Can Find New Health and Strength Through the Use of Dr. Williams' Pink Pills.

WEAK, WORRIED WOMEN

It is useless to tell a hard working woman to take life easily and not to worry. To do so is to ask the almost impossible. But, at the same time, it is the duty of every woman to save her strength as much as possible; to take her cares as lightly as may be, and to build up her strength to meet any unusual de-mands. It is a duty she owes herself and family for her future health may depend upon it. To guard against a complete break-down in health the blood must be kept rich, red and pure. No other medicine does this so well as Dr. Williams' Pink Pills. This medicine actually makes new red blood, strengthens the nerves, and keeps every organ healthily toned up.

keeps every organ healthily toned up. Women cannot always rest when they should, but they can keep their strength Women cannot always rest when they should, but they can keep their strength and keep disease away by the occasional use of Dr. Williams' Pink Pills, which have done more to lighten the cares of weak women than any other medicine. Among the many women who have reason to be thankful for Dr. Williams' Pink Pills is Mrs. Milan Bailey, Utterson, Ont, who says: "Two years ago I got weak and badly run down, and could scarcely do my housework. I grew so thin that my friends used to comment upon it. At that time my baby was six: months old and the care of it and my housework was almost too much for me. It was at this stage that my husband got me a supply of Dr. Williams' Pink Pills, and before I had been taking them long we could see an improvement in my con-dition. For months 1 had not been sleeping well and my natural sleep re-turned and I wasn't so nervous. Then my friends began to comment upon my improved condition and tell me how much better I was looking. By the time I had taken six boxes I felt completely cured, and have since enjoyed the best of health. Now I never fail to recom-mend Dr. Williams' Pink Pills when an g of any of my friends are ailing." You can get Dr. Williams' Pink Pills

diers over alleged preferential treatment in embarkations may be attributed to the fact that the men have been divided into sections according to the Canadian Military Districts from which they come. By this means some shorter service men were sent home ahead of some who had were sent nome anead of some who had been under arms for a longer period. The Manchester Guardian says: "The ascription of the Kinmel riots entirely to a few Russian Bolshevists among 15,000 Canadian soldiers, will not do. It is obvious that the conditions of the camp were unusually bad, and the fact that the food stores were first plundered is proof.
