DOUBTS STRENGTH OF UNIONIST PARTY

London Times Comments on Election Results in Ontario.

London, Nov. 5.—The Times says unionist politics at present are very hard to understand, but it is very evident that both in Canada and Australia the reaction from war conditions is having a marked influence. It sees this in the Hughes and Ryan program in the commonwealth, and the rout of the Hearst government in Ontario by the new farmers' party, and adds:
"It is always dangerous to judge the Dominion by provincial politics. Canada, but certainly the result of the Ontario election suggests doubts about the strength of the Unionist party led by Sir Robert Borden. There is a rumor that the Canadian premier is tired and intends to retire. He is a giant's work during the war and is feeling the effects of the war, but he has a keen sense of public duty and will not consult his individual inclination, if in doing so he should risk the sacrifice of what he believes to be the best interests of his Dominion."

BEGINS A ROUND OF BRITISH HOSPITALITY

London, Nov. 5.—The Chilean economic mission, which arrived in London yesterday, today began a seven-day round of British hospitality which promises to keep it unusually busy. Embassie functions have been arranged in its honor. The members were received by King George this morning and later had luncheon in the Buckingham palace. Juan Enriquez Tocornal, former Chilean minister of finance, and a member of the mission, expressed to the King Chile's gratitude for the visit of the British mission to Chile last year.
Tonight a state banquet was held at Lancaster House. It was presided over by Earl Curzon, the foreign minister.

"DISLOYAL" GIRLS TO LOSE THEIR HAIR

Irish Republic Issues Proclamation Forbidding Walking Out With Soldiers.

Dublin, Nov. 5.—Love-making by the girls of Ireland with members of the British government forces has been proscribed by the Irish republican army. Any girl keeping company with a government soldier or policeman will be penalized by having her hair cut off. One girl has already suffered the full penalty, losing her locks for walking out with a soldier.

LABOR'S BIG GAINS IN BRITISH ELECTIONS

London, Nov. 5.—Final results in the municipal elections show that besides the huge gain in the country, labor-socialists have majorities in 14 out of 28 London borough councils.
Municipal reformers, who correspond roughly to the Conservatives, have a majority in 12 boroughs. The Progressives, otherwise Liberals, have practically disappeared.
The Daily Telegraph recalls former Premier Asquith's recent remark: "The Liberal party has housed the Labor party. I hope it will do so again."
Here is a dramatic answer, exclaims the Telegraph. The English middle-class disdain of municipal affairs has been dearly paid for, and the price will rise when labor proceeds to execute its schemes for municipalizing common necessities.
Other commentators representing both parties merely remark that labor now has a chance of showing what it can do in a position of responsibility.

Paris, Nov. 5.—The first meeting of the council of the league of nations will be held in Paris, the supreme council decided today. It did not, however, fix a date for the gathering.

BRITAIN IMPROVES CONSULAR SERVICE

European Manager for Grand Trunk Returns From Tour of Continent.

London, Nov. 5.—Fred Salter, European manager for the Grand Trunk Railway, has returned from a business tour of France, Belgium and Holland. He is considerably impressed with the British and American business activity, and speaks with especial respect to the improvement in the British consular service.
"I previously went to American consuls," said Mr. Salter, "but this time they told me I should meet all assistance I could wish from the British consuls, and I found it was so."
The present uncertainty of continental trade, Mr. Salter says, is because Germany and Austria are in the position of bankrupts, who do not know how their creditors are going to treat them. Germany cannot trade unless she gets foreign money, or barter, and Great Britain and the United States are undertaking this barter system to a certain extent.
Canada is well represented in Antwerp by Mr. P. Gollard, Mr. Salter says, who is the official government representative, adding that if Canada wants continental trade it is simply up to her to get on the ground in the same manner as the British and Americans are doing.
"Don't let her traders rely on the government doing all the work; let them do it themselves," said Mr. Salter.

Maimed Belgian War Hero Walks Montreal to Kingston

Kingston, Ont., Nov. 5.—A pitiful sight was to be seen the past few days of a young man only 25 years of age with his right leg off at the hip, left arm afflicted, blind of his right eye and face badly scarred, traversing on crutches seeking charity in the inclement weather. The young man claims to have walked from Montreal, states he is a Belgian, served three years in the war, and is endeavoring to collect funds to return to his native land. His case is being inquired into by the authorities.

To Grow Hair On Bald Heads

Specialist Gives Simple Recipe That Works Fine.

Thousands of people suffer from baldness and falling hair who, having tried nearly every advertised hair tonic and hair-grower without results, have resigned themselves to baldness and its attendant discomfort. Yet their case is not hopeless; the following simple home prescription has made hair grow after years of baldness, and is also unequalled for restoring gray hair to its original color, stopping hair from falling out, and destroying the dandruff germ. It will not make the hair greasy, and can be put up by any druggist: Bay Rum, 6 ounces; Lavon de Composee, 2 ounces; Menthol Crystals, one-half drachm. If you wish it perfumed add 1 drachm of your favorite perfume. This preparation is highly recommended by physicians and specialists and is absolutely harmless, as it contains none of the poisonous wood alcohol so frequently found in hair tonics. Ladies using this prescription should be careful not to get it on the face or where hair is not desired.
