HOW TO ECONOMIZE IN COAL

It Seems There is More Than Price to be Considered.

You buy coal solely to make heat. The more burnable matter, and the less waste or ash in a ton of coal, the more value. Ash and stone and clinker not only produce no heat, but cost money to cart away. Most everybody knows this in a general way, but have you ever considered what it means in dollars and cents? Roughly speaking, Anthracite coal at the present time, costs about one cent a pound. There must be some waste in all coal. Anthracite coal with as little as 10 per cent waste, would be an exceedingly high grade article. This 10 per cent represents two hundred pounds to the ton, which on the basis of one cent a pound, is two dollars a ton waste. But how about the coal that has 20 per cent (four hundred pounds) and more of ash and clinker to the ton. Four hundred pounds at present prices, means \$4.00 plus the expense and annoyance of its removal. There are many coals in St. John today containing two and three hundred pounds more ash to the ton than "Radio", and being sold at the same price. When you buy "Radio" hard coal, you buy coal with the least waste, and the most of burnable matter. If you

What is Your Special Preference in a Topcoat?

Every man nowadays wears a topcoat. Every man has a need for one. Some men wear them for dress alone. Some men wear them for comfort on chilly days and evenings. Some men wear them for motor-ing and other men wear Cravenetted Topcoats which safeguard them against both fair and showery days. We have the proper topcoat for whatever your particular service, style or fabric preference. Dress models, novelty styles, conservative styles, gaberdines, chevots, tweeds—\$20 to \$60.
