BOLSHEVIKI FLEE BEFORE PETLURA

Advanced Western Positions at Rovno Are Being Vacated in Disorderly Retreat.

Vienna, May 16.—Ukrainian reports indicate that the Bolsheviki are fleeing from their advanced western positions at Rovno before the army led by Simon Petlura, and are retreating in disorder, due to a lack of transportation, toward Sarny Junction and Korosteny.

It appears that there is a general uprising of Ukrainian peasants against the Bolsheviki, the town of Homel, in the government of Mohilev, falling into their hands. The peasants are led by M. Orlovsky, and are reported to have won other successes northwest of Kiev.

The army led by Zeleny, another Ukrainian peasant chief, numbers about 20,000 and is operating on both sides of the Dnieper river near Kiev.

TURN HAIR DARK WITH SAGE TEA

If Mixed With Sulphur It Darkens So Naturally Nobody Can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked or faded hair is grandmother's recipe and folks are again using it to keep their hair a good even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.

EMIR WAS SHOT ON HUNTING TRIP

Murder of Ruler of Afghanistan in His Tent Remains a Mystery

WAS WELL GUARDED

Remains Were Buried on the Royal Golf Course at Jellalabad.

London, May 16.—Latest reports received here regarding the murder of Habibullah, emir of Afghanistan, on Feb. 20, indicate that the assassin is still at large. The body of the emir was taken to Jellalabad and buried in a grave on the royal golf course, but it is assumed that the remains will be exhumed and reinterred in one of the palaces at Kabul.

Meanwhile there have been rival claimants to the succession. The new emir is manullah Khan, third son of Habibullah, the dead monarch. He is 26 years old and has never been out of the country, but he is described as having "an active brain and a keen intelligence."

Details of the assassination of Habibullah now to hand confirm the cable reports that he was killed in his sleep while on a hunting expedition.

Habibullah was a lover of sport and was grouse shooting when fate overtook him. He set out by motor from his winter palace at Jellalabad and proceeded a distance of sixty miles. With him were his eldest son and Nazimullah Khan, his brother.

According to a Calcutta newspaper, about two days before his death the emir was seen at Ghalat-ul-Serai, a palace about 25 miles from Jellalabad, by a European engineer engaged in work there. His visit was a surprise and no lunch had been prepared. The European engineer saved the situation by giving his lunch to Habibullah, who ate it all, and presented the cook with \$10. To the engineer he handed a cigarette.

"Good-bye," he said, as he departed. "I shall see you again in three days on my way back." When the motor car returned two days later it contained the dead body of the emir. His majesty had proceeded about 27 miles beyond Ghalat-ul-Serai and camped at a little place known as Kollagosh. He slept in a large tent well guarded by soldiers. Four or five boys also in the tent, took turns in watching. About 3 o'clock in the morning a pistol shot was heard and when the emir's brother and eldest son rushed into the tent they found Habibullah lying dead in his bed, shot thru the head.

FEDERAL ADVERTISING SUBJECT OF INQUIRY

Ottawa, May 16.—Government advertising in newspapers was the subject of an enquiry before the public accounts committee this morning. A. J. Laverdure, the official in charge of advertising for the government, told the committee that there are no fixed prices for advertising in newspapers. He said that he had received a letter from J. H. Sinclair, a witness asserted that no newspaper patronage list exists at the present time. When a work is being advertised, he said, he is supplied with a list of the publications in which it is to be inserted. Mr. Sinclair, then the patronage is exercised by the departments and not by you.

One Dead, One Dying, as Result Of Maritime Shooting Escapade

Moncton, N.B., May 16.—One dead, another dying and a third wounded is the shocking result of a shooting escapade perpetrated by a group of men named Robert Childs at Rexton, Kent County yesterday. The victims of the tragedy are Mrs. John Childs, niece of the murderer, Louis Hebert, a neighbor and Harold Childs, son of John Childs. Mrs. Childs died last night of her wounds and Hebert is not expected to live.

The murderer, after committing the foul act, escaped into the nearby woods and is still at large. The sheriff and a posse are in pursuit of him.

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, a furred tongue, nasty breath or stomach becomes rancid, it's your liver. Salivary skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. It is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.

STOPPED SEAFORD RIOTS WITH HOCKEY STICKS

Col. Meurling, Returned Officer, Declares Trouble Makers Were Principally Drafts

Montreal, May 16.—A description of the rioting that was threatened at Seaford Camp in England by a section of the Canadian troops quartered there was given by Lieut.-Col. Meurling, D.S.O., Croix de Guerre, Nelson, B.C., who returned to Canada this morning on the section with the Second Canadian Motor Machine Gun Brigade, the troops called upon to check the disorderly element, and who did so with hockey sticks and cricket bats.

Col. Meurling said that the trouble-makers were principally drafts of conscripts who had seen no fighting at the front. They wanted to be sent home before the fighting and appointed a soldiers' council to submit their demands to the officers. There were a number of these councils in the camps in England.

THREE MEN TO DIE AT PRINCE ALBERT

Dramatic Scene When Judge Breaks Down While Uttering Final Words of the Sentence.

Prince Albert, Sask., May 16.—Joseph Gervais, Victor Cornelia and Jean Baptiste St. Germain were last evening sentenced to be hanged on Sept. 17 for the murder of James McKay at Steep Creek on November 15 last.

The concluding scenes in the trial were probably the most dramatic that have been witnessed in a court in Canada.

Before he could conclude the final words of the sentence invoking the mercy of the Almighty on the souls of the condemned men, Chief Justice Brown broke down completely and rising abruptly from the bench announced the adjournment of the court.

The painful character of the concluding scene was enhanced by the fact that the interpreter selected to convey the sentence to the prisoners in French was unable to interpret a considerable part of the address which his lordship made and which condemned in the strongest terms the cold blooded and brutal crime of which they had been found guilty.

Special 5 MAPS Feature

SHOWING AT A GLANCE THE GREAT CHANGES MADE THROUGHOUT THE WORLD BY THE PEACE TERMS

One map presents the new Europe, giving not only the frontiers laid down in the peace terms, but also showing by dotted lines the probable or possible boundary lines to be determined upon, thus affording an approximate idea of the future European frontiers.

Another map contrasts in a striking way the great Germany of 1914, with its shrunken self of today, telling more plainly than words of the downfall of the arrogant Empire of the Hohenzollerns.

A third map shows the disposition of the German colonies in Africa; a fourth map the distribution of the German Islands in the Pacific.

The fifth map shows the Chinese city of Kiaochau, which is awarded to Japan, and its geographical relations to Peking, Korea, and the Japanese archipelago.

These five maps, which are included in THE LITERARY DIGEST for May 17, will make clear to the reader in five minutes what the war has accomplished in five years.

Other striking features in this week's "Digest" are:

"How to Keep Abreast" the Message of THE DIGEST

The final echoes of the guns of the great war are now dying away into silence, and the peoples are settling down again into the pleasant paths of peace. And, so doing, it behooves us to take to heart the vital lessons this supreme world-tragedy has taught us. Among the most important of these is the necessity of solidarity, of community of aims and ideals, of absolute unanimity. The war has proved over and over again the inherent weakness of the house that is divided against itself. We, in this country, must see to it that one language, one purpose, one high conception of life animates our teeming millions from sea to sea. Only by so doing can we

hope to steer our ship of state safely through the perilous shoals of political unrest, anarchy, Bolshevism, and the like. As a teacher of Americanism, which includes and typifies all that is best in national life and aspiration, THE LITERARY DIGEST stands pre-eminent among the periodicals of the day. It epitomizes all that the fathers of this republic sought to make permanent on our shores. It brings to your home and to your heart the message of an all-embracing humanity, of an abundant charity, of equal fellowship and impartial consideration. Get a copy now, read it through, and pass it along to your family and friends. You will be a better man and a better citizen if you make this a weekly habit.

INVADERS CANTEENS AND DRANK THE BEER

Story of Recent Disturbances in the Canadian Camps in Surrey.

London, May 16.—The Canadian Press is now able to give a clear account of the disturbances which occurred in the Canadian camps in Surrey last week. On Saturday night a party of men at Seaford became incensed at the action of the military police in apprehending a colored soldier. The policemen, it is stated, struck a private which threw the Canadians into an uproar. Two wet canteens were broken into and the beer quickly vanished. There is reason to believe that the instigator of the camp does not defend the action of the military police. The only casualty was a policeman, bruised and shaken but not seriously hurt.

On Wednesday night there was trouble amongst the 21st, commanded by Lt.-Col. Pensa, of Kingston. Two canteens were broken into and the beer disposed of. A good many windows were broken but otherwise the damage was not serious. Last Saturday there was considerable bother in the town of Guildford which was not without a humorous element. A dance was held at a tavern hall and was attended by a good many Canadians and also many ex-imperialists. It is asserted that the ladies of Guildford showed preference for the attentions of the Canadian ex-soldiers. These latter aided by others in civilian clothes from outside the dance party became so threatening that it was feared the town hall might be rushed.

Canadians Insulted
The Canadian soldiers on leaving the building were subjected to a certain amount of insult. Some of them were very naturally not prepared to submit tamely. Some isolated fights occurred in the streets. Last Sunday there was some further trouble in Guildford streets between Canadians and the residents. The Canadian military police persuaded the own men to take train for Witley Camp.

It was admitted that the demobilized imperial soldiers living in the district had joined the organization known as the sailors and soldiers league to the number of some 700 and that these men were active around Canadian camps and among the soldiers who visited the town. There has been no definite disturbance at Ripon in Yorkshire for at least three months, although it cannot be denied that every Canadian is dead tired of being there. The place is fearfully dull, duller even than Witley or Seaford which is saying much. It is understood that sailings of drafts from Ripon will begin early in June.

CHARGE AN ATTEMPT TO CREATE MONOPOLY

New York, May 16.—The Shelton Electric Company of Chicago, manufacturer of electrical apparatus, including photograph motors, brought suit today in the federal district court here for treble damages amounting to \$1,317,337.50, against the Victor Talking Machine Company. The suit is brought under the Sherman anti-trust law and claims that the Victor Company is endeavoring to create a monopoly in electrically driven phonographs.

The specific complaint alleges that the Victor Company compels purchasing dealers to enter into a licensing contract before it will supply them with phonographs. Under this contract, it is charged, no alteration is permitted in a machine and no part can be substituted unless it is made by the Victor Company.
