

The World Takes All

our output and calls for more
although we built and sold the unparalleled number of
189,760
McCormick Machines
in 1898.

The
McCormick
Harvesters and Binders,
Reapers,
Mowers,
Corn Harvesters,
Rakes,
Fodder Shredders,
are absolutely the Best Known to the Buying World.

McCormick Harvesting Machine Co. CHICAGO.

tions at the Royal for the Toronto Industrial Fair.

MESSRS. JOSEPH YULL & SON, of Carleton Place, Ont., write: "Our Ayrshires, Shropshires and Berkshires are wintering extra well. We had great luck for heifer calves. Out of forty cows we had 32 heifer and 8 bull calves. They are the finest lot of calves we ever had, all sired by Jock of Burnside—1684—winner of first prize at Ottawa in 1888. We have sold one bull to J. R. Smith, of Portage la Prairie, Man.; one two-year-old heifer and one bull calf to John Aikenhead, Hartney, Man., and one bull calf to John Currie, St. Catharines, Ont. We have two litters of Berkshires. They are the real bacon type. Prospects were never better for purebred stock."

Mr. C. R. DECKER, Chesterfield, Ont., writes:—"My Berkshire herd have come through the winter in good shape; have about 30 head, several choice sows to farrow. Some good show stock have made a good number of sales through advertising in FARMING; can recommend it as a good advertising medium. Some of my recent sales are: Mr. D. B. McEachern, Cotswold P. O., 1 boar; Mr. D. Hamilton, V.S., Harriston P. O., 1 boar; Mr. Syrus Rickert, Manheim P. O., 1 boar; Mr. Syrus Rickert, Manheim P. O., 1 sow; Mr. Robert Chisholm, Ayr P. O., 1 sow in farrow; Mr. Caldwell & Co., Galt P. O., 1 boar and sow; Mr. D. Hamilton, Harriston P. O., another boar; Mr. Robt. Wilson, Princeton P. O., 1 boar; Mr. Hugh Kennedy, Almonte, 1 sow in farrow; Mr. N. P. Moyer, Jordan P. O., 1 boar and sow; J. S. Cowan, Newry P. O., 1 boar; Mr. Hugh Kennedy, Almonte P. O., 1 boar; Mr. F. D. Johnson, Blenheim P. O., 1 boar; Mr. J. D. Moore, Galt P. O., 1 boar; Mr. A. F. McGill, Neepawa, Man., 1 sow in farrow; Mr. Thos. Baird, Chesterfield, 1 sow in farrow; Mr. E. W. Seprell, Carleton P. O., 1 boar. John J. Durnouchelle, Windsor, 1 boar and sow in farrow.

Mr. WM. HOWE, of North Bruce, Ont., writes: My stock are coming through the winter in fine condition and the young stock are arriving strong and healthy. I have recently purchased from Mr. J. E. Brethour, Burford, a yearling sow of the Lady Duckering family. She was in farrow to Oak Lodge Royal King—3044—a first prize winner at the Royal last year, and has farrowed since arriving thirteen pigs, all of which she is raising. They are doing well and are not akin to any of my other stock. The young boars I am offering are a good lot as are also the sows in farrow. I enclose you a part of two letters received from Geo. W. Madison, East Greenwich, R.I., U.S.A., to whom I sent a young boar pig on the 13th February. Two of the young boars I now am offering are little brothers of this one.

Webber's Hydro-Lactic Cream Separator

Combines

SIMPLICITY OF OPERATION
ECONOMY OF TIME AND LABOR
THOROUGHNESS OF WORK
DURABILITY AND CHEAPNESS

It is the **happy medium** between the old-fashioned methods of cream-raising and the modern expensive centrifugal separator.

Every farmer with two or more cows should have one.

NOXON NEW BUFFALO PATENT ALL-STEEL DISC HARROW

NOXON NO. 12 SECTORIAL SPRING TOOTH CULTIVATOR

NOXON STEEL HOOSIER DRILL

The Buffalo All-Steel Disc Harrow.

This is the only Disc Harrow made or sold in Canada, having independent, adjustable spring pressure upon the inner ends of the gang disc, allowing any amount of pressure to be thrown upon the inner ends of the gangs, by the foot of the operator. By this means a perfectly flexible action is secured and the ground can be worked to a uniform depth. Examine this Machine carefully and compare with others.

The No. 12 Cultivator

IS A MARVEL OF SUCCESS. The only Cultivator made that both lines of teeth will cut an even depth in the ground. Examine it and you will see why. The only Cultivator with a movable tooth set so that the angle of the teeth can be regulated to suit any condition of soil. Pressure can be regulated to act differently on every section requiring it. The teeth are carried between the wheels instead of trailing behind, as in other machines, thus securing lighter draft. This machine is furnished with grain and grass seed box when required. It has reversible diamond steel points for the teeth; also extra wide chisel-cutting points can be furnished. Examine it and you will buy no other.

THE BEST DRILL MADE.

The Hoosier Needs No Introduction.

Over 40,000 Drills and Seeders of our manufacture in use in Canada. The only Drill made with lever for instant and perfect regulation of depth of hoe in all kinds of soil, while team is in motion. Sows absolutely correct to scale, saves seed, as every kernel is deposited at a proper depth to grow. Purchase only the best and you will be satisfied.

We also manufacture Binders, Reapers, Mower Rakes, Cultivators and Pulpers, as good as the best. Send for illustrated catalogue.
