WEEKLY REVIEW. The receipts of grain have been moderately good, taking the whole week into consideration. The quantity offered each day varied, and prices of some lines were easily affected, principally hay, oats and hogs, in all shapes. Wheat was firm, sales ranging from \$1 10 to \$1 12 for good.

Oats opened at 82c to 85c, and closed at 82c to 88c; demand good. Barley brought 75c to 80c; mostly 78c to 80c. No rye or beans offered.

One or two small lots of buckwheat sold at 90c to \$1, and a small load of Flin corn at 75c. was scarce; some days there

most none in; \$10 to \$11 is about its due today.

Dressed and live hogs were both easier, and young pigs slow of sale.

# Talk and Heredity.

There is a strong fiber of common sense and shrewdness in the negro character which often helps the old colored people to keep the too ambi-

tious young folk within bounds. Gen. Nichols, of Louisiana told the other day of the return to a plantation Nov. 19: Rev. C. W. Brown, M.A., day or two, surrounded by awestruck, B.D., of Exeter, will conduct the services. The usual offerings for the gray old negro, interposed, solemnly: gray old negro, interposed, solemnly: "I've been listenin' to yoh, Odolphus, foh two days, an' yoh talk, but yoh doan' reach into de stomach ob yoh subject; an' yoh argufy an' yoh argufy, but yoh doan' locate!'

Many orators with lighter skins and more pretentions than Adolphus could apply these homely hints to their arguments with good effect, Another wise old "uncle" lately listened in silence to a disucssion on the divers social claims to distinction of several educated men and women of his race. The members of one family boasted of descent from wealthy mer-

chants in the West Indies; others claimed kinship with well-known poli-

ticians; still others asserted that their ancestors never had been slaves, but
