They found the psychiatric hospital the chief object of their investigation and the kingpin of the German system, and the kingpin of the German system, but developed at Munich, while psy-), 147 Queen West, qeal-amonds and jewelry, etc. best developed at Munich, while psy-chiatric clinics exist in all German uni-OCKSMITHS. E BRIMSTIN CO., exclu-smiths. 98 Victoria-street versity centres and are doing most valuable work. And the psychiatric hospital is, the only place where the best results can be obtained. UOR DEALERS BRADLEY, wines and 250 West Queen-street ohn, Toronto, Goods de-all parts of the city.

can be obtained.

The immediate practical results were so encouraging that they in themselves would form an unanswerable argument in favor of the establishment of psychistric hospitals in Ontario. However, the questions of prevention, the discovery of the pathological bases of mental disease, and the cure of what are at present regarded as intractable forms are of paramount importance, and only in psychiatric hospitals with aspecially qualified staffs and large laboratories are these studies possible. Take, for example, the investigations going on in Munich at present in regard to general poresis. It is not going too far to say ample, the investigations going on in Munich at present in regard to general paresis. It is not going too far to say that as a result of these the day will come when this dread and now incur-

able disease will be just as amenable to treatment as diphtheria. So with other forms.

10 1905 1594 patients, exclusive of the outdoor department, were admitted to the Munich clinic. In 623, or 39.4 per per cent of these cases, insanity was discontinuous control of these cases, insanity was discontinuous.

the Munich clinic. In 623, or 39.4 per cent., of these cases, insanity was directly attributable to alcoholism, and one-third of them were taken there by the police.

Treatment for Alcohol Users.

Special provision should be made for the prompt admission of alcoholics, as they form a most important class. The take effects of alcohol on the brain are well known, and the cases cannot be properly cared for in the wards of a general hospital, where the elaborate hydro-therapeutic appliances so requisite in the treatment of this class of ste in the treatment of this class of cases are not supplied.

The Munich hospital, a government institution, is closely connected with the university and the hospitals. Giver 2000 patients are treated annually, with 110 beds for the insane.

"Insane people are sick people," and should be nursed in bed. The arrangements for hydro-therapeutic treatment are most elaborate. Special provision is made for the study of criminals, and with should in this province provide a small building for insane criminals. The whole question of the treatment of this class has received much attention in Germany, and their methods are in strik. class has received much attention in Germany, and their methods are in strik-Germany, and their methods are in surking contrast to and superior to ours. Hydro-therapeutics play a most important part in the treatment of many forms of insanity in Germany and forms of insanity in Germany and 343 Yonge-street.
