prove a wonder. He quotes Hon. G. E. Poster, who visited the property last fail, as saying that it would equal the LeRoi as a producer of builion.

There are 4000 tons of ore on the dump and there is enough ore blocked out in the mine to keep the mill going for two years. So far no stoping has been done, all the ore taken out having been raised in the course of development works. The mine is lighted throughout with elecuteity, and Mr. Bentley says that 40 more stamps will be erected in the spring.

The Olive, of which Hon. G. E. Foster is President, has paid for its own development and a couple of dividends beside, with a 2-stamp mill. The new 10-stamp mill on this property will be completed and in operation about the first of next month.

The Emperor, the shaft on which is down 200 feet, is owned and operated by big grain men in Minneapolis, with J. C. Beebe as manager. The Decca and Golden Crown are owned by Montreal people and are both looking up well, as is also the Independence. The Foley is to start up the first of aext month, with English capital and the Cuckoo will be opened up in the spring.

Mr. John L. Grant of Liverpool, on behalf of an English syndicate, has been in Mine Centre for some time and has purchased 3000 acres of mining land, including the Taylor and Comodity dyke. They will start development of their properties when the snow is off the ground.

Mr. Bentley himself has an option on location A. L. 115, adjoining the Golden Star, and among other properties which he controls are locations F. F., 18 and 19, which lie 12 miles east of Mine Centre in the neighborhood of Sturgeon Falls. Specimens from these properties which Mr. Bentley carries in als grip, are rich in visible free gold.

Ymir can now boast of having two full fledged shipping mines in the Porto Rico and Blackcock. The latter mine will ship from eight to ten tons of ore per day. The dirst clean-up of the Porto Rico mill was made recently, and 94 ounces of gold in 20 hours was taken from the plates. This did not include the concentrates. Old and experienced miners claim that the Porto Rico is a rich mine, although the body of ore is not as large as that of the Ymir and Tamarack fits are employed at the Porto Rico is a rich mine, although the body of ore is not as large as that of the Ymir and Tamarack and W. Activity in the Sudbury Region.
The nickel mining industry of Ontario is improving. The Sudbury Region in this Province continues to be the only productive source of nickel in America, and one of the two sources in the world, the other being the French penal colony of New Cafedaria. The chief producer of Ontario nickel is the Canadian Copper Company, whose works are at Copper Ciff, a few miles from Sudbury town. This company has recently increased the number of its smelters from three to fire, and has now facilities for treating about 600 tons of ore per day of 24 hours. It employs about 1000 men directly in the mines and works, and indirectly a large number in cutting and hauffing wood etc. Two new mines have been opened up on the company's property, one of the old mines having gone out of use.

Situation Growing Ugiter.

Johannesburg, Dec. 29.—The situation in the Transvaal, brought about by a collision between the, Boers and Englishmen, is growing ugiler. Both sides are in a mood for violence, and The Rand Post openly discusses war with England, it says: "We advise upon a fixed act of war. Let the women and children on the English side be sent away from the city, and with them those persons evilly disposed to us. Then let Johannesburg be destroyed and the perpetrators of the turbulences here be taken and thrown into the shafts of their own mines. Let Johannesburg be converted into a rubbish heap, as a tombstone to the authors of our troubles."

The Johannesburg Star is more moderate in its expressions, and warns The Post that its violent tone will precipitate a crisis.

Albany, N. Y., Dec. 29.—The State Prison Commission, in its annual report, will pronounce favorably for prison labor. The Assembly Committee will base its report on a personal inspection of the prisons and from the testimony of the prison officials and labor leaders. The committee will say:

"We have asked labor representatives and manufacturers in each place we visited whether they could cite a single instance of a man losing a job, of wages being reduced, or a factory being shut down, or the hours of labor reduced, because of the competition of prison work or of prison-made goods. Not a single instance has been given, but in all cases the reply has been given, but in all ceses the reply has been that no such cases had come to the knowl-edge of the labor men or employers ques-tioned."

ALCOHOL PERCENTAGE

The Bone of Contention in the Re
Enl Beer Case.

Magistrate Ellis will give judgment this afternoon in the case of Neil McLean, charged with selling jubilee beer at Woodbridge Fair. The Crown maintains that the Magistrate should base his decision on one given 13 years ago by Police Magistrate Denison, when he held that blue ribban beer containing 2.50 per cent. of afcohol was intoxicating. This decision was appealed, but Judge McDougall upheld the magistrate's finding. On the other hand Mr. E. E. A. Duvernet, for the defence, contends that Magistrate Ellis should base his opinion on the decision given by Magistrate Denison only last fall, when he ruled that regal beer containing 2.22 of alcohol was not intoxicating. The amount of alcohol in jubilee beer is 2.05. The decision will be awasted with much interest by all parties concerned.

Says Laxa-Liver Pills cured himself and a friend of Constipation and Allied Troubles.

Everybody who has used Laxa-Liver Pills says they are the finest thing in the world of medicine.

Mr. R. H. Orde, of Greystock, Ont., is of this opinion and this is how he expresses himself:

'Some time ago I got a sample packet of Laxa-Liver Pills, and after I had used them with creat satisfaction I sent to

them with great satisfaction I sent to Mr. Madill's drug store, in Peterboro, and bought two bottles, one of which I gave to a frend of mine. He assured me they did him a world of good. His trouble was constipation and fluttering of the heart.

"In my own case the trouble was very furthering and similar, i.e., constipation, fluttering and palpitation of the heart, and pains in my palpitation of the heart, and pains in my legs, like rheumatism, when I lay down at night. I have only taken the pills a short time, but every one of the unpleasant symptoms has disappeared. The pills did their work thoroughly, yet so mildly that a person would not think he was taking medicine at all. I am highly pleased with their effects, and recommend Laxa-Liver Pills to all who
