

Mission: ANKARA

Market: TURKEY

Services for which there are good market prospects:

5. Mine development services.
6. Consultancy services on zinc and lead.
7. Geological aerial digital mapping.

In support of Canadian exports in this sector the mission is currently engaged in activities which include:

Activity: Preparation of a proposal for turnkey modernization of zinc-lead manufacturing plant.

Expected Results: Contract to be awarded to consortium comprising Canadian firm.

Activity: Submission of an attractive proposal for supply of geological magnetic mapping system.

Expected Results: Securing a contract from State Mineral Research Institute.
