mean that the steamer's sailing from Liverpool is postponed until such time as she reaches port and has repairs effected. At the time of the mishap the Graciana was on her way to St. John's from Glasgow, which port she left exactly a week ago and had 1,000 tons general cargo.

### Hockeyists Meet Accident.

Messrs. Ford (Victorias) and Pearce (Feildians) each met with an accident during last evening's game. The former received a "punch" with great force in the face, inflicting a bad wound and almost dislocating his nasal organ. He bled considerably. The Feildian man got knocked out owing to his face coming in collision with the end of an opponent's stick. After having their injuries temporarily attended to, both players continued the game.

### Our Volunteers.

There are now 106 men in training at the C. L. B. Armoury. Yesterday was spent in various indoor drilling exercises and instructions, Sergt. Murrell showing the men the different ways of using the bayonet.

### Lively Exhibition.

Victorias Get Decision Over Feildians.

The Victorias and Feildians treated spectators to a lively and exciting exhibition of hockey at the Prince's Rink last evening. It was the final game of the first round and resulted in a win for the Victorias by 4 goals to 3.

A few minutes after the opening the Vics. scored the first goal by good combination work. Play then became fast and furious, the Feildians having the advantage, and after a clever bit of stick-handling Rendell netted the equalizer.

On facing off again the Vics. resumed their attacks and notched up two more goals and just before the first period closed the Feildians secured No. 2.

The second period began briskly and some excellent play was witnessed of their experience yet. Twelve bandmen were seated in the band room, which is at the rear end of the building. In the room was a gas stove and gas heater. From the latter, and unknown to those present, gas was escaping. After they had been rehearsing some music, though only for a short while, several of the bandmen noticed the room to be dark. Just then one man said he felt sick and could not play any longer, another stood up and fell to the floor, and four others collapsed as a result of being overcome by the gas. The band room door was immediately opened and the stricken men brought outside the Armoury to get the fresh air. Some quickly came round but four men were completely knocked out and had to be accompanied to their homes and given proper attendance. They are not yet fully recovered from the dose of gas they got.
