### TORONTO MARKET **REOUIRES A TONIC**

Speculation Is Plainly Apparent.

PRICES SAGGING AGAIN

General List at New Low For Week-No Initiative Is Shown.

With speculative interest at its present low ebb, the Toronto Stock Exchange seems to need some perennial tonic to keep it in good health and spirits. The recent movement in "Rails" and the boom in certain of the specialties served boom in certain of the specialties served 1901 to inculcate some initiative into the 1902 dealings for a few days but now that 1903 these have passed into history the mar-ket has drifted back into the rut of ket has drifted back into the rut of 1906 apathetic trading. As usual, the dearth 1907 of activity has inspired an easier feeling, and the list has dipped toward

lower levels again.

On the afternoon board yesterday only seven stocks were deait in, and in four of those the total transactions amounted to less than 100 shares. No surerearnest of the dearth of speculative enthusiasm could be adduced than that record. Meanwhile half a dozen of the prominent securities could be adduced than that record. Meanwhile half a dozen of the prominent securities which generally act as leaders dropped to lower prices, quotations seemingly sagging of their own weight. The result was that the close left numerous declines in evidence, and, of course, such action did not stimulate sentiment.

Toronto Rallway Down Again.

Another relapse in Toronto Rallway, which dropped to a new low for the week at 143 a full 5% points under the recent record, and a drop of well on to a point in Brazilian, which sold off to 97, its lowest in two weeks, were the leading feetures of the day. Weakness was ower levels again.

The proportion of the bank's reserve to liability this week is 49.63 per cent. against 47.93 per cent. last week.

#### BRAZILIAN EARNINGS SHOWING UP WELL

#### EUROPEAN OUTLOOK IS CLOUDED AGAIN

London Fears Complications in Balkans-Stock Market Is Weaker.

LONDON, April 24.-Money was in good LONDON, April 24.—Money was in good demand today. Discount rates were steady on the political outlook. The stock market was again under the influence of the Balkan situation. Fears of compileations following the capture of Scutari, induced moderate prefit-taking in which the continent participated. Speculative issues were the most affected. The good bank statement had no effect and all the markets closed dull and easy with the exception of Brazilian rails, which were weak.

American securities opened steady and a fraction higher. Trading was light and prices moved irregularly during the forenoon. Later the whole list sagged in the absence of support and the close was easy.

New Issues Meet Bad Reception in London-Better Time Coming.

This, expectation is largely based on the slackening in the trade boom and the curtailment of plans in the manufacturing trades of the world. If this continues profits will be increasingly released from business to be used for stock exchange investment.

The result of the Grand Trunk Pacific and the Maisonneuve issues prove, however, that the happy time has not yet arrived. Underwriters are saddled with 80 per cent. of the former and 50 per cent. of the latter, altho Maisonneuve offered 5 per cent.

Change of Controlling Interest Has Not Affected Their Standing as Yet.

Many of the minority shareholders of the Chambers-Ferland Mining Co., Limited, appear to be somewhat in the dark as to the exact position in which they have been placed, as a result of the recent change of control. It will be remembered that the former controlling interest transferred their stock for about 36 cents a share to the Cobalt Aladdin, an English company, which is working the Silver Queen property.

The situation as regards the minority shareholders up to the present remains just the same as before the change of control, according to a statement made by just the same as before the change of control, according to a statement made by the secretary of the company to The World yesterday. It was reported recently that an offer would be made for exchange of their holdings for shares of the Cobalt Aladdin, but no such proposition has yet been made.
