

"Belcher's Farmer's Almanack for 1853, judging from the handsome specimen sent us, is a great improvement in the usual appearance of our Nova Scotia Annuals—it is very neatly bound, and interleaved with blanks, and contains everything necessary as a directory and book of reference. Its frontispiece, the view of the 'General's Bridge at Annapolis, is a pretty scene, and well executed; adding much to the appearance of the Almanac, which has long been a favourite with the public, and will no doubt continue to receive an extensive support."—*British Colonist*.

"Belcher's Farmer's Almanack for 1853 has just made its appearance. It has been got up with more than usual care, and contains all the useful information generally looked for in such a Manual.—The size is convenient and both as regards the quantity and quality of the matter selected it is fully equal if not superior to any former number issued. We cheerfully recommend it to the patronage of our readers and friends."—*Christian Mes.*

"Belcher's Farmer's Almanack for 1853, with a beautiful engraved view of 'The General's Bridge, Annapolis,' has been laid on our table by the publisher. From a hasty glance, we may say that this fully comes up to any of the former numbers, both for neatness of execution, and the accuracy of its contents."—*Presbyterian Witness*.

"Belcher's Farmer's Almanack for 1853, has this week been laid on our table. It keeps its place among this class of useful and necessary Serials, and contains the usual information sought for in Almanacks.—It may also be had bound, with a beautiful engraving of the 'General's Bridge near Annapolis.'—*The Wesleyan*.

"Belcher's Interleaved Almanack, bound, with an engraving of the 'General's Bridge,' near Annapolis, has been laid on our table. Externally, it is fit for the drawing room table; internally, it will be found worthy of the confidence of all who consult such Serials."—*The Wesleyan*. (Second notice.)

Belcher's Farmer's Almanack, Halifax, N. S.—Our thanks are due to the Publisher for two copies of this time-honored manual, one of them done up in the usual style—the other is bound up with blank leaves, (similar to the Boston Almanack,) and contains a fine engraving of the Bay of Annapolis, N. S. After 25 years experience, the Publisher knows just what is wanted in an Almanack, and the result of his labors is a comprehensive and reliable hand-book of reference.—*Boston International Journal*, January 1st, 1853.
