The contention is that the state of the public service commission and given over to a hostile dity government.

A large block of Tobacco Products is said to have been overhamping the hetween 5s and 60, and this is with that Tobacco Products shot up above 60, and became one of the leading as \$10 a share. Apparently, this stock has not responded more to ensulting the term also today, with the immediate result that Tobacco Products shot up above 60, and became one of the leader preferred. The reasons for this have been indicated so many times that repetition would seem superfluous. However, the rise in this company's important about the effect of 10-cent sugar in leaves the state of the state of the waterworks gituation.

CHICAGO GRAIN FUTURES.

Chicago, April 26.—Influenced by a sharp upturn in Liverpool quotations, all deliveries of wheat here rose today all deliveries of wheat here rose today to new Mgh price records for the year. The Liverpool advice was ascribed to an unexpected falling off in the volume of shipments from Argentina and to good demand from European continental countries. Better weather both northwest and southwest in this country failed to restrain buyers or to stop the upward tendency of values during the early dealings. Opening prices, which ranged from 14c to 34c higher, were followed by material further gains. gains.

Corn as well as wheat touched a new high price record for the season. Strength in corn and oats was largely due to the action of wheat. After opening 1/2c to 1/2c up, corn scored a moderate general advance. Oats started unchanged to 1/2c higher and later showed gains for all months.

Futures opened:

Wheat—May \$1.26%; July \$1.24%.

Corn—May \$1.½c; July \$3%ec.

Oats—May 45½c; July 46½c.

the fact that Liverpool quotations showed less strength than had been looked for, prices here began soon to climb, signs being manifest that export dealings were of liberal volume. Suggestions that a settlement of issues troubling France and Germany might quickly be brought about were generally construed as bullish in regard to wheat, traders leaning to the united States a good 'deal more freely than has of aste been gracticable.

Corn developed independent strength, and July delivery attained a new high price record for the season.
