

Antiphlogistine

TRADE-MARK

Summer Time Suggestions

Don't put your Antiphlogistine can away in the summer. Besides now and then a case of pneumonia, there will be many other uses for it:

First— Bruises, sprains, baseball fingers, etc.

Second—Stings and bites of insects and reptiles.

Third— Sunburn

Fourth—Poison Ivy, etc. (Dermatitis Venenata).

Fifth— Inflamed wounds from fireworks or firearms.

Sixth— Applied to the abdomen for the relief of colic in children and adults.

N. B. Be sure and take a can with you on your vacation: you may find it very useful when far from a drug store.
