Standard Bank
We have a few very desirable offices
in this new Financial Office building
for lease. We will be glad to inspect
these offices with prospective tenants.
For appointment apply to
H. H. WILLIAMS & CO.,
35 King Street East.

ENQUIRY INTO THE FRUIT GROWING INDUSTRY

Investigation Will Secure Reli-
able Data as to Extent of
Land Adapted to Fruit in
Various Provinces and Vari-
eties Found Most Profit-
able.

OTTAWA, July 5.—The minister of
agriculture has authorized a special
enquiry to be made into the fruit
growing industry of Canada under the
direction of J. A. Ruddick, deputy
commissioner. The well-known
fruit grower, W. H. Bunting, of
St. Catharines, Ont., has been en-
gaged to conduct the enquiry. The
enquiry will be conducted in the
various provinces and territories
and will be completed by the end
of the year. It is expected that it
will require three or four months to
complete the enquiry.

The excessive hot weather which
has been prevailing in Eastern On-
tario during the past week is very
injurious to the quality of cheese
shipped from the province. With a
view of preventing such injury, a
committee of dairy and cheese com-
missioners has notified the railway
companies that if the number of
refrigerator cars supplied to shippers,
under the arrangement by which the
department of agriculture pays the
freight charges, should exceed the limit
fixed in the agreement, no objection
will be raised by the department while
the present heat continues.

ATTEMPTED TO RAISE REVOLT

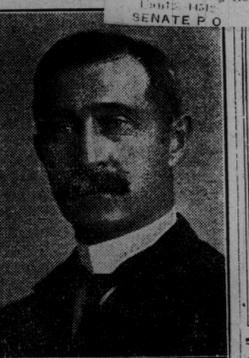

Great Fight Between Seamen
in Barracks at Lisbon and
Populace—City in State
of Panic.

LONDON, July 5.—Despatches re-
ceived by a London news agency to-
day from Lisbon say that a great fight
has taken place between the seamen
and the populace in the barracks
in the city. The seamen, incited by
monarchist agitators, attempted to
raise an armed revolt. Revolvers and
knives were used with deadly effect.
The government called out avail-
able troops, both cavalry and infantry,
and after severe fighting managed to
quell the revolt and restore order.
The city is in a state of panic, ac-
cording to these despatches, and elab-
orate precautions are being taken by
the authorities to suppress any fur-
ther revolutionary movement. The gov-
ernment is informed that the leader
of the monarchists has recently received
funds in the shape of a remittance of
\$40,000 from Brazil.

A strict censorship has been estab-
lished at Lisbon, and no messages are
allowed to pass except those which are
approved by the government. The re-
spondent sent the foregoing to Ba-
lagoa, Spain, to avoid the censorship.

LINEMAN ELECTROCUTED.
ST. MARY'S, Ont., July 5.—Andrew
Lee, an employe of the W. L. and H.
Commission, while up a pole on
the street, just before the electrical
arm started in the afternoon, grab-
bed a live wire, which seized around
his head, and he fell to the ground
dead.

Maxville Burning
OTTAWA, July 5.—The
Grand Trunk Railway Mont-
real train has been held up
all night at Maxville, where
the town and station is re-
portedly burned. Telegraph
linemen have gone to assist
in getting news. Ottawa has
sent fire engines, ladders,
men and 2000 feet of hose by
special train by request of
Maxville, and should arrive
there after midnight. The
town was reported to be
burning.

JAMES BAIRD.
James Baird, county crown attorney,
who passed away yesterday, was re-
spected by all, beloved by those within
familiar touch.
He was probably the most devoted
conservative in York and Toronto, and
never gave offence to opponents.
He was friendly to all his friends and
his many clients were friends. He had
been raised in the Township of
Scarboro, and when he came to be a
lawyer he had all the families of the
township for clients. A man who
draws all his neighbors in this way
must have some marked winning
quality.

THE OUTLOOK STILL BIG.
From a local Ontario point of
view the heat wave has been hard on
crops. Hay is short, the stalks thin and
far apart. Oats and barley in places
have failed. Fall wheat has been shriv-
eled here and there. Market gardeners
and small fruit farmers have had poor
results. The rain that has been
already fallen may revive and freshen
up some of the things; others are past
redemption or the season is over. But
even then we imagine Ontario will
have a fair crop. She never has
less than a fair crop. We will have a
better line on the Ontario crop situa-
tion a week hence.

But from the west the news is most
assuring. There is every prospect of a
two hundred million bushel yield of
wheat alone.

All the great staples in the United
States promise a big crop this year.
Things today look big crops in
America, and a big year in business—
especially in Canada.

TORONTO LIVE STOCK CENTRE.

The Toronto stock yards are now
the centre of the live stock and dead
meat trade of Canada. The Chicago
houses buy regularly on the Toronto
market. So do Winnipeg firms. Tor-
onto ships dead meat all over Onta-
rio and to all the provinces to the east.
We handle most of the export cattle
for Great Britain. The business has
developed to such an extent that in-
stead of four market days a week
there will henceforth be a market
every day, and big business each day.
That the Stiffs have now come to Tor-
onto in a large way is the latest evi-
dence of this expansion.

THE RAIN AN UPLIFT.

The rain of yesterday was more than
grateful to the parched earth and swee-
tering mortals.
The phenomenal hot spell had about
fried up business and factory produc-
tion.

The rain will prove a big uplift to
everything.

SHOULD EXTEND TERAULAY-ST.

That the congestion of traffic on
Yonge-street creates grave danger,
which the extension of Teraulay-street
thru to Davenport-road is needed to
relieve, is the opinion of Dr. J. M.
Johnston, 35 Elm-street.
The fact was impressed upon his
mind yesterday afternoon by two ac-
cidents.
Thomas Graham, 50 years, 508 Par-
liament-street, was struck by college
car 132 at Gould and Yonge-streets
at 3.50 yesterday afternoon. His head
was cut and after being treated by
Dr. Johnston, he was removed to St.
Michael's Hospital in the police am-
bulance.
Just half an hour previously in the
same vicinity a boy was struck by a
vehicle, but was able to go home.

BELSHAW WASN'T STARVED.

Evidence given by Coroner A. J.
Johnson yesterday at the opening of
the inquest on William Belshaw, the
painter, who was killed by a fall from
a building in the exhibition grounds
on June 24, set at rest the report that
the man had fasted from starvation.
Dr. Johnston stated that the intru-
sion of a meal to have been eaten
within four hours of his death.
Adjournment was made until July 2
at 2.30 p.m.

SEVERAL PROSTRATIONS IN GALT.

GALT, Ont., July 5.—To-day was
the hottest day in the history of Galt.
The mercury this morning at eight o'clock
registered 92 and at twelve o'clock was
a little higher. Several prostrations
have occurred. The majority of the
moulding shops are again closed.
Street sprinkling was ceased to-day.
At the market this morning there were
only a few farmers and they reported
that the crops of vegetables and the
crops were drying up.

DOCKERS AGAIN ON STRIKE.

GLASGOW, July 5.—The dockers
have again gone on strike, and the
shipowners declare that the men can-
not be depended upon to adhere to
the agreements made by their leaders.
The owners threaten to lay up the
ships unless matters improve.

Didn't See Census Man

MONTREAL, July 5.—That the Parish of St. Alphonse d'Youville did not see a census man during the recent enumeration is the statement of prominent citizens residing there, who also declare that this statement applies to Villiers, which is bounded by St. Hubert and St. Leung Park, up to the Canadian Pacific Railway line. The total area affected comprises 135 families, 110 of whom are French-Canadian and Catholics, and the population is estimated at 350.
Father Simard of the Redemptorist Order, parish priest, said to a reporter this morning:
"It is true that we have not seen a census man, and I fall to explain this discrimination, the result of which will be that the increase in our French-Canadian citizenship will be shown. I am led to think that these tactics are intended to force us to reduce what some people call our pretensions and what we call our rights."
Albert Gingras was the enumerator for Maisonneuve, and W. F. Gingras for Jacques Cartier, but both assert that the Parish of St. Alphonse d'Youville was not on their lists.

GERMANY SEEKING USEFUL SETTLEMENT

Say German Newspapers Regarding the Sending of a Warship to Morocco.
BERLIN, July 5.—The final object of the step taken by Germany in sending a warship to Agadir, Morocco, according to The Cologne Gazette, is an honorable and useful settlement of the Moroccan question.
This is the note struck by other responsible organs which are now most anxious to discredit any idea of territorial acquisition. They say that Germany has been trying in vain to come to an understanding regarding Morocco, but the French government has evaded the issue since the advent of the now retired Premier Monis and the launching of the French expedition to Fez, and that a demonstration was necessary to make the Frenchmen talk business. Baron von Kidderley-Wechter, the German secretary of state for foreign affairs, has returned to Berlin, which indicates that an answer from France is soon expected.
In conclusion The Cologne Gazette makes reference to Theophile Delcasse, whose resignation as French minister of foreign affairs in the Rouvier cabinet was due to the delicate Moroccan situation in 1905 and against whose supposed influence in the present controversy certain German newspapers are conducting a campaign. The Gazette says that at the closing days of Delcasse's occupancy of the foreign office were hostile to Germany. "We have no reasons for regret if a person with a real personality like that of M. Delcasse should become French minister of foreign affairs."

CHATHAM SWELTERS AT TEMPERATURE OF 100

CHATHAM, Ont., July 5.—(Special.)—The temperature in Chatham today has been hovering around the hundred mark, with no sign of abatement. Old residents of the city cannot remember an ytime during the past 70 years when the heat was so intense. Several serious prostrations are reported to-day. Andrew Harding, a driver for Gerant, the ice man, keeled over on his ice wagon as a result of a stroke. He is in a very serious condition. A workman on the roof of Park's drug store was overcome by the heat and his steel chisel became so hot that he could not hold it. The man in a put and a woman aboard the 123 degree. Automobile tires and bicycle tires are softening at a rapid rate, and several autoists have been unable to run their machines to-day, as their tires would not hold the air.

TWO MORE SUCCUMB TO HEAT IN TORONTO

John Chisholm, Retired Farmer, and William Patterson, Passed Away Suddenly.

One death in Toronto yesterday was directly attributed to the heat, while in another instance the sultriness hastened the end.
John Chisholm, aged 70, of 135 Ryerdale-avenue, was seized with faintness yesterday morning about 8 o'clock after he had breakfasted. He lay down on a couch and expired almost immediately. Mr. Chisholm was a retired farmer, having come from near Agincourt to make his home in Riverdale not long ago.

The heat hastened the death of William Patterson, printer, 61 years old, who had been ill at the residence of his sister, Mrs. George Owen, since a few days previous to start of the hot spell. It was thought that he would recover, but the heat told on him, and he passed away suddenly at a late hour Tuesday night.

OXFORD GRAFT REPORT

Methodist Book Room Will Pay \$200,000 for Property.
Broadway Tabernacle, at the northeast corner of College-street and Spadina-avenue, will disappear as a place of worship and give way to the Methodist Book Room.
A meeting of the board of trustees was held on Tuesday night, at which the subject was discussed. The offer, which is in the neighborhood of \$200,000, was considered too good to reject. The property has a frontage on Spadina-avenue of 116 feet and a depth of 116 feet. The total assessed value is \$85,400.
A new church will be built out of the proceeds of the sale, but as yet no plan will be required for some time no move has been made to find a suitable district.

PROHIBIT IMPORTS

English Swine and Cattle Have Foot and Mouth Disease.
OTTAWA, July 5.—(Special.)—Following the receipt of a cable to-day from the high commissioner in London, announcing that the deadly foot and mouth disease had broken out at Hounslow, Middlesex, England, affecting swine and cattle, an order in council has been passed prohibiting imports and cancelling import permits for sheep, cattle and swine, except such as are already embarked for Canada. Steamship companies have been notified of the order, which holds good till the disease is eradicated. Horses are not affected.

Boy Stole Whiskey

William Hopkins, 1433 Dufferin-st., is sixteen years of age. William was caught by Detective Young yesterday while extracting a case of whiskey from the warehouse of the Canadian Inland Navigation Company at the foot of Bay-street.

MACK WAS LAYING IT ON A BIT TOO THICK

103 Degrees in the Shade Didn't Daunt His Desire for Double-Decker Nether Decoration—Haled Panting Before Bewildered Magistrate.

CHATHAM, Ont., July 5.—(Special.)—James Macdonald was down and out. He was not quite out of trousers, but those which covered, but could not be said to be either adorn or decorate his person, were the last legs, like their owner. James therefore annexed the nether garments of Fred Runnells, which contained several coins of the realm.
The alarm was given and the local pussu-foots opened up a gumshoe hunt for the missing legs and contents. It was a hot day. Thermometers with long standing reputations for veracity spoke of 103 degrees, and one of the wily sleuths, spied Macdonald, who seemed to be powerful hot up. He seized him some more and threw in a couple of piercing glances, and then the apertures which time and a hard lay had made in Mack's trousers, he caught a fleeting glimpse of the mis-

HAD FIGHT TO RESCUE SCOWS

Sudden Storm on Lake Caught Workers on Intake Pipe Unprepared—Tugs Brought Back Scows and Yawl.

The sudden gust of wind which sprang up early yesterday afternoon lashed the waters of the lake into roughness in incredibly short space of time and furnished the workers on repairing the intake with what Engineer Randall admits was more than a mere dash of healthy excitement. Who were under water when the elements cut loose, were in considerable peril.
The large and small derrick scows were working at the time. The latter was anchored at the bell buoy, pumping sand from the top of the buoy. Margerson had just descended when the storm broke. He was quickly hauled up before the scow could break away from anchor.
The large scow was anchored alongside the north end of the south break in the pipe, putting up a slight pole for surveyors. Margerson was down in the water, and when the storm started and he tried to ascend the ladder it broke and it took the best exertions of five men to draw him aboard.
The two scows swung adrift, and Capt. Goodwin's tug was commissioned to round them up, and did so, having a mile out from the eastern end.
Just before the trouble began, one of the men started out in a yawl and started to beat it out into the lake. Another man started after him in a put and a woman aboard. The two were rescued about half a mile out by D. C. Fellows in charge of a life launch.
During the squall the police patrol boat, in charge of Policeman Chisholm, came upon a 20-foot sailing boat, in trouble half a mile off the foot. There was a man and woman aboard, and neither seemed to know much about the handling of the boat. They were towed to safety at the York-street slip from the scows for their expense. They refused to give their names.

KILLED BY LIGHTNING

Storm Disastrous in the Vicinity of St. Mary's.

ST. MARY'S, July 5.—The electrical and lightning storm which passed over St. Mary's and district shortly after four o'clock to-day was the most disastrous in local history. A young man named Holyday, for nine years alternate man for Adam-Smith, on the Mitchell road, was struck by a bolt of lightning, and died instantly.
Large barns on the farms of W. Moffit and Donald McElroy, in Blanshard, were struck and totally destroyed. A new barn on Chas. Barnett's farm was blown off the foundations and totally wrecked. The fire hall was struck and badly damaged. There was a heavy fall of rain, and trees were uprooted and poles and fences blown down.

MACKENZIE AND MANN

Made Favorable Arrangements for Large Loans for C. N. R.

MONTREAL, July 5.—(Special.)—It is understood that the Canadian Northern Railway magnates during their recent visit in London secured very large sums of money on account of the federal guarantee on the bond issue, covering the section from Montreal to Port Arthur. Sir William Mackenzie reached here to-day from London and was met by Sir Donald. Neither would say anything about the alleged financial success in London, except to say that the issue had not yet been placed.
A semi-official report says, however, that Mackenzie and Mann made the most favorable arrangements possible with their bankers in London for all the money that will require, awaiting the proper time to sell the Lake Superior bonds. Sir Donald announced, however, that the tenders for the Lake Superior section are now in and that the work being divided into three sections will be completed by October, 1913.

BANKING ON SIR FRED.

Appointment of Minister of Militia to London Declared Certain.

OTTAWA, July 5.—That Sir Frederick Borden will be Canada's new high commissioner in London is declared here to be a settled thing.
"I am banking on Sir Frederick getting it," said a prominent Liberal member to-day.
The appointment of the minister of militia to succeed Lord Strathcona will mean that E. M. MacDonald of Fleet-street will be promoted to portfolio. Other cabinet changes may be made in the same shuffle. Sir Frederick Borden's departure from office has not been the subject of any official report, but it is thought by many to be a suitable man for the high commissionership. He is well liked in England.

POWDER WORKS EXPLODED.

HOLLIDAYSBURG, Pa., July 5.—Intense heat, it is believed, produced an explosion at the Standard Powder Works at H. roll Station, on the Pennsylvania branch of the Penn. R.R. to-day, resulting in the death of four employes and the complete destruction of the works.

Wrestling Final.

LONDON, July 5.—(C. A. P.)—In the final of the section wrestling championship, Bacon of United Empire won from Walker.

YAWL CROSSING ATLANTIC.

HORTA, Azores, July 5.—The 20-foot auxiliary yawl Scabird, in which Capt. Thomas F. Day of New York and T. R. Goodwin and E. E. Thurber of Providence, R. I., will attempt to cross the Atlantic, sailed for Gibraltar at daybreak to-day. The captain expects to make the passage in eight days. He and his companions reported all well as they set sail. The Scabird sailed from Providence on June 19 and arrived here July 1.

SLEW HER CHILD THEN SUICIDED

Both Bodies Found Near Beamsville Reservoir—Desperate Deed of Hired Girl of Twenty Years.

BEAMSVILLE, July 5.—(Special.)—With the finding of the body of the three-year-old infant of Edna Comfort in the village reservoir to-day, murder was disclosed and by 10 o'clock to-night it was known that the crime had been explained by the mother, when her body was also found in the same place.
The woman was a hired girl of 20 years, who worked about with different farmers in the locality. On Monday she was employed picking berries on the farm of E. W. Tinnin, close to the reservoir. She had her child with her at this time, and after having her supper, took it to return to her home with her mother and brother. She never arrived there, but as she often stayed at the houses of those by whom she was employed, no great alarm was felt.
The body was discovered by Isaiah Purford, a farmer, who saw it floating in the reservoir. When it became known that the Comfort woman's child had been found in the water, news was quickly spread, and a party set to work to drag her body.
Coroner Alexander of Grimby opened an inquest in the town hall to-night, which was adjourned until Tuesday next, after the child's remains had been identified by the grandmother, who appeared unwept under the trying ordeal. He will open an inquest into the death of the mother to-morrow morning, when post-mortems will be performed on both bodies, which now lie in the morgue of Undertaker J. W. Buck.

BLOWN 50 FEET THRU THE AIR WITH BOAT

Storm Does \$3000. Damage at Long Branch—Two Children Blown 75 Feet.

LONG BRANCH, July 5.—(Special.)—Trees were uprooted, a pavilion demolished, the wharf badly damaged in to-day's storm, which damaged property to the extent of \$3000 in all. The electric light wires were dismantled but were temporarily repaired to-night.
So strong was the wind when the storm struck at two o'clock this afternoon that Harry Macdonald, a boat house keeper on the lake shore, who was putting away a rowboat, was carried 50 feet with it thru the air. Fortunately he struck in a pile of brush and beyond a few scratches was unhurt.
Two little children attending the Salvation Army picnic were under a wooden canopy with slate roof at the shore end of the dock. The girl was blown 75 feet along the shore, bringing up against a dinsky. She was only slightly hurt. The boy was buried under the roof of the canopy, which was completely wrecked, but crawled out of the debris uninjured.

BADLY BURNED IN EXPLOSION.

Frederick Stanger, a medical student, 24 years of age, living at 95 Bath-street, was severely injured in a drug store by an explosion of drugs yesterday afternoon. He was terribly scorched about the neck. He was removed to the Western Hospital, where his condition is regarded as critical.

CITY COUNCIL PROGRAM.

Some important items will find a place on the order paper for to-day's session of city council, which is likely to be a protracted one. The aldermen will have to consider:
Judge Winchester's report and the reorganization of the works department;
The Humber boulevard scheme;
By-laws relating to handling of food and milk;
The question of commencing immediate construction work on the civic car lines;
The vexed King and Yonge expropriation scheme.

SIR WILLIAM HOME TO DAY

Sir William Mackenzie will arrive in Toronto this morning, on his return from the coronation.

LOOK FOR THE TWELFTH.

The "Glorious Twelfth" will be seen in a few days. It's a great occasion for the display of silk hats. The Dimsen Company, the oldest hatters in Toronto, have imported a line of splendid English silks, which were manufactured especially for the day. These silk hats are priced from four dollars upwards with Heath hats as a specialty. Heath makes hats for His Majesty the King, and Dimsen is his sole Canadian agent.

SMALL DEFICIT FOR SLOCUM CO.

Assets, Reckoned at Nearly \$300,000, Include \$100,000 for Goodwill, and \$113,000 for Advertising.

With a nominal deficit of \$1,868.77 the creditors of the T. A. Slocum Chemical Company, which went into liquidation shortly after the "Love inquiry," voted the Trusts and Guarantee Company permanent liquidator at a meeting held in Referee Kappel's office yesterday. About twenty-five persons attended representing various interests. The action of the Interim liquidator in keeping the concern going and preventing depletion of the assets was confirmed. There was some discussion over the management of the company. It was decided to offer the assets for sale by tender, meanwhile the business will be kept alive by the liquidator. L. S. Levee, former president, is being employed by the liquidator in connection with laboratory work at \$50 per week. The company does a large agency business, and those who have investigated the accounts express the opinion that a profit can be shown for this source in any event.
A board of inspectors was appointed yesterday to confer with the liquidator, the names of whom are: James Watt, Northrup Lyman & Co.; Douglas Murray, Murray Printing Company; and H. M. Ludwig, K.C.
The statement is as follows:

ASSETS.

Unpaid stock subscriptions	\$500.00
Bills receivable	839.00
Accounts receivable	55.00
Machinery	4610.00
Office furniture	3854.00
Office supplies	230.00
Printing plant	85.00
Real estate	32,121.00
Accounts payable	20,730.00
Inventory, June 6, 1911	\$15,433.97
Good-will	100,000.00
Advertising, '08, '09, '10, '11	112,868.00
Nominal deficit	\$218,268.01
	1558.77
	\$20,000.00

LIABILITIES.

To the Public	\$15,325.00
Stockholders	35,583.00
Stocks	468.00
Wages unpaid	400.00
Real estate	32,121.00
Charges	3564.54
	77,488.73
To the Shareholders	\$30,186.77
Preferred stock	\$12,700.00
Common stock	\$17,486.77
	\$30,186.77

Real Deficit Undetermined.

No comment was made at the meeting on the figures contained in the financial statement, nor can it be said what the actual deficiency will amount to until at least of sale if any, is determined and all the claims are in. It has been fixed as the last date for the filing of claims, and it is expected that the figures will be a considerable sum. Then there is the question of realizing upon the balance of the subscribed stock. In addition, the item of \$100,000 appears in the statement for good-will. This is an arbitrary figure, and it is a moot point whether the purchaser of the assets will consider the good-will worth this sum. Associated with good-will is the item of \$112,868 for advertising extending over a period of years. This money has been spent, and the promoters are at liberty to claim that the entire amount spent can be reckoned as an asset in addition to good-will.

FELL 30 FEET, BABY UNHURT

Harold Leslie Preston, the 9 months old son of Mr. and Mrs. Harold Preston, 225 Bain-avenue, fell out of a three-story window, a distance of 30 feet above the ground, on Tuesday afternoon, and the only injury received was a slight abrasion on his left leg and a small bump on his head.
In falling, the little lad struck a clothes line suspended across the garden, and the impact ripped the scantling from the fence, to which the line was attached.
Dr. Chapin of 282 Bain-avenue was called and after a thorough examination declared no bones were broken and there were no internal injuries. Outside of a little shaking up the boy was practically uninjured, which is considered most remarkable.
The mother had placed the child on a bed drawn near to the window for air and had just turned away for a moment, when he evidently drew himself up to the sill and fell over.

LOOK FOR THE TWELFTH.

The "Glorious Twelfth" will be seen in a few days. It's a great occasion for the display of silk hats. The Dimsen Company, the oldest hatters in Toronto, have imported a line of splendid English silks, which were manufactured especially for the day. These silk hats are priced from four dollars upwards with Heath hats as a specialty. Heath makes hats for His Majesty the King, and Dimsen is his sole Canadian agent.
