Under the head of provincial aid, the per capita grant to cities of the first class was changed from \$350 to \$360; in cities of the second class the grant was increased from \$375 to \$420; in cities of the third class the grant was increased from \$420 to \$465. This grant as originally provided was based on the "actual number of teachers employed." This was altered to include "manual training and domestic science instructors." The per capita grant to rural

This was altered to include "manual training and domestic science instructors." The per capita grant to rural schools was raised from \$450 to \$480, and the basis of payment was changed as in the case of city schools.

The following was substituted for section 22: "It shall be the duty of each inspector to determine and report to the superintendent what school district or districts (if any), under his supervision may be entitled, during the ensuing year, to special aid as poor districts, and the council of public instruction may, upon receipt of the report of the inspector, and taking into consideration the position and circumstances of such district such additional amount as by the said council may be deemed necessary."

The following was inserted as section 26: "26. Every person who shall have been duly elected trustee shall, before taking his seat, make the following declaration before any judge of the Supreme court, or a judge of any County court, or before a justice of the peace, and shall procure from such judge or justice of the peace accrificate of the same having been duly made and subscribed: "I, A. He failed to discover ray principle in the bill. Its guiding purpose apparently was to divide the sheep from the goats; in other words the speculator from the tiller of the land. There were three things which should have consideration in preparing such a measure: The contracted liability of parties interested; the of school trustee, and I have not, nor will have while holding office, any interest, directly or indirectly, in any contract or services connected with this school board. I have not, by myself or any other person, knowingly employed any bribery, corruption or intimidation to gain my election, and I will faithfully perform the duties of my office, and I will not allow any private interest to influence my conduct in school matters."

Mr. Williams and Mr. Hawthornthwaite put in a plea for more liberal assistance to the poorer rural districts on the Island.

Mr. Oliver passed a remark about the apparent effects of Liberal anti-school bill meetings upon the Socialist members, arguing that upon second feading they had supported the bill more unreservedly than any other members of the House.

This introduced an exchange of comschool trustee, and I have not, nor

This introduced an exchange of compliments, with reference to parliament-ary ethics, and the right of members to look after their own districts particular-ly, between these gentlemen. Dr. Young observed that while it was

commendable for members to have cuief regard to their own constituencies, a wide field would be opened up if these wide field would be opened up if these ideas were allowed to prevail, pointing out that there were districts in the northern part of the province whose claims might supercede those of Newcastle or Nanaimo with reference to school assistance.

Mr. Hall suggested that a tuition fee for all branches of the High school curriculum, beyond a certain grade, should be provided, but after some consideration it was agreed that it was better to leave this matter to the discretion of the boards of trustees, as stipulated in the boll.

The Premier moved the adjournment of the debate. The bill to amend the Horticultural Board Act passed second reading, after an explanation by the Finance Minister. It prohibits the sale of fruit trees by unlicensed persons, and makes certain provisions with reference to the posting of a \$2000 bond for damages that may be occasioned through the sale of infected stock.

The bill respecting the Kootenay, Cariboo & Pacific Railway Co. passed third reading.

The House adjourned at 6 o'clock. Notes.

Mr. Bowser gives notice that on Friday he will move: That this House regrets that in the bill proposed to be submitted to the Dominion Parliament, submitted to the Dominion Parliament, granting autonomy to the Northwest Territories, there is an interference with provincial rights in regard to the provisions dealing with their school system.

The speech delivered by Mr. Munro yesterday on the dyking question was generally spoken of as one of the most eloquent heard in the legislature during the present parliament. Aside from politics altogether, Mr. Munro is a speaker who is always heard with pleasure.

### CHINESE EVIDENCE OF LITTLE VALUE

An Incident at the Police Court Which Shows Uselessness of Chinaman's Oath.

How much is a Chinese oath worth? moved:

That this House is of the opinion that the cost of the dyking works of this province, owing to unforeseen difficulties and the experimental nature of the undertaking, has been much in excess of their value to the district involved, and that it is expedient and advisable that a substantial reduction should be made in the amount to be charged against lands in the various dyking districts. That the present bill as introduced is unjust, unfair and inequitable in its provisions discriminating against actual bona fide settlers in favor of the land speculator. Evidently but little. Chinese swear by cutting the head from a chicken, by urning paper with their names written hereon, by breaking saucers-but do they consider the oath binding? Evidently not.

Chin Hong didn't consider his oath a eterient to prevaricating in the police ourt yesterday morning.

Chin Hong gave evidence. He said the boys surrounded him on Johnson street, pushed, kicked, hit him—and he couldn't go. He commenced to fight; everyone commenced to fight. He broke through and ran for Chinatown. Like Lot's wife he looked back and met a stone with his forehead, the wound, exhibit A, being caused.

......... St. Petersburg, March 22.—(2:20 a.m.)—The Russian army in Manchuria is still to have the services of Gen. Kuropatkin. Sinking all feeling of personal bitterness and all the old time enmity between himself and Gen. Authoritative news of this remarkable step was known in Manchuria much earlier than in St. Petersburg. Gen. Kuropatkin, having paused on his homeward journey at Harbin, started southward on the afternoon of March 20, amidst a most remarkable farewell from the residents and soldiers who are on their way to fill up the depleted ranks. This is but a forecast of what awaits Gen. Kuropatkin at the front. The retreat is apparently progressing uneventfully. No despatches of moment were received yesterday.

Preparations are now making for the mobilization of a number of detachments however, on a general scale, the preliminary orders affecting twenty-two districts in the governments of Odessa, Warsaw and Moscow.

OFF TO THE WAR AGAIN. Patriotic Action of Kuropatkin Given Needed Assistance to Linevitch.

Harbin, March 21.—(3 a. m.)—At the departure southward of Gen. Kuropatkin, crowds of thousands of civilians and soldiers gathered at the station and gave him a great ovation. Above thundering hurrahs were heard cries of "God send you happiness," "Good-bye, brother," "Good-bye, father." As the train started soldiers rushed forward in a surging crowd and grasped the hand-rail of the general's car, throwing their fur caps in the air and running some distance with the car. The scene made a deep impression on Gen. Kuropatkin, down whose face tears streamed. Removing his cap, he saluted again and again, and stood bare-headed on the platform of the car as long as the train was in sight. car as long as the train was in sight.
