The boy's legs are yet in bandages.

POLICE COURT STATISTICS

If the years of the prisoners who are apprehended by the police were computed from 20 April to yesterday, inclusive, the total would be 3277 years. In that period there were fifteen arrested who had passed the fifty year post. The senior of the number had lived for 75 years and there were two who were 70 years of age. A peculiar feature is that of the fifteen, seven are aged 55 years.

In the forties the number is fourteen and five of these are 40 years old. In point of membership the twenties lead with an advantage of thirteen over the thirties. In the thirties were twenty, and in the twenties were thirty-three. Six of the thirties bore the age of thirty-five. Eight of the thirty-three who were in the twenties were in their twenty-eighth year.

Under the age of 20 were eight with the youngest at the age of 11, one at 13, one at 15, two at 17, one at 18, and two at 19.

The record of deposits since Christmas shows that seventeen deposits were forfeited by non-appearance on the morning following the arrest, in the police court, and the aggregated total thus contributed by default to the treasury was \$162. Two of the deposits were of \$16 each, due for profanity in addition to intoxication. One individual who deposited \$25 was liberated by the magistrate for \$12, and from another man, who defended himself, information \$20 was collected. One who deposited 20 was not muled.

Miss Agnes Foley, of Duke street, left this morning for Moncton to visit her sister Lillie, of F. D. Craghan & Co.

FIND THE MONEY AND WORK WILL BE DONE**Although Short of Funds the Horticultural Association is Planning for Active Work in the Park and Gardens.**

Though the cutting in half of the usual civic grant of \$4,000 to the Horticultural Association will somewhat curtail their work in the park and garden this year the officers of the association are nevertheless going ahead with their plans for beautifying this great pleasure spot.

Talking with G. S. Fisher, the man who has planned practically all the drive ways paths, lakes, etc., that have made the park such a success from a scenic standpoint, he said their great handicap this year was finances and he hoped the citizens would help them by liberal subscriptions, so that there would be no regression. It would be practically impossible, he said to undertake the building of new roads this year but they would endeavor to keep those now made in good condition.

The chain of small lakes back of Lily Lake will no doubt be very attractive this year as it has been arranged to sow grass and clover seed around the ground in that vicinity and when a green sward has been formed it will greatly improve the appearance of that section.

Roads have been built around and about the lakes and some very pretty drives are thus afforded. Last year a large quantity of white pond lilies were set out in the lakes and when these obtain their growth, probably in another year, they will add to the beauty of the place.

In the public gardens, men are at work setting out plants and forming new flower beds and grass plots on the site of the old conservatory, the new one being situated in the north-western corner. With the rearrangement in the grounds they should be more attractive than ever this year.

"TEDDY" ALLISON IN AN EARTHQUAKE**Well Known St. John Man's Experience in Recent Seismic Disturbance in Saskatchewan.**

St. John men are usually to be found in almost every section of the globe when there is anything doing. A few days ago the Canadian west experienced a distinct earthquake shock when some damage was done, and now it appears that Edmund K. Allison, a well known St. John boy who was in the earthquake district at the time and had quite an experience. Mr. Allison, who was in St. John on a visit a few weeks ago, is senior partner of the real estate and insurance firm of Allison, Fair & Co., with headquarters at Indian Head, Saskatchewan. Writing to a friend in this city, under date of May 17, he says:—

"We don't usually expect earthquakes here on the prairie, but we had our first experience Saturday night. I had just returned from a business trip to Lethbridge, Alta., and as I was tired, turned in early, and the shock came when I was trying to get to sleep. Having experienced several high wind storms out here in the past, I knew at once it could be nothing but a seismic disturbance. My bed shook violently and several books, brushes, etc., were sent crashing to the floor. After the first shock came a second, the two covering, I should judge, about 40 seconds. I am satisfied they did not last longer, as it was, the people here did not have time to get frightened, for it was over before most of them realized what had happened."

Press reports from the west state that the quake was more severe in some other sections and some slight damage was done.

Peacock-Murray

A very pretty event took place at the home of Mrs. A. E. Murray, Amherst, on Wednesday evening, when her daughter, Miss Mildred, was united in wedlock to George S. Peacock, formerly of St. John, but now of Amherst. The bride was becomingly attired in white princess lingerie. Only the immediate friends and relatives of the contracting parties were invited. The bride wore the recent of many beautiful and costly gifts, the groom's present being \$25 in gold.

Rev. Dr. Chapman tied the nuptial knot.

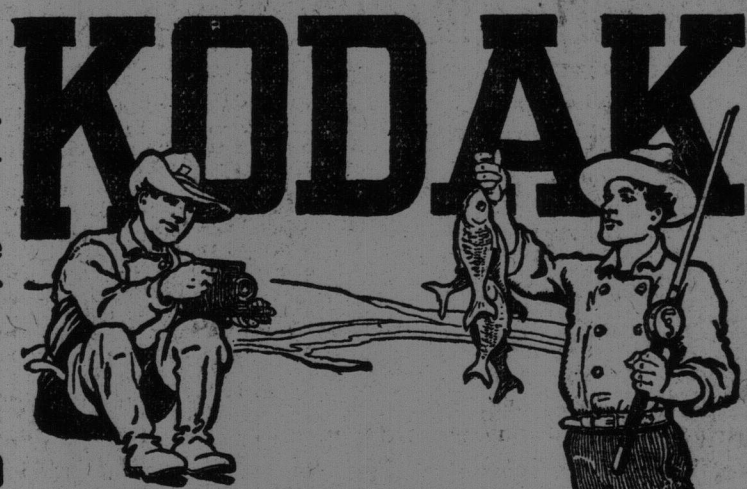

S. McConkey, of St. Stephen has sold his five year old colt, Togo to J. R. Sederquest of the same place. Togo is a dark bay of fine style and gives promise of speed. He is by Oakley Baron out of Lurpie mare and ought to prove a good one.

H. C. Green and C. A. Hewitt will leave on the Calvin Austin tonight for a short visit to Boston and New York.
