widely as the poles. In the juvenile mind the day is inevitably associated with "hot cross buns." The youngsters gaze wistfully at these dainties displayed so temptingly in the shop windows, and long for their share, just as they gloat over the chocolate rabibits and saccharine eggs which bring them joy at Easter.

The angler wonders whether the Lord's Day act has any application on Good Friday and dreams of a certain shady pool on the River Thames. The baseball enthusiast grasps his bat and ruminates on the possibility of having a quiet game in his backyard. The aspiring horticulturist thinks Good Friday will furnish a good opportunity for putting some bulbs in the ground or giving his garden a clean-upweather permitting. Then again, there are those who seize the facilities afforded by the holiday of visiting friends at a distance. There are still others, some may call them old-fashioned people, who go to church.

WAGE CUT BY STREET RAILWAY IS RUMORED

February Provides the First Deficit Under Control of the O. R. M. B.

A deficit in the operation of the street railway occurred during February for the first time since the Ontario Railway and Municipal Board took charge of it last summer. Official copies of the report are not available. It is said that the deficit is fairly small and that it may be made up by subsequent earnings. For this reason it is not likely that the board will relinquish control of the road. Regulations require the board to cease operation of a railway when the earnings are not sufficient to meet expenses.

Rumors that a wage cut is concient to meet expenses.

Rumors that a wage cut is contemplated were denied today by Secretary. Leonard Tait. "The men have an agreement with the board until the first of April, so there could not possibly be any change in the schedule until them," he said. "Of course there will have to be a new agreement at that time, but I have heard nothing of any reduction."

Cured His Rupture

I was badly ruptured while lifting a runk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation. If you write to me, Eugene M.
