peg, Man.

Authorized Capital, \$7,500,000.

Permanent stock, class A, is sold at par value of one hundred dollars per share, and such premium as the board of directors may determine. This stock bears interest at the rate of 5 per cent. per annum. Payable half-yearly on the first day of January and July of each year. It also participates in the profits in excess of said 5 per cent. Profits paid yearly. This stock is greatly in demand and will be on the market at par but a very short time. This is shown by the fact that during the past two weeks over sixty thousand dollars has been subscribed for. The directors are confident that in a short time these shares will command a premium.
