

- E. For the purpose of these reports, the Parties shall develop common protocols and reporting formats, including identification of relevant monitors, for reporting air quality and trends information.
- F. Beginning in 2004, as part of the biennial progress reports, the Parties agree to provide information on implementation of the controls agreed to under this Annex.

#### **PART VI -- REVISITING**

- A. The Parties agree to assess in 2004 progress in implementing the obligations in the Annex with a view to negotiating further reductions.
- B. The Parties agree to discuss, at the request of either Party, the possibility of amending this Annex to designate additional emission management areas and/or to revise the emissions commitments currently specified.
- C. As part of the comprehensive review under Article X of the Agreement, the Parties shall also review the adequacy of the obligations in this Annex for achieving the objectives of this Annex.

#### **PART VII -- MORE STRINGENT MEASURES**

Either Party may take more stringent measures to control and reduce NO<sub>x</sub> and VOC emissions than those specified in this Annex.
