But with the use of reliable preparations and appliances the difficulties disappear. And advisable for the keeping of floors in perfect condition—whether finished in varnish, shellac, oil or wax—are Johnson's Kleen Floor and Johnson's Prepared Wax, an application of the former for the removal of stains, discolorations, water marks, etc., and of the latter for the producing of a lasting and lustrous polish, that dries quickly and will not scratch.

For Bathtub and Woodwork Mikado Washing Powder and Jelliso Soap

Incessant and insistent is the care that keeps the bathroom up to the necessary mark of shine and cleanliness, and various are the soaps and powders employed in the process. Foremost of recommendation for the enamel of the bath and the marble of the basin is Mikado Dry Soap Washing Powder, a famous old world preparation put up specially for the Store in Marseilles, France, and containing as its chief ingredient French castile soap. It is priced, according to quantity, at 5c per package, three for 25c, and 15c each.

For marble of any kind, or for the tiles of the fireplace, "Mikado" is also highly recommendable. For the woodwork of the bathroom, or of any other room, is suggested "Jelliso," a capital soap for the cleaning of varnish, enamel or paint. It is priced at, per tin, .15, .20 and .50. Balmoral Soft Soap at 10c per cake is also admirable for the same purpose.—Drug Section.

For Windows and Steps "Shinon" and EATON'S Duchess Soap

The once overwhelming task of cleaning windows—the manipulation of half a dozen cloths, more or less, for the washing, the drying and the shining of the panes, to say nothing of the balancing of the dish pan of water—this has now dwindled down to mere infants' play in comparison. By the simple application of a paste made by the dissolving of a little "Shinon," followed by a brisk rub with a dry cloth, the whole undertaking is effected. "Shinon" Window Cleaner will be found in the Drug Section at 15c a bag.

For the scrubbing of steps, of cupboard shelves, of wood of any kind, universal satisfaction accrues from the use of EATON'S Duchess Soap, at 10c large bar.—Drug Section.

For the scouring of any kitchen utensils that may be made of metal, china, marble, wood or glass, emphasis is confidently laid upon "Boehm's" Saponis, at 5c a cake or three large cakes for 25c—an excellent cleanser. Taylor's Quick Cleaner—5 tins for 25c. For general house cleaning and for tinware, copper, brass, is also recommendable.—Drug Section.

Seven to Three

The Bloor-street viaduct has some friends. Seven out of ten men, representing wealth of more than a million and a half, said yesterday that they would support the Bloor-street viaduct bylaw.

"What about the other three?" asked The World. "Oh, well, they read The Star and Globe, and because those papers are opposed to the viaduct they will pass over both the Bloor-street viaduct and good roads bylaws, which are certainly closely allied."

That proves that the interests represented by both are identical. They mean a greater Toronto. Because The Globe and Star say so, will the city stand still?

FROZEN TO DEATH

Fell From Train and Died Shortly After Being Picked Up.

LORETT, Man. Dec. 30.—(Special).—A man identified as Richard Bradshaw fell from a C. N. R. express near here yesterday, and, being injured, and, it is suspected, under the influence of liquor, was so badly frozen that he died half an hour after being picked up by a section gang this morning. He had over \$50 in his pockets, and was identified by an employment agent's contract for employment with the Northern Construction Co. at Beauport, Ont., Rainy River District, whither he was evidently going.

BLUE RIBBONERS ALERT

Corrupt Election Methods Must Go, Says Rev. B. H. Spence.

Rev. Ben H. Spence, secretary of the Dominion Alliance, states that he is going to follow up the new election laws, forbidding any interference with electors in the coming campaign. "We are going to have a clean campaign," he said, "and the old corrupt methods of the men have got to stop. We will see that the new laws are enforced."

The temperance forces in all the places where local option fits are on making their final efforts before every place are confident of victory.

IF YOU LIVE NORTH OF COLLEGE-STREET THE BLOOR-STREET VIADUCT WILL LET YOU TO THE HEAD OF BROADVIEW WITHOUT LOSING 20 MINUTES. MERELY A RUMOR.

LONDON, Dec. 30.—The Portuguese legation issued an official communication this evening, in which it is asserted that the rumor of a conspiracy in Lisbon against the government was based solely upon the arrest at the Portuguese capital of a man who had spread a similar rumor through Portugal.

HEIR TO \$6000 WILL BE SENT TO AN ASYLUM

Suspicious of Lawyers, Would Not Sign Papers—Starvation and Worry Broke Down Her Mind.

KINGSTON, Dec. 30.—(Special).—Suspicion and mental unfitness stand between an English woman, named Mrs. Henry Radcliffe, and \$6000. The woman, destitute, spent last night with her child at the police station. She was never married, but formerly lived in Kingston with an Englishman, known here as Henry Radcliffe, but whose right name was Folland.

In January, 1908, Radcliffe died in this city, having previously made a will in the woman's favor, leaving her out here for her to inherit \$6000. In April of the same year the woman returned to the old country. About six weeks ago she returned in search of her money.

In the meantime an auxiliary pro-estate of the will had been made in England, and some papers were sent out here for her to sign. When she reached the city she refused, however, to sign the papers, being somewhat suspicious of lawyers and their legal ways. She has since steadily refused to sign them, and, thru starvation and worry, it is said, has been reduced to such an irresponsible mental condition that she could not now legally sign papers. She will probably be committed to an insane asylum.

In addition to the \$6000, about \$500 of insurance money, also willed her by Radcliffe, is coming to the woman, whose right name is said to be Tois.

TO PREVENT FRAUD

Fund to Be Used for Prosecution of Fraudulent Debtors.

WINNIPEG, Dec. 30.—(Special).—The Canadian Credit Men's Association some time ago decided to raise a considerable fund for the exclusive purpose of prosecuting fraudulent debtors. This sum is now realized and it will be devoted only to the suppression of frauds and not to the collection of accounts. Subscribers have found themselves not to enter into any contract or understanding which would limit the right or power of the association to secure conviction in any case which the local committee shall have decided to be a fraudulent failure.

A short time ago Chief Smith received an anonymous letter from Toronto, informing him that Carter was in the vicinity of Moulinette.

UNEASINESS GROWING AMONG BANK CREDITORS

Depositors in Rural Sections Fear Heavy Loss—Manager Travers Remanded.

From surface indications it appears that the wrecked Farmers' Bank will not only make a poor settlement to the creditors, but will also bring hardship to those who, thru the provisions of the Bank Act, suffer by reason of the double liability in respect of their stock holdings.

A meeting recently held in Milton is said to have brought to light the fact that depositors and shareholders alike—men who had shown confidence in the institution and staked their all in its success—would be ruined by the solvent.

Surplus earnings of the rural sections in Ontario were put into the Farmers' Bank, and these people are now in a fearful face to face with a situation that will probably mean a loss of their farms and their homes.

Frontier bankers in Toronto—men who know something about the operation of the Farmers' Bank—are unable to hold out any encouragement to those who hope for a par settlement.

It is unprofessional for them to prognosticate, but if it comes to the dollar is realized, it will be better than some expect.

Manager Travers in Court. W. L. Travers, general manager, appeared before Magistrate Denison yesterday morning on a charge of making false returns to the tax collector. Attorney Corley asked for another remand of a week, and promised that time to be in a position to prosecute the case.

A DOUBLE CURE FOR DOUBLE TROUBLE.

Father Morriscy's No. 26 Cures Catarrh by a Combined Treatment.

The sudden weather variations in our climate result in a great many cases of catarrh—a troublesome disease usually considered hard to cure, and one which often leads to serious pulmonary and intestinal troubles.

A neglected cold in the head weakens the nasal membranes, so that at every future exposure the trouble returns. At length these conditions are fastened onto the system, and the sufferer undergoes the annoyance and danger of chronic catarrh.

Some doctors confine themselves to prescribing external applications, and thus do not reach the seat of the trouble. Others give internal treatment exclusively, and thus do not promptly relieve the affected parts.

Father Morriscy, the skilled physician, rightly regarded catarrh as a double trouble, consisting of unpleasant local effects, and their fundamental causes, the latter having to do with impaired general vitality.

His famous remedy, No. 26, is a combined cure for catarrh. It consists of tablets to be taken three times a day, and an especially compounded salve.

The salve is antiseptic, and quickly heals the inflamed membranes of the nasal passages. The tablets go to the seat of the trouble and restore the system to its usual tone. Together, they cure.

Instead of neglecting a disease that is unpleasant to yourself and to others, and one which often leads to pneumonia and consumption, it is surely the part of wisdom to take timely steps to do away with the effects and at the same time remove the cause. No. 26 does just that.
