

This institution was honored in July, by an informal visit from Her Royal Highness the Princess Louise, who manifested much interest in the work, and inscribed her name on the visitors book.

We regret that we were unable to send delegates to the International Conference, held in Cleveland in the month June, but special meetings were held here, and interesting and instructive papers read on the subjects that were discussed at the Conference. A report of our work was sent, and a message of greeting telegraphed from Titus 3-15.

The Committee greatly regret that their funds will not permit them to continue to carry on the Coffee Room as a branch of the Association.

The long delay in obtaining the Government grant, caused much inconvenience, and a great deal of time was spent in making money instead of being devoted to other and higher purposes; but the necessary expenses had to be paid, and the Committee greatly rejoice, that by God's blessing, their efforts have been successful, and they have been kept free from the oppressive thralldom of debt.

The Government grant was received last month, and is thankfully acknowledged; also, the services of T. H. Oliver, Esq., in obtaining the same, and giving much valuable information.

Two Sales of Work have been held this year; one at Easter, in the Morrin College, to the Trustees of which we tender our sincere thanks, and the other at Christmas in our own rooms. The Sewing Meetings are still continued, and a number of articles are now ready for sale.

A Harvest Festival, originated and successfully carried through by Miss Roberts, was held in September, and realized the sum of \$48.

Two Concerts have been held under Miss Chesley's management.

The Meetings held in the rooms are as follows:—

MONDAY—In-dore Mission Meeting.
