For over 50 years we have been building a reputation for High Class Machinery. Our Mills and Machinery extend, in Canada, from the Pacific to the Atlantic—Newfoundland, Central and South America, New Zealand, Australia, Austria, Roumania and the far east. Our aim is ever to produce the Best, not the Cheapest, with the invariable result that where we receive one order others follow quickly. Our new works, occupied in 1896, give us the much needed room for expansion, coupled with the most modern facilities for economic production and prompt shipments. If you belong to the minority who do not know us, let us become acquainted.
