

CINGALESE.

If your mind be ill at ease,
 Relating to your falling hair;
 Forego the use of Bruin's grease,
 And try instead the CINGALESE;
 The work of years you'll then repair,
 And fructify your falling hair.
 Or should the snowy locks of age
 A wife's or husband's thoughts engage—
 "The winter of (such) discontent"
 Cares not for washes one "red coat"—
 For unguents, powders—none of these—
 But solely for the CINGALESE.
 Seek not, for a sterile soil
 The replenishment of oil;
 Still less aspire to scalp-like wig,
 For which but few would give a fig—
 Polly speculates in these,
 While wisdom goes for CINGALESE.
 And may your glossy, flowing locks
 Escape such matrimonial shocks
 As fell to poor John Wesley's lot,
 When Madam W.'s ire waxed hot;
 Wiggings so terrible as these,
 Are warded off by CINGALESE.

CONSUMPTION CAN BE CURED.

The fact of a physician restricting his practice to the treatment of two or three organs of the body, implies that, in his opinion, the attempt to extend a practice over a wider range of ailments is (to say the least) less likely to be successful; and the restriction of a physician's practice to two or three organs, obviously gives his patients a better prospect of successful treatment than can be afforded by the practice of a more general practitioner.

ONTARIO PULMONARY INSTITUTE

125 Church Street, Opposite the Metropolitan Church, Toronto, Ont.

M. HILTON WILLIAMS, M. D., M.C.P.S.O.
 Proprietor.

Permanently established for the cure of all the various diseases of the Head, throat and chest,—Catarrh, Throat Diseases, Bronchitis, Asthma, Consumption, Catarrhal Ophthalmia (Sore Eyes), and Catarrhal Deafness. Also diseases of the Heart. Under the PERSONAL direction of Dr. Williams, the proprietor.

The only institute of the kind in the Dominion of Canada.

All diseases of the respiratory organs treated by the most improved Medicated Inhalations, combined when required with proper constitutional remedies for the nervous system, stomach, liver, and blood, &c.

IN CATARRH—Inhalations dissolve the hardened concretions that form in the nasal passages, scatter inflammation, heal all ulcerated surfaces and cure every case of catarrhal affection, no matter of how long standing or from what cause it may arise.

IN THROAT DISEASES—Inhalations remove granulations, reduce enlarged tonsils, subdue inflammation, heal ulcerated sore throat, restore the voice when lost or impaired, and arrest all acute cases, as diphtheria, quincy, &c., with amazing rapidity.

IN BRONCHITIS—Inhalations perform wonders by restoring the mucous membrane to a healthy action; also immediately soothing the cough, and effecting entire cures in the most obstinate cases, whether in the acute or chronic forms.

IN ASTHMA—Inhalations immediately arrest the paroxysms and effect entire cures in every case by removing all unnatural obstruction, and by restoring the delicate mucous membranes of the air cells to their normal condition. The cures are usually permanent.

IN CONSUMPTION—Inhalations loosen the phlegm, ease the cough, increase the circulation of the blood, assist assimilation, remove consolidation of the lungs, empty and heal cavities with wonderful promptness, arrest hemorrhages, stop all wasting away of the lungs, soothe the pain, overcome all shortness of breath, and, in fact, cure all the earlier and very many of the later stages of consumption after all hope by other means is past.

By the system of Medicated Inhalations Head, Throat, and Lung affections have become as curable as any class of diseases that afflict humanity.

The very best of references given from all parts of Canada from those already cured. If possible, by all means call personally for Consultation and Examination. But if impossible to call personally at the Institute, write for "List of Questions" and "Medical Treatise." Address

Or the period of weaning,

Or the gladsome time of gleaming,

Still there's need of Ryan's tea.

Elesnora, when she dances,

Says that nothing so entrances

(Always barring Owen's glances).

As a cup of Jaffray's tea.

Just so, Tom, when he is mowing,

Harrowing, or hoeing,

Muck-raking, or sowing,

Is the boy for Ryan's tea.

It was rapid little Rhoda,

When she ran for washing soda,

Who—delighted with the odour—

Told her mother of the tea.
