Chinese Mission Testament Fund.—It gives us pleasure to hear that still remittances are flowing into this fund. Since our last, the amount of £4 7s. has been handed in by Mr. Bratley, collected from friends of the cause in the Brussels-street Baptist Church.—*Observer.*

☞ The *Admiral* arrived here last evening. By her we have received late American papers. Nothing of interest.

☞ *Holloway's Pills, the Best Remedy for the Cure of Dropsy.*——Extract of a letter from Mr. P. Williams, dated Melbourne, March 1, 1852.—"To professor Holloway.—Sir,—Feeling grateful for the benefit my wife has derived by the use of your Pills, I consider it my duty to inform you of it. Soon after the birth of her last child, her feet and ancles began to swell, and afterwards her whole body, strongly indicating dropsy, this occurred at the turn of life. I obtained the best medical advice, but her health continued to decline. I then tried your Pills, which I am happy to say have restored her to sound and perfect health."

Passengers in the Steamer *Arabia*, from England—Messrs. F. Neill, A. Hastings, and T. R. Jones, of this City.

☞ A correspondent wishes to know whether the Province debts lately paid by Government were disbursed from the Loan Fund or from the General Revenues? If from the latter the loan duty must be continued until the borrowed money is refunded.

We are not aware, but will make inquiry. At the same time it may be presumed that the Loan duty will be continued until it covers the amount of all borrowed monies.

Tuesday, schooner Pearl, Smith, Boston, 3; rum, Wellington, Whelpley, Portland, 2; B. Allison, provisions.

Brig Dasher, at Halifax, reports 8th instant lat. 54, 50, long 7h, passed the hull of a vessel dismasted, full of water, deck load of square timber, abandoned. Laleah, of St. John, N. B., on the eastern.

Missing Vessel.—The Schooner Wintammoyh, (of Cornwallis, N. S.,) Marshall, from Androssan, Scotland, for Boston, put into Kingstown, Ireland, and sailed thence November 5, since which nothing has been heard of her. She had a cargo of 160 tons pig iron and 50 tons coal. The vessel is insured in Boston for £1000 and the freight money for £300.

A Mystery of the Sea.—Captain Haskell, of ship Independence, at Valparaiso from San Francisco, reports that on the 21st November, lat. 43, 40 S., long. 121, 15 W., he saw a raft with two decayed bodies on it. The raft was made of spars from a vessel, and there were yards and beams, and eight water casks. It was well secured in every way, having a mast but no sail; a small piece of white cloth was tied up for a signal on the mast; there was a brass binnacle and a compass, a tin pump, waste, half barrel of dried fish, and some empty barrels. What a tale of hardship and suffering is probably associated with that raft. It is impossible any article was secured in order to ascertain name or the unfortunate vessel to which they belonged.]

Wild Cherry Balsam.

No Quackery—No Deception.—In setting forth the virtues of this truly great medicine, we have no desire to deceive those who are laboring under affliction, nor do we wish to eulogize it more than it justly deserves. Yet when we look around and see the vast amount of suffering and distress occasioned by many of the diseases in which this medicine has proved so highly successful, we feel that we cannot urge its claims too strongly, or say too much in its favour.

We cut the following very valuable and important testimony in favour of Wistar's Balsam of Wild Cherry, from the spicy and highly respected Daily Evening Transcript:—

Providence, April 16, 1842.

We take pleasure in recommending this valuable medicine, and in doing so feel that we are doing our duty. We do not say this from mere hearsay, or from the examination of the large number of certificates from authentic sources, (and persons, too, whom we know to be responsible,) of the wonderful cures wrought by this truly remarkable discovery, but from a personal knowledge for several speedy cures effected by it, in cases of Coughs, Colds, and Diseases of the Lungs.

This will be enveloped with a wrapper; copywright secured, 1844; on which will always appear the written signature of I. BUTTS.

S. L. TILLEY, Agent, St. John New-Brunswick.

Hartley's Patent Rough Plate GLASS,

For Horticultural and other Purposes.

A Quantity of the above article is expected in April, of various sizes.

The above is slightly rough on the surface, which has the important effect of dispersing the Sun's rays, instead of concentrating them. It is the eighth of an inch thick, admirably adapted for Horticultural purposes, from its great cheapness, and its diffusing of light, without that scorching heat which makes its way in summer through all ordinary Glass.

It is now used in England for covering Ship Yards, Cow Houses, Glazing Mills, &c. Samples can be seen at
