

MUNICIPAL ENGINEERS, CONTRACTORS AND MATERIALS

The floor should receive a hard scrubbing with hot water and strong soap and ammonia to take out the stains if the floors be not of the hard natural or stained woods. If the latter, they should be cleaned with crude oil, with a dash of turpentine. Many believe that turpentine burns wood, and that is true if much is used. A few drops of turpentine to a quart of oil is enough to cut the oil, and will aid in cleaning. A woollen cloth, preferably a flannel one, should be used in the application of crude oil to floors.

To Municipal Authorities, Engineers and Others

Owing to the excellent reputation which our "STAR" Brand of Portland Cement has acquired, and which trade mark is protected by government registration at Ottawa, foreign manufacturers have been sending cements into Canada under the name of "Star," which we believe to be inferior in quality, weight per barrel, etc., to our goods; hence, to ensure the use of the genuine article, we respectfully suggest that in framing specifications you be careful to see that RATHBUN'S "STAR" BRAND is specified and used. We guarantee it
