"A series of charming Essays. . . . Each chapter branches out into innumerable topics of a seendary and collateral nature, giving to the work a boundless diversity. enriched with stores of ethical as well as of spiritual wisdom, evincing at once acute observation of social life and of human character, and containing the Diblest lessons for practical guidance. Gur author's style is remarkable for its free, Uneon strained flow, almost collequial at times, but invariably signalized by elegance, force, adap-tation to the subject, and not seldom by origi-nality of thought in combination with terseness and beauty of expression. . . There is about it a freshness, as well as a fullness of protical teaching, rarely to be met with in ordinary Biblical commentaries."-Londonderry Standard, Feb. 15, 1871.
