GUELPH DEFEATS HAMILTON. About 1,500 people witnessed the ball game between the Maple Leafs, of Guelph, and the Hamilton team at Dundurn yesterday. Gallagher, the Guelph pitcher, was a Chinese puzzle to the Hamiltons, and contributed not a little to his team's victory, making a three-bagger, a two-bagger, and a single. Score:

THE ORIENTS AT ST. THOMAS. St. Thomas Times: "The most wearisome game of ball which has been played in this city for many a day was that at Atlantic Park Tuesday afternoon between the Y. M. C. A.'s and Orients, of London, when the former won by a score of 19 to 12. It was the rockiest kind of ballplaying, the game abounding in muff-ing, fumbling, and wild throwing. Indeed, it looked at times as if some of the players were not trying to play the game. The ball was hit freely, and there was lots of leather-chasing and run-getting, but an almost total absence of clean ball-playing. Many got tired and went home long before the finish, and when the last man was out, and the game was ended, all were heartily glad.

The Short Skirt and Norfolk Jacket the Predominating Attire.

The "Bloomers" Not in It-New and Com fortable Costumes.

London at present contains as large number of cyclists in proportion to its population as any city in Canada, and nowhere are the people more enthusiastic in and interested in this invigorating and healthful exercise than here. The excellent taste displayed in the neat and jaunty costumes worn by our girls is worthy of special note, and cannot fail being duly admired.

Persons visiting this beautiful city at so favorable and pleasant a time of the year, and walking through Victoria Park, or down any of the principal streets, cannot fail to notice the beauty and variety of the bicycle costumes worn by London's fairest belles. Some of the most noticeable ones

are made of blue, green, gray or fawn, with short skirt and tight-fitting Norfolk jacket, made with four box plaits, and having gaiters to match, also a Tam-O'Shanter trimmed with a couple of quills at the side and made of the same material as the

Another of the latest styles is the short skirt, worn with various kinds of plaid waists and trimmed with velvet to match the predominating color in the plaid, and small or large pearl buttons. Most of these waists are made blouse front, with velvet straps over the shoulders, on which the buttons are put, some in rows of threes on the bias and some on the straight. The sleeves are generally cut after the pattern styled "Bishop's sleeves," and are gathered at the wrist with a light cuff. With this suit, as with many of the others, the English walking hats are very often worn, sometimes felt and sometimes straw, and look very becoming and stylish with a white flowered veil. Still another very pretty effect is found in the old-time Eaton jacket, which instead of being made long this year as usual, is cut short and belted

in at the waist with a narrow belt slipped through at the two side seams and brought over the front. Very of-ten on the skirts of these suits are three large pearl buttons down each front seam.
One of the newest styles of caps bought from friends across the line is a Tam O'Shanter made of dark

red fine plaid, bound with black and having two black quills and a bow at There are several varieties of bicycle costumes worn during the intense heat of July and August. Sewerage Proposition Indorsed by 653 Majority.

The Vote 1.3:6 to 658-South London Almost Unanimous for It.

Not one-half of the 4,300 property and leaseholders of the city (300 of them non-resident) took the trouble to exercise their franchise yesterday on a question directly affecting their pockets to the extent of \$150,000. The bylaw to raise this sum, of which Mayor Little and Dr. Cl. T. Campbell were the champions, was carried by a vote of two to one. There was no organized opposition to it, nor did its advocates use any influence except persuasive eloquence on the hustings. As expected, South London, where the need of better sewerage and drainage is the most felt, went almost unani-mously "yea." In the fourth and fifth wards, where the most opposition was encountered, substantial though not overwhelming majorities were given. Only two subdivisions voted "nay." The vote was: For. Against
