AFTER THE WINTER FAIR

Battalion Fund Will Lose \$500 by Going to St. Thomas.

[Special to The Advertiser.] GUELPH, Oct. 19.-The removal of he 153rd from London to St. Thomas s not a popular move from the standpoint of this county. When the bat-talion was here recently for the presentation of its colors it was understood that it would remain in London until it went overseas, and to this was coupled the request that it be sent to Guelph, the county seat, as soon as the winter fair was over. It is adnitted here, though, that the winter fair dates cannot be altered and that the building must be placed at the disposal of the fair board for about hree weeks, and that there would be trouble in getting through in that time. Had it not been for this, the men at headquarters in London have but this will now be cancelled.

A GOOD WAY TO PREVENT BALDNESS

Says This Recipe Will Often Grow New Hair in Two Weeks' Time. Most men take baldness as something evitable, though why it passes under inevitable, though why it passes understanding. There is no more reason why hair should cease to grow on the top of the head than on the sides of the face—and most men have to shave to the end of their days or wear a beard. If your hair is growing grey or get-ting thin in patches and you find great quantities of it in your brush and comb, the following recipe for a good home-made hair tonic can be strongly recom-mended, Get from any druggist 2 oz. of Lavona de Composee and 6 oz. of pure mposee and 6 oz. of pure together, adding one-half should be allowed to stand over night,

then it is ready for use.

This preparation will in almost every istance stop falling hair within two or nree days, and numerous instances been reported in which it has bee the cause of new hair growth after years of partial baldness. It is quite important in using this prescription to apply the tonic directly on the scalp, rubbing briskly into the pores with the fingertips so that the hair roots can absorb its full nourishment. While the preparation contains no coloring matter.
