## Balcony Fire Escapes

(BATTEN'S PATENT)

### ADVANTAGES :

The advantages of the BATTEN FIRE  
 ESCAPE over all others are :

That the balconies are made of the best wrought iron, of any ornamental  
 design or pattern, and securely bolted through the walls. Can be made any  
 length or width. The brackets and flooring are capable of bearing any  
 number of persons standing on them. The ladders, with wide steps and of  
 easy grade, can remain down permanently, or folded up, as desired, show-  
 ing the ornamental balcony only in sight, which does not mar the architec-  
 tural beauty of the building, and can be instantly released when desired.  
 No ice or snow will remain on them, neither will the working parts rust ;  
 and they will work admirably in any weather.

A Stand Pipe is also connected for high buildings, with valves at each  
 door and on the roof.

Our Escapes have been fully tested at fires and proved themselves inval-  
 uable for saving life and property. Iron guards on windows of Asylums and  
 Reform Schools can be so adjusted as to be instantly released in the case of  
 fire by the unfolding of ladder or sounding of a gong.

### Straight Iron Ladders.

For situations not requiring a Balcony Fire Escape I can quote reasonable  
 prices for strong and well finished STRAIGHT IRON LADDERS.

### FREDERIC NICHOLLS,

Sole Manufacturer for Canada,

The Permanent Exhibition of Manufactures

63 to 69 Front St. West, TORONTO.
