
NOTICE TO READERS

The Canadian Embassy in Copenhagen has identified the fisheries sector as a priority sector for export promotion in 1994/95. This points to the existence of particular opportunities which Canadian seafood exporters are encouraged to pursue. This document has been prepared with a view to providing Canadian fish and seafood exporters with basic information on the Denmark market.

The report identifies market opportunities of potential interest to Canadian seafood exporters and provides data on the socio-economic characteristics of the Danish economy, such as population, language, and economic structure. Information on the domestic Danish market includes data on supply, imports, distribution, marketing opportunities, market access, and consumption habits in Denmark.

Various market access factors are identified in the report. Lists of the major Danish fish and seafood importers/distributors/users in Denmark (p.14), International Trade Centres (p.21) across Canada, and the Geographic Trade Divisions in the Department of Foreign Affairs and International Trade (p.20), are provided as contact points for Canadian seafood exporters interested in the Danish market. In addition, a list of the major trade contacts for Canada-Denmark trade relations are provided as a source of information for doing business with Denmark.

Care has been taken to ensure the accuracy of the information in this guideline at the time of preparation. However, prudent *Canadian fish and seafood exporters are advised to check all relevant details with their commercial contacts and to adhere strictly to the requirements and regulations set by Danish importers and authorities.*

This report is one in a series of "Country Guidelines" being prepared by the Sectoral Liaison Secretariat, Department of Foreign Affairs and International Trade.
