

## The Only Way To Cure Rheumatism

Must Be Treated Through the Blood and the Poisonous Acid Driven Out.

The twinges and tortures of rheumatism are not due to cold, damp weather as so many people suppose. Rheumatism comes from poisonous acid in the blood. This is a medical truth that every rheumatic sufferer should realize. There is only one way to cure rheumatism—it must be treated through the blood. All the liniments and rubbing and so-called electrical treatment in the world will not cure rheumatism, and the sufferer who tries them is not only wasting money, but is allowing the trouble to become more firmly rooted in the system and harder to cure when the proper remedy is tried. Dr. Williams' Pink Pills have had remarkable success in curing rheumatism because they go right to the root of the trouble in the blood, driving out the poisonous acid, releasing the stiffened joints, clearing away the torturing pains, and giving the victim renewed health and ease. Mr. Vincent Brown, Havre, Boucher, N. S., says: "For two years I was an almost constant sufferer from rheumatism, the trouble being so bad at times that I could scarcely get about. The trouble seemed to bring with it anaemia, and altogether I was in a very bad condition. I used doctor's medicine for almost a year without relief. Then on advice of a friend I decided to try Dr. Williams' Pink Pills. I think I took altogether about a dozen boxes, with the result that I am again enjoying perfect health."

You can get these pills through any medicine dealer or by mail, post paid, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### AYLMER WOMEN'S INSTITUTE HOLD INTERESTING MEETING

The regular monthly meeting of the Aylmer Women's Institute was held on Wednesday last in the council chamber, the president, Mrs. Almas, presiding. Several letters expressing appreciation, from our boys overseas, of the parcels received were read, also one from Queen's University Hospital thanking the Institute for \$25 donated to help with the equipment. The ladies already have a cot in the hospital, donated by them last year. Mrs. McLennan reported 50 pairs home knit socks sent for October. The Institute is sending 50 pairs of socks every month through the C. W. C. A., besides putting two pairs in each private parcel sent, and as funds are low, all donations will be gratefully received. They also contemplate sending Christmas cheer to as many of our boys as they can reach.

Miss Fisher gave two splendid instrumental solos and Miss Hilda Brown sang two solos in her usual pleasing manner. Rev. Mr. Muttitt gave a splendid address on "A Woman's Place in the Building of a Nation," and those who missed hearing the talk missed a treat. In moving a vote of thanks to Mr. Muttitt, Mrs. A. S. Rogers said that to listen and not act would do us no good, but let us like Christian women do all in our power to build and uplift the world around about us. Miss V. Peckham and Mr. C. Parker gave a splendid piano duet, after which the ladies served a dainty lunch.

The president and secretary were elected delegates to attend the London convention on Nov. 8th and 9th.

### THE DEATH OF MRS MARY MACLACHLAN

Died, in Aylmer, on October 9, 1916, Mary MacLachlan, in her 86th year. And this is the end of a perfect life. To no one of our acquaintance are these words more appropriate. If ever there was a good and noble woman, and a true Christian in this world, it was the late Mary MacLachlan. Her whole life was devoted to the care of the home and loved ones, and her great big loving heart seemed to reach out and take in everyone with whom she came in contact. Self was her last consideration, and to save and help others was her greatest joy.

It is not to be wondered at, then, that her death is felt, not only by the members of her own family, but by hundreds of friends, as a loss that can never be replaced. Her life has been an inspiration for good, and an example, which, if followed, would make this old world brighter and purer. After only a week's illness "God touched her with His finger, and she slept," but not until a beautiful life was lived, a noble example of patience, fidelity to truth and faith were given. Well may her children cherish her memory as a precious legacy.

Mary MacLachlan was born at St. John's, New Brunswick, on September 19th, 1831. She was the eldest daughter of the late William and Esther Robertson, who came to this country and settled on the ninth concession of Malahide, when deceased was but a child. At the age of 18 years she was married to the late Archibald MacLachlan, who predeceased her forty-six years ago, leaving with her the responsibility of caring for a family of eight children of tender years. That she did her duty faithfully and well goes without saying. Thirty-five years ago she removed to Aylmer, and has been one of our most respected residents.

Four sons and three daughters survive her, as follows: Dr. D. A., of Detroit, Mich.; Joseph, of Crosswell, Mich.; both of whom were at her bedside in the last days; Dr. James A., of Dayton, Wash.; Dr. John, of Seattle, Wash.; Miss Josephine, at home; Mrs. E. C. Monteith and Mrs. W. J. Mann, of Aylmer. She also leaves one brother, Samuel, of Carleton Place, Ont.; and three sisters: Mrs. John MacLachlan, of Stockton, Man.; Mrs. James Vanstone, of Malta Bend, Missouri; and Mrs. (Dr.) W. Swenerton, of Vancouver, B. C.

The funeral takes place from her late residence, Talbot street west, this afternoon, at 2 o'clock. After a service at the house, the remains will be laid to rest beside her husband in Aylmer cemetery.

### GUARD THE CHILDREN FROM AUTUMN COLDS

The fall is the most severe season of the year for colds—one day is warm the next is wet and cold and unless the mother is on her guard the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mother's best friend in preventing or banishing colds. They act as a gentle laxative, keeping the bowels and stomach free and sweet. An occasional dose will prevent colds or if it does come on suddenly the prompt use of the Tablets will quickly cure it. The Tablets are sold by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

It was the first band that any of us had seen near the battle front. One or another of the five of us American newspaper men had seen every front on both sides, and music hadn't seemed to have much place in this grim war. There were ninety musicians and five drummers, and they stood in the mud up to their shoe tops.

"Can't you get them to play?" we asked our guide. "It's the first band we ever saw near a battlefield."

"Will you write stories about it?" asked the leader. We said we would.

Whereupon, standing in the mud, the band struck up the song of a certain regiment of Zouaves. Some members of the band sang. They played on their horns in relays, so that we had a chorus—a band and five-and-drum corps going all at once. It was a rattling good tune. We gave three cheers for the band, and the band gave three cheers for us. The bandmaster made us promise again to write a story about how his band played, and then we were ordered back into our ambulances for the ride to Strumnitz, where we were to pass the night.

If you hear anyone say there is no music in twentieth-century war, that men no longer die to stirring tunes, just tell your informant that he's wrong. The French zouaves have a band, and it goes with them right up to the front, and it plays while they fight and while they die. There are some things a regiment won't give up, no matter what the war councils say or what the generals think best. With the French Zouaves, this thing is their band.

## Wall Paper Advances

in Price from 25 per cent. to 50 per cent.

The lower priced papers, the ones we sold at from 5c to 12½c the roll, will be fully 50 per cent. higher next year and from 15c roll up the advance will average 25 per cent. We have our next spring's paper booked now and we know that the above is correct.

The sensible thing to do and it's just what other big dealers are doing, would be to take advantage of this increase in the market price and raise at once the price on all the stock we have on hand. It has taken some little time to decide whether we should raise the prices or put on a sale and clear out half or perhaps three quarters of this stock this fall at the old prices. We've decided to leave the prices as they are until the first of the year and to continue our practice of wrapping up all small lots—where there is only one or two rooms left, into remnant lots and selling them at about half price.

If you have any rooms which will require decorating inside of three years (there will be no reduction before then) it will pay you to buy the paper here this fall. Even if you do not use it until next spring.
