SECOND CHILD DEAD.
The death of Melva Irene, the five year old daughter of Mr. and Mrs. Joseph Johnson, of 62 Elgin street, occurred at an early hour this morning after a few days illness of Spanish influenza. Besides her parents she leaves three sisters and one brother. This is the second child of the family who has died of this malady within a week. In their bereavement the stricken family have the sympathy of many friends.

MRS. JAMES KELLEY.
Friends will learn with sincere regret of the death of Mrs. John Kelley, who passed away last ten days after the death of her husband, at Minto, of Spanish influenza. Mrs. Kelley was twenty-seven years old, and a daughter of Charlotte and the late William Reid of Grand Lake. She was ill only a few days, and leaves a baby girl eight months old, her aged mother of two sons, one brother and two half-brothers. Burial took place at Newcastle.

THE LATE SAMUEL O'DONNELL.
Samuel O'Donnell, who died in St. John yesterday, was seventy-one years of age. He was a contractor and builder and had lived for the last few years in Maine. He had come to St. John to have an operation performed on his eyes, but contracted influenza, which caused his death. He was a native of St. John, and is survived by two sons, John A. of this city and Malcolm M. in France, and two daughters, Mrs. Daniel Yates of Minneapolis and Mrs. Zill Cowan of this city. Interment will take place at Chipman.

THE WHARF REPAIRS.
The value of the repairs made to the Pettibone and Corporation wharves on the eastern side of the harbor, which have made it possible to use the railway tracks on the face of the wharves again, has been proved during the last few days when a large steamer was loading at this berth. By strengthening the wharf the rails on the waterfront side can be used with safety and this made it unnecessary to change their location to the street side of the sheds, where they would be more in the way of traffic and less convenient for loading and unloading.

A. L. BELYEA RE-ELECTED.
The Baptist Superintendent's Union met in Ludlow Street Baptist church last evening. The visitors were served at a dainty luncheon by the ladies of the church. The president, E. A. Belyea, then called the meeting to order, and reports were heard from the officers, showing the union to be on a solid working base. A pleasant feature of the evening was a speech from Deacon John Ring, honorary president of Ludlow street church, who has been connected with the Sunday school for fifty-seven years. The following officers were then duly approved: President, L. A. Belyea; vice-president, W. E. Belyea; secretary, J. A. Belyea; assistant secretary, H. Parsons; treasurer, D. Hunt.

SOME RECURRENCE OF INFLUENZA

This Province, as Elsewhere, Experiencing it in Some Localities—Increase in St. John but Not Serious

In this province, as elsewhere, there is in some localities a recurrence of influenza. There has been some increase in St. John, although the board of health figures show that it is not serious. Six new cases (in one family) were reported on Dec. 6, one on Dec. 7 and four on Dec. 9. Many cases are not reported. Hon. Dr. Roberts said this morning that during the last few days he had noted in his own practice a considerable increase in the number of cases. Other physicians had told him they were not so busy. They were not quite satisfied that the cases were of influenza, but the symptoms were those of severe colds affecting children. He had not thought of putting the ban on again. The department, he said, was keeping in close touch with the situation generally. If it developed that a severe recurrence of influenza was threatened along some line would be taken. History was merely repeating itself where there was a recurrence of the disease, as the record of other provinces and states clearly showed. Fredericton appeared to be suffering severely.

Dr. G. G. Melvin, provincial health officer, said this morning that ten new cases were reported from Grand Manan, and that the recurrence of the disease was probably as marked in Fredericton as anywhere in the province. Such a recurrence was common. It had occurred in Toronto, Boston and Philadelphia. In Hamilton the ban had been put on a second time. It appeared to be the disposition of the disease to go back and search out pockets and localities that had escaped in the first instance. This province had suffered less than most, and was now having what was a common experience.

New York Doctor's View.
Chicago, Dec. 1.—At the annual convention of the American Health Association here yesterday, Dr. Woods Hutchinson of New York, said that gauze masks and vaccine were about the only successful methods of fighting influenza. He declared that quarantines and the closing of all public meetings were "a relic of barbarism," with no value whatever.

"With everyone wearing masks in San Francisco," said Dr. Hutchinson, "the number of cases of influenza was brought from 2,800 a day down to 300 a day within six days, and business went ahead as usual. They vaccinated 81,000 there with almost no deaths among those thus immunized."

A St. John medical man, when shown this despatch today, said he did not agree with the statement that closing public meetings was of no value, since influenza was one of the few diseases where the closing of public assemblies was especially effective. As to the use of vaccine that was still in the experimental stage, and no man could speak authoritatively as to its value. Gauseman were undoubtedly of value.

IT WAS MEDICATED WINE.
Mrs. T. C. Donald, proprietor of a drug store in Hampton, wishes The Times to explain that the charge laid against her under the prohibitory act arose from her having in stock in her store some medicated port wine which had previously been classed as a patent medicine. While this was a technical violation of the act the magistrate recognized the extenuating circumstances in imposing the minimum fine.
