

THE HOME GUIDE.

**AN ENCYCLOPEDIA OF ALL THINGS OF EVERY DAY LIFE,
ELEGANTLY ILLUSTRATED.**

Encyclopedias are works of Great Labor and Value, often requiring an Author's life time to write and complete. The large outlay necessary to produce such works place them beyond the reach of many.

The aim of "THE HOME GUIDE" is to give the very best of all that is to be found in expensive and cumbersome works, in a condensed, compact, cheap and convenient form, dispensing with all unnecessary words which mystify and confuse, sifting the wheat from the chaff of all standard authorities, besides adding much practical and valuable information never before published. After many years of toil, and expenditure of many hundreds of dollars, writing, collecting, gleaning, condensing, and preparing the work for publication, we take pleasure in presenting this Original and Unique Book, feeling we have accomplished a great task in supplying a want long felt,—one that will be appreciated by the public—a book long sought, but never before attainable. A complete guide to every department of the household. The best experience of the past condensed for the practical use of the present. A book every family should have, and having, will not be without. The best ideas of the most advanced economists of the age are compiled for common use in this book. **DOMESTIC ECONOMY IN A NUTSHELL.** It contains Thousands of Important Facts, Valuable Hints and Useful Suggestions. It tells

How to Secure a Home.

How to Build a Home.

How to Furnish a Home.

How to Decorate a Home.
