WEEKLY. The attendance of both buyers and sellers was good almost every day this week. Grain deliveries were not very large, and consisted mostly of oats, there being little wheat or any other kind of grain. There was a strong demand for buckwheat, fit to sow, mone came in, except a few lots that were delivered on private account. The price paid is reported at 80c per cwt. The prices of wheat, corn and barley were unchanged.

Oats fluctuated considerably, ranging from 60c to 68c at the close, with 65c as the usual price for good quality, Very few beans came in, but the undertone was somewhat stronger.

Eggs were steady and in good demand, 8½c to 9c being paid for fresh in basket lots; 10c and 11c retail. Butter got quite scarce by Tuesday and advanced to 12c and 13c for crocks and pound rolls wholesale.

was unchanged. Spring chickens are improving in size and sell more readily.

The meat market was well supplied with veal and mutton. Lamb and beef were a little scarce, especially high grade beef. There was little change in prices. Spring lamb sold by the pound usually instead of by the carcass and quarter.
Wool went up 1c during the week,

making the advance in 1/2c jumps. The buyers seem quite keen and almost In the vegetable list the only change we make is lower prices for asparagus lettuce and potatoes. The supply of green peas is improvoffering at 20c to 25c per quart. New peas coming into the market is given as the cause for the falling off in the demand for asparagus. Inquiry to sell from outside points caused the drop in potatoes. Hay sold slowly, and on Tuesday the rain made it almost impossible to sell Later on, the dry loads sold

Receipts-Shipments-

OUTLOOK FOR WHEAT. Macy & Pendleton, Wall street, New York, write the Advertiser: The July

corner is, of course, the central point around which all gossip in grain circles revolves. The erratic course o today's market suggests continued caution in regard to short sales. Min-neapolis production of flour since Jan 1, 1897, is equal to over 26,000,000 bushels of wheat and practically all of this flour has been shipped. The receipts and the other institutions in af of wheat were over 21 per cent less than the quantity ground and leaves the stocks less than half those of Jan. 1, 1897. Flour is reported dull, but there is little doubt that the Northwest millers will be vigorous buyers of the early deliveries. Crop prospects continue of the brightest and lead to quantity. Liverpool and London co tinue apparently indifferent in regar to purchasing in America, notwith standing their own low stocks and th that they cannot get any thing of consequence from Argenti latest figures on the French crop point to under 50,000.000 bushels less than in 1896 and looks like a shortage sufficient to force them to import considerably later on. Hungarian crop will un doubtedly shrink 10 per cent. Mr Snow says past week increased indi cations of winter wheat yield beyond expectations. Spring wheat promises, if conditions are maintained until harvest, it will outrun estimates. Predicts July report of corn condition will

show it lower than in any recent season except 1892, when it was 81. The Dairy Market. INGERSOLL.

THE EXPORT BUTTER TRADE. The large export movement reported by us last week in butter showed itself in the week's shipments, which amounted to 3,803 packages, against 2,126 for the corresponding week last year, bringing the quantity up to date to 6,926 packages, against 5,784 packages for the same period in 1896, showing an increase of 1,142 packages. It mus not, however, be taken for granted that this is all Canadian butter that is going forward by any means, as the great bulk of it is American creamery, about 4,000 or 5,000 packages being re ceived in bond from Chicago this week, a good portion of which is expected to go forward to Bristol. The market fo reamery butter certainly presents some anomalies. For instance, finest American creamery is quoted in this market at 15½c to 16c in bond, and yet purchased at Canton, N. Y., a few days to be held at Toronto, from Aug. 30 to ago at 161/2c for Montreal account. Sept. 11 next. It promises to exceed Then again, safes of finest creamery in magnitude and attractiveness all are reported in the Eastern Townships at 16½c to 16¾c for Montreal account, while exporters quote these prices on spot. Most of the butter bought in the Eastern Townships is for the local trade here, and this may account for the higher prices paid in this country they shippers say they can afford to

There were 63 carloads of stuff on the boards, including 1,035 sheep and lambs, 1,000 hogs and 79 calves. Total receipts at the two yards for last week were: Cattle 3,886, sheep and lambs, 2,180, hogs,

Export Cattle-Trade was a little quieter and the market was easy on depressing reports from the old coun-try. Prices ruled from 4c to 4½c per try. Prices ruled from 4c to 4½c per flb, mostly, one or two of the best lots on the market going at \$4 60 per cwt. Exporters are buying most of the cat-tle in Chicago. Rates from there to Montreal are the same as from Toronto to Montreal, and the quality of the Chicago cattle is away ahead of Canadian at present, most of the Canadian steers being fattened in the grass. Butchers' Cattle—Reports from Mon-treal showed a poor market there, and a lot of cattle left over; consequently there was little buying to go east. Prices here ruled from 3c to 3%c per Bulls quiet; choice bulls for export

sell at 3%c to 4%c per lb. Stock and thin bulls dull at 2%c to 3c. Stockers—Buying for Buffalo was only moderate, at 2%c to 3%c. Feeders—One carload was bought for Cornwall at 3%c. Demand is light. Sheep steady; at 3%c to 3%c per lb. Lambs—Good demand, at \$2 50 to \$3 each, or 3c per lb.

Calves—Choice veals in request, at \$6. Common to good calves dull, at \$2 to \$4 each. Milch Cows and Springers—Good demand; all sold at \$20 to \$35 each. Hogs firm; choice selection sell for 51/2c per lb., weighed off the cars. Light fat hogs, 5c; thick hogs, 4%c; sows, 3c; stags, 2c to 21/4c. NEW YORK.

New York, June 29.-Beeves-Rereipts, 100; none on sale; dressed beef, 7c to 84c per lb; calves steady for steers, 11c to 11½c; refrigerator beef, 84c to 8½c; shipments, 800 cattle, 1,000 sheep, and 2,580 quarters of beef.

Two of Nine Sections Crash Into Each Other.

Two Persons Killed Outright and 20 or 30 Injured - Similar Accident in Indiana - Two Railway Employes Killed.

Chicago, June 30 .- Three persons were killed outright and about 20 or 30 persons injured in a rear end collision on the Chicago and Northwestern Railroad at 1:45 o'clock this morning at West Chicago, 30 miles out of Chicago on the Galena division. The victims of the collision were Christian Endeavor delegates, who left Chicago last night en route for the great convention in San Francisco. The colliding trains were sections numbers 4 and 5 of a Christian Endeavor special sent out in nine sections, beginning at 10:30

TERRIFIC COLLESION. Section No. 5 ran into section No. 4, which left Chicago fifteen minutes ahead of it. Section No. 4 carried the Wisconsin delegates, nearly 500 strong, and in the rear sleeper were people from Fond Du Lac, Green Bay, Apple-ton, and other Wisconsin cities. Section No. 4 had come to a stop just out of West Chicago, where the Free-port line diverges from the main line. Section No. 5 came up behind at great speed, and the shock of the collision was terrific.

NO WARNING.

The passengers in the two rear sleepers of section No. 4 were all in their berths. They received no warning, and those not killed outright awoke to find themselves jammed in the wreckage. Passengers on both hastened to the spot and began the work of rescue. One of the first of the injured was Engineer Charles Courtney, of section No. 5. He had stuck to his post like a hero, and is so seriously injured he cannot live. The body of an unidentified man, supposed to be a tramp, was found between the baggage car and the engine. The man had been crushed to death.

CALL FOR HELP.

An immediate call for help was made on every point within reaching distance. Chicago was notified, and asktance. Chicago was notified, and asked to send physicians at once, and medical help was requested from Geneva, Wheton and Aurora. The engine of section No. 5 had struck the rear sleeper of section No. 4 with terrific force. The engine was totally wrecked. Strange to say, the rear sleeper of section No. 4 was not the one to suffer most. It was driven the one to suffer most. It was driven with terrific force upon the second sleeper, and such was its impulse that it crashed through it as though it had been a cardboard box, and reduced it to a mass of wreckage.

THIRTY-SIX HURT. The passengers in the second sleeper were therefore the ones to suffer most, and it was in it that most of the 36 victims were hurt. How so many escaped instant death is nothing short

Still Another. DISASTER IN INDIANA.

Indianapolis, Ind., June 30.-Train No. 11, on the Vandalia Railroad, which left this city at 7 o'clock last evening, containing a large number of Christian Endeavorers on their way to the great convention at San Francisco, collided ence. with train No. 6 bound east from St. Louis at 8:20 o'clock near Vandalia. TWO PERSONS WERE KILLED. and several fatally injured. Train No. 11 left Indianapolis in two sections on account of the heavy San Francisco travel, occasioned by the national meeting of the Christian Endeavor Society. Orders were given to meet No. 6, the eastbound passenger train, at Vandalia, these two trains being due to meet at that place about 1:30 this morning. At 3 o'clock this morning further information was received which confirmed the first report of the acci

It seems from the best information obtainable that the westbound train pulled out of Vandalia without waiting for the train from St. Louis. The headlight of the westbound train was ex tinguished for some time before the crash came.

The killed and injured were all em ployes. None of the passengers on either train were injured.

-Last evening Mr. James Burrows, of Lambeth Postoffice, Ont., had on exhibition in Sherwood Hall an acetylene gas machine, manufactured by the Acetylene Lighting Company, of St. Marys, Ont. A large number of interested people were present to see the light, and all seemed to think it an excellent one. The machine is very simple in operation, being entirely au-tomatic. It furnishes a means of

A most successful open air jubilee concert and lawn social took place on Friday evening at Florence, under the auspices of the guild and congrega-tion of St. Matthew's Church, Florence. It was held on the rectory grounds, which were very tastefully and elaborately decorated with red, white and blue flags, festooning, jubi-lee mottoes, etc., and when illuminated at night presented a most pleasing and unique picture. There were be-tween five and six hundred present, all of whom enjoyed the splendid programme given, in which the following took part: The Bothwell Brass Band; Mr. H. Poole, London; Misses Unsworth, Edith Bobier, May Atkinson, and Florence Ramsden, of Florence Mrs. McManis, and Messrs. D. G. Reid, and O. R. Edwards, Bothwell The Rev. H. R. Diehl occupied the chair. the admission was only 15 cents fo adults and 10 cents for children.

DELAWARE.

Delaware, June 30.—The popularity of Rev. T. T. George as a pastor was made manifest last Sunday evening, on the occasion of his preaching his farewell sermon in the Methodist Church. Fully an hour before the time displeasing to many people as marks of age may be averted for a long time by using Hall's Hair Renewer. was taxed to its utmost. Every seat was packed, and the aisles were filled with chairs, which were quickly oc-cupied, while many went away who could not get inside. Mr. George is the first minister in the London conference who has put in the full five years—the extreme time limit of a Methodist minister on one circuit, and the ing of a 20 per cent ad valorem duty on hides is looked upon by dealers here as a very serious thing, and a crippling blow aimed at the hide industry.
