HUMPHREYS' SPECIFIC.

Ayer's Pills

Are better known and more generally used than any other cathartic. Sugar-coated, purely vegetable, and free from mercury or any other injurious drug, this is the ideal family medicine. Though prompt and energetic in their action, the use of the pills is attended with only the best results. Their effect is to strengthen and regulate the organic functions, being especially beneficial in the various derangements of the stomach, liver, and bowels.

Ayer's Pills

are recommended by all the leading physicians, and druggists, as the most prompt and effective remedy for biliousness, nausea, costiveness, indigestion, sluggishness of the liver, jaundice, drowsiness, pain in the side, and sick headache; also, to relieve colds, fevers, neuralgia, and rheumatism. They are taken with great benefit in child's and the diseases peculiar to the South. For travelers, whether by land or sea,

Ayer's Pills

are the best, and should never be omitted in the outfit. To preserve their medicinal integrity in all climates, they are put up in bottles as well as boxes.

"I have used Ayer's Pills in my family for several years, and always found them to be a mild and excellent purgative, having a good effect on the liver. It is the best pill used."—Frank Spillman, Sulphur, Ky.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists everywhere.

Every Dose Effective

BRANFORD, CANADA.

WILL THE FAIR PAY?

ALL THE BONDS WITH ACCRUED INTEREST WILL BE PAID.

Ontario's Sheep and Swine at the World's Fair—Quantities of Fruit Arriving From Canada—The Products of the Dominion Complimented by Sir Richard Webster.

WORLD'S FAIR GROUND, JACKSON PARK.

The circus features of the Fair, as they are called, are proving great drawing cards, and attractions of all kinds evolved for the most part from the fertile brain of Frank Millet, are crowding each other close these days. Mr. Millet whose writings and sketches have made his name a household word with magazine readers, has been Director of Color since the inception of the Fair, and to him the beautiful buildings owe much of their attractiveness inside and out. His duties in the line of construction being over, he turned his attention to amusement and designed the innumerable processions, illuminations, etc., which have so greatly increased the attendance. The whites and greys with which his palette was covered in the early days have been abandoned, and Mr. Millet has dipped his brushes in the brightest vermilion, with which to illuminate the closing scenes. The preparations for Chicago Day, October 9 when the anniversary of the great fire, from which dates the renaissance era of the western metropolis, will be celebrated, are now being elaborated, and will be on a scale never before attempted. Even St. Louis has forgotten its jealousy of its northern rival, and offered to forego its annual Veiled Prophet celebration, and contribute the beautiful tableaux prepared for that occasion, to make the night pageant more gorgeous. It is expected that fully half a million people will enter the gates on Chicago Day, as most of the manufacturing and mercantile firms will give their employes a holiday and present them with tickets of admission.

The question has frequently been asked, "Will the Fair pay?" The best answer to this is that the management has decided to pay off all the bonds in full, with accrued interest, on Chicago Day. With a continuance of the present large attendance till the close, it is expected that something will be left to pay off the ordinary stock.

The disposal of the buildings after the Fair is over is a question that has been discussed a good deal. The latest suggestion, and a starting one it is, is to

WYMC Prospect Park Enjoyed the Fair so Much.

Sir Richard Webster, chairman of the British World's Fair Commission, has done the Fair very thoroughly for the few days, and at a recent social gathering, paid a very high compliment to Canada, to whose courts he had paid special attention in making his rounds. The magnitude and perfection of our exhibits had astonished him, he said, and referring to the Ontario Educational Court in the Liberal Arts building, he expressed the opinion that it was one of the most beautiful and instructive in the whole Exhibition. It was the only one which at all approached his ideal of what an educational exhibit should be, for it was perfect in arrangement and explanatory in a simple and satisfactory way, of the finest practical system of public instruction in the world. It was the university, that the world affords today. Such a flattering testimonial, from so eminent an authority, is something to be proud of.

The three Ontario Shorthorn cows—Wendy, owned by E. May, of Hullett, of York; Fair Maid of Hullett, by Wm. Grainger, of Lutesborough, and Lady Bright, by H. Wright, of Guelph—which have been in the three dairy tests, were shipped home this week as cow calves. These cows have already made exceptionally good records for Shorthorns, some of them running as high as 50 lbs. of milk daily. Lady Bright, who is nearly 18 years old, still possesses extraordinary powers. As it has rained in the whole five months gone below 30 lbs. daily and has several times been in the 40's.

Nothing like it.

W. R. Chirdwick tells the following story: "Once, traveling through France, I reached Grenoble, where the only one I was almost penniless. I managed to go up to Thonon, a few miles from Geneva, and on my way there I thought a great deal of how to reach Geneva. I passed the night at the Lion d'Or, and the next morning when I woke up I called for the garcon and asked him for my trousseur. It is the custom in French hotels, you know, to put outside of your room your shoes and clothes, so that the following day you find everything clean. After some search he told me he could not find them. I insisted, and he had the landlord called up. 'I am sorry,' he said, 'but no one can tell me where your trousseur are.' 'Well,' I said, 'I want a pair of trousers and a ticket to Geneva I had in my pocket.' The landlord was at a loss. He had the house searched over and over again, but no trousers. 'Well,' said I, 'I shall not go out of here without my trousers and my ticket. Send for the chief of police.' Two hours later the landlord entered my room with a new pair of trousers and a ticket, apologizing for all that trouble." Mr. Chirdwick was asked where his trousers were, to which he replied: "I had none. I pawned them to pay my fare to Thonon."—Argonaut.

TO WHITEN THE ARMS.

To whiten the arms wash them every night in water as hot as can be borne, with soap, and rub them vigorously with a nail brush. Dry on a rough towel and rub in any preferred preparation of glycerine—with rose water or cucumber jelly—until it is quite absorbed. In a month the arms should be smooth and white.

THE STOCKBRIDGE BURGLAR.

One of the most remarkable burglars in criminal annals has been terrifying and fascinating the Massachusetts village of Stockbridge for nearly a year past, and more especially during the last three months. Stockbridge is a very beautiful village, lying in a valley among the Berkshire Hills about six miles from Lenox, the largest town in Massachusetts, with its permanent population of quiet and cultivated people, and in the summer it has a large number of transient residents of the same general sort. Its main street has the reputation of being the prettiest village street in all Massachusetts, with its fine lawns and its roadside kept like a gentleman's lawn. Along it on the hills overlooking are many fine residences, conspicuous among which are those of Hon. David Dudley Field, Mr. Joseph H. Choate; Mr. Charles F. Southmayd and Mr. Charles Butler, and New York lawyers of distinction. It is remarkable also for its beautiful Episcopal church of the best type of the old New England ecclesiastical architecture.

Nowhere is there more pious and decorous village than Stockbridge, and a more refined. Even this burglar is described by the women who encountered him under the unpleasant circumstances inseparable from the pursuit of his profession, as a suave, considerate, fascinating, intelligent, and cultivated man. His manners are so charming and his address so engaging that one of the women robbed by him at the point of a pistol declares that she "should dislike to know he was taken up." His voice was low, musical, soothing, mesmeric in its effect, says Miss Stetson, who has been robbed in the same way at midnight in the house of a lady whom she was visiting. His face was concealed, not by an ugly rag, but by "a man's hemstitched handkerchief," for, according to all the accounts, he seemed to be a handsome man. He was "cold and gleaming." As proof of his fine feelings, it is reported that when Mrs. Swan requested him not to steal a particular ring, as she prized it as a memento of her mother, "he nodded his head and went on his way." He was "a fine fellow," though the jewel was a costly diamond, and the booty actually secured by him was not great. When Mrs. Swan endeavored to start a conversation with him by asking, "Don't you think you might seek another employment?" the accomplished burglar only threw "an icy stare" at her. When he broke into the house of Mrs. Field and grabbed her valuable watch, holding "the muzzle of the revolver against her forehead," and she seized him, shrieking and struggling to get it back, he begged her in "low, deliberate tones" to be quiet, or "I'll shoot," and he sought to protect her against herself by gently saying, "You will hurt yourself. Keep quiet."

All of the women who encountered him in his midnight excursions speak of the "soothing, almost mesmeric, influence of his voice." Miss Stetson observed that his clothing was "that of a gentleman, of mixed material, and of fashionable cut, fitting his figure to a nicety." His eyes, she says, as reported in the New York Times, were "dark and mild and soft in expression, his ears small and shapely, his tall figure erect and carried with dignity and ease." He also goes forth on his burglarious enterprises in a manner becoming so fine a gentleman. "He invariably drove off in a buggy, and his horses were fast. He also proceeded in his work with all the deliberation of an educated professional man." He "had a habit of raising his eyebrows when he spoke," and his hands were white as a desert. His method of operating was delicate. He used the tools of his trade without the use of the tools of his trade. He gives color to the theory that he is only an amateur at the business. Moreover, he differs from the vulgar burglar in "never operating without covering his victim with a cocked revolver."

When the hair begins to come out in combing, it shows a weakness of the scalp that calls for immediate attention. The preparation to arrest further loss of hair and restore the scalp to a healthy condition is Ayer's Hair Vigor.

If one does not mind a little thud pulp and a somewhat foxy aroma, he should not be without the Pocklington grape.

Use Skoda's Discovery, the great blood and nerve remedy.

From The Far North.

In northern climates people are very subject to colds, but the natural remedy is also produced in the same climate. Dr. Wood's Norway Pine Syrup cures coughs, colds, hoarseness, asthma, bronchitis, and all throat and lung troubles. Price 25c. and 50c.

For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. It soothes the inflamed membrane of the throat, relieves the pain of cutting teeth, and restores the child to its natural health. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Wind Colic, softens the Gums and reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best physicians in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Beware and ask for "Mrs. Winslow's Soothing Syrup."

When Baby was sick, we gave her Castoria.

When she was a Child, she cried for Castoria.

When she became a Woman, she clung to Castoria.

When she had Children, she gave them Castoria.

Scott's Emulsion

Scott's Emulsion cures Coughs, Colds, Consumption, Scrofula, and all Anaemic and Wasting Diseases. Prevents Wasting in Children. Almost as palatable as milk. Get only the genuine. Prepared by Scott & Bowne, Belleville, Sold by all Druggists, 50 cents and \$1.00.
